

Thirty Years of Service

In the scale of human living thirty years is a comparatively long time. It is almost unbelievable to look back and see the changes which have taken place in Newton during that period. In 1911 a young man entered the service of the city in the city clerk's department. With the beginning of 1941 he had marked the completion of thirty years of faithful and valuable service to the municipality. Last week a group of intimate friends and associates tendered to City Clerk Frank M. Grant a testimonial indicating the respect and esteem in which he is held. Undoubtedly had space been available many more than the one hundred and twenty persons present would have attended. City Clerk Grant has come in contact with thousands of persons in the course of his duties. Newton has long been known as a well-governed and well-administered municipality. Throughout the past thirty years City Clerk Grant has been an integral part of the city's official family. May he continue to serve for many years to come.

Spring Clean-Up Week

With the annual advent of spring comes the usual bustle of clean-up. Next week has been designated officially as Clean-Up Week in Newton and the street department has prepared a schedule of collections which will enable citizens to have the winter's accumulation of debris ready for removal from the premises. The entire community benefits from the annual clean-up drive when citizens co-operate in the effort. The result is—better community spirit—better citizenship—cleaner streets—a lower fire loss—improved playgrounds for children—beautified homes and neighborhoods—jobs for the unemployed—healthier and more attractive communities. Roll up your sleeves and get your spring cleaning, both inside and out, done immediately.

Alderman McKay Resigns

Following eight years of service as Alderman from the Newton Highlands section, Alderman Donald D. McKay tendered his resignation to become effective next month. A disinclination to be a candidate at the 1939 election and the pressure of personal affairs brings the resignation. We have no intention of making an issue of the personal reasons which underly Mr. McKay's decision. That is

Five Newton Teachers Will Retire in June

Mr. Thurber, of English Department, One of Group Serving Many Years

The retirement of five Newton school teachers at the end of the present school year was revealed at a school committee meeting on Monday night when resolutions were adopted expressing appreciation for their long service. The length of service of the five teachers varies from 41 years to 14 years with an aggregate total of 151 years of teaching service. Among those who will retire is Samuel Thurber, who joined the Newton High School faculty in 1902 and became head of the English department in 1921, and Miss Elizabeth A. H. Jackson, kindergarten teacher at the Roche School in Newton Centre who has been a member of the Newton teachers staff for 41 years. Others who retire are Mrs. Agnes W. LaCroix, teacher at the Emerson School, Newton Upper Falls, 34 years; Miss Ana F. Higgins, teacher of special classes at the Carr School, Newtonville, 23 years; and Mrs. Emma S. Whitmore, special assistant at the Franklin and Daniels Schools, West Newton, 14 years.

The resolutions adopted by the committee also expressed regret at their retirement. The committee also adopted a resolution on the death of Nellie Frances Monk, a teacher in the public schools of the city for 32 years.

Acceptance of the resignation of Miss Marjorie Dunstan as an English teacher in the Weeks Junior High School was voted. Miss Dunstan is on a leave of absence and in Honolulu where she will accept a position in the schools there.

Miss Mary Louise MacDonald of 156 Warren st., Newton Centre, was elected a teacher in the Rice School, Newton Centre, effective next September. Miss MacDonald is 26 years old, was graduated from Newton High School in 1932 and the State Teachers College in Framingham in 1935. She received a degree from B. U. in 1940. Formerly teaching in Merrimac she is at present a teacher in Winchester.

Civil Service Exam For Soldier's Relief Investigator

A Civil Service examination will be held on May 17th for the position of investigator in the Soldiers' Relief Department of Newton. A vacancy resulting from the death of Investigator Ellery Manley last year was recently temporarily filled by a provisional appointment for a period of 90 days. May 3rd is the final date for filing applications for the examination.

The position carries a salary of \$24 a week. The duties include visiting relief recipients, checking banks and insurance companies for assets and attending meetings of the Soldiers' Relief Committee of the Board of Aldermen.

Churches Unite In Special Service

A large attendance of Newton Protestant laymen and clergy is expected at a special Newton-wide service Sunday at 8 p. m. at the Second Church, West Newton, under the auspices of the World Council of Churches.

A special service has been arranged by Rev. Boynton Merrill.

The sermon will be preached by Basil Mathews, professor of Christian World Relationships, Boston University and Andover Newton Theological School, for 15 months during the present war with the British Ministry of Information, and also during World War I, well-known figure in world affairs. He helped interpret the news for 100 American correspondents, radio commentators and news-reel people and to arrange news trips for them.

Prof. Mathews was one of five directors of the American division, headed by Sir Frederick Whyte. A half hour after information was received, it was written and relayed through another bureau for release. The Ministry, directly opposite the convention, has been informed of the arrangements.

The program is an all day deliberative conference with representatives in attendance from all the New Eng-

Annual Music Field Day of School Bands

The Annual Music Field Day of the Newton School Department, comprising all bands and drum corps of the city schools, will be held on Thursday, May 8 (in case of rain on May 15) on the high school athletic field at 3:30.

As in the past, there will be a short parade leaving the high school at three o'clock—out Elm rd. to Lowell ave., to High ave., to Walnut st. and back to the high school field.

The units taking part in the parade in order of their appearance will be: Grade School Band of over 100 members, the combined city Drum Corps, the Day Junior High School Band, the Weeks Junior High School Band, and the Warren Junior High School Band, and the Newton High School Band. There will be a reviewing stand at the corner of Elm rd. and Lowell ave. for the parade, before the program on Clafin Field.

The public is invited to attend.

Rinker To Head English Department

The appointment of Floyd B. Rinker as head of the English department in the Newton High School was announced Tuesday by Superintendent of Schools Julius E. Warren. The appointment will become effective in September and will fill the vacancy caused on the retirement of Samuel Thurber, present department head, in June. Mr. Rinker has been an English teacher in the high school since 1928.

Conference of Educators at H.S. May 5th

Governor and Others To Address Public Meeting In Evening

On Monday Newton will be host to a conference of educators and civic leaders at various sessions and group discussions to be held at the Newton High School. The purpose of the conference is aimed to promote the application of the case book, "Learning the Ways of Democracy," produced by the National Educational Association, and the American Association of School Administrators.

About 150 are expected to attend the sessions which will be opened at 9:30 by Superintendent of Schools Julius E. Warren of Newton. The evening meeting at 7:30 p. m. will be open to the public and will be addressed by Governor Leverett Saltonstall, Howard E. Wilson, professor of the School of Education of Harvard University and Max Lerner, editor of The Nation and professor of Political Science at Williams College.

The Newton conference is one of thirty regional conferences taking place this school year throughout the country. Among other conferences held during April and to be held during the month of May are: Lincoln, Nebraska; Des Moines, Iowa; Milwaukee, Wisconsin; Minneapolis, Minnesota; Pittsburgh, Pa.; Rochester, N. Y.; Philadelphia, Pa.; New York City.

The program is an all day deliberative conference with representatives in attendance from all the New Eng-

Legion Guards Plan Exhibitions

In connection with an "On to Milwaukee" drive by the Newton Legion Guards, national championship drill team, a series of public exhibitions have been announced. The 1941 national Legion convention will be held in that city next September. Last year when the convention was held in Boston the Newton Guards were ineligible to compete, being a host organization, and consequently forfeited the national honors they had won three consecutive years previously. The Newton Guards will endeavor to regain their laurels at Milwaukee.

Next week, May 10 will be known as Newtonville week. During May and June other weeks will be held in various sections of the city according to announcements made by William J. Maloney and J. Warren Girroir, co-chairmen of the committee to raise funds for the expense of the trip.

The week will culminate with a parade and exhibition on Saturday evening, May 10th, in Newtonville sq. The Legion Guards on band will head a military parade, followed by a motor cavalcade of equipment of local merchants. The parade will start at 7 p. m. on Washington st., near Crafts st., will follow a route to a point near the fire engine house, turn right and return to Walnut st. near Watertown st. and thence pass through Newtonville sq. to Otis st., where the parade will disband. The Legion Guards and the band will return to a bandstand to be erected in Newtonville sq. where a drill and band concert will furnish a program. The trophy display of the Guards will be on exhibition during the week at Star Market Co.

"Newton Centre Week" will be May 19 to 24 with similar exhibitions to follow in Newton Corner, West Newton, and Nonantum.

Discuss Airport At Oak Hill Assn. Meeting

The annual meeting of the Oak Hill Improvement Association was held on Monday evening at the Oak Hill School. Continued opposition to the proposed airport in that section of the city, a report on the building of a new playground and the election of officers were the features of the evening.

Norman A. Hall was re-elected president of the association. Other officers elected were Franklin G. Balch, Jr., first vice-president; Miss Nellie Smith, second vice-president; Mrs. Laurence Early, secretary; John B. Stetson, treasurer; Kilby Kline, Richard Willis, and Robert Warner, directors for three years.

Charles R. Davis reported that an area of 30,000 square feet on Wheeler rd. would be improved and graded to provide a junior baseball field and playground. Street Commissioner Arthur Campbell late last week announced the appointment of Paul L. Mullen as maintenance foreman. He was promoted from the position of carpenter to succeed James Newell who retired as superintendent of maintenance last fall. Mullen has been employed by the department for about 20 years. Four employees of the department took a promotional examination for the position which has a salary of \$2,650, with Mullen receiving the highest mark.

A long discussion was held over the proposed airport in Oak Hill. Alderman Joseph B. Jamieson, chairman of the special committee of aldermen and citizens studying the proposal assured those present that a full public hearing would be necessary before any action is taken since a change in the zoning law is required. In view of the fact that the committee has reported favorably on the airport proposal despite repeated protests from members of the assn.

Alderman To Hear Gas and Garage Petitions

Public hearings will be held at the meeting of the Board of Aldermen next Monday evening on three garage and gasoline petitions.

The Eichler Trust is seeking a permit to erect a one-car lubricitorium as an addition to the gasoline station at 25 Needham st., Newton Highlands.

The Riverside Sand and Gravel Company asks for a permit to erect a four-car garage at 343 Grove st., Newton Lower Falls, in connection with its plant.

The New England Concrete Pipe Corporation has petitioned for a permit to install an underground tank at 109 Needham st., Newton Highlands, and to store 10,000 gallons of gasoline in addition to 1,000 gallons in an underground tank already on the premises, for private use.

School Board Defers Action On Job Bureau

Until May Meeting At Request of Two Members

The proposed establishment of a placement department in aid of Newton High School students and graduates was postponed for further consideration at the next meeting of the School Committee on Monday, May 26th, following a discussion of the matter last Monday evening by that board. Two members of the committee, Joseph F. Wogan of Ward 7 and Ralph Tabor of Ward 3 question the wisdom of taking affirmative action at present. Committee-man Wogan pointed out that the placement problem is not as acute now as in recent years in view of improving employment conditions. He commented that there would have been great value in the plan in 1932.

Committee-man Tabor stated that there are several legislative proposals calling for the establishment of placement bureaus in all high schools and suggested that it might prove wiser to wait until the State Legislature has acted upon them.

Previously Superintendent Warren had recommended the establishment of a placement bureau to be under the direction of Carl P. Birmingham of the Newton High School faculty who, with a few other teachers, has given considerable attention to this work in recent years. A clerk would also be assigned to the office. Supt. Warren explained that a survey has shown that approximately 1235 students and graduates whose education terminated with graduation from high school would be served. In addition to placement service they would also receive occupational guidance. It is intended to establish the bureau for a year's trial period beginning in September.

The School Committee granted the use of school buildings for various purposes including the following:

High School Auditorium—Oct. 21, 1941—Newton Taxpayers' Ass'n Annual Meeting, 7:45-10 p. m.

Clafin School—Wed., May 14, 1941—All Newton Music School Board of Trustees, 7:30 to 10 p. m.

Claflin Club Holds Annual Father And Sons Night

The Claflin Club, men's organization of the Newtonville Methodist Church, closed its season of monthly meetings last Friday night with the observance of Fathers' and Sons' Night and the annual election of officers. Over one hundred and twenty were present at the dinner which preceded the entertainment program directed by President Frank M. Simmons. The program was opened with marimba solos by Clarence Hutchings, assisted at the piano by Paul Shannon and on the drums by Archie Bellinger. Cartoon drawings by George Hutchings followed.

Superintendent of the Metropolitan Police Edward M. Woods spoke briefly and introduced Deputy Superintendent Hayes who told of the departmental activities.

A motion picture of the Metropolitan District Commission activities in the extensive park areas around Greater Boston including skating and boating on the Charles River basin, skiing at Mt. Hood, the Middlesex Fells Zoo, and parade duties and drill by the Metropolitan police force gave those present a wider acquaintanceship with the extensive work of this commission. The Metropolitan Police pistol team closed the evening's program with an exhibition of expert pistol shooting that caused many of the younger lads present to hold their breath. The team was under the direction of Lieutenant Boudreau.

At a brief business meeting which immediately followed the dinner reports of the various officers were accepted. Expressions of regret were adopted on the illness of Howell Du Puy, for many years an active member of the club. In his absence as chairman of the nominating committee this report was given by Warren K. Brimblecom, renominating the officers who had served during the current year as follows: Frank M. Simmons, president; John A. Dunn, vice-president; Howell E. Du Puy, Jr., treasurer; and Allan J. MacQuarie, secretary.

Newton Man Tops State Civil Engineers List

On the eligible list for state-wide service announced this week by the State Division of Civil Service for the position of civil engineer, Grade II, the name of Waldemar G. Nichols, 29 Vernon st., Newton, a veteran in the top position. John H. Manning of 9 Rockland st., Newton, is another in the first 50 certified.

The division also announced the lists established for civil engineering positions in Newton with Nichols as first, Manning as second, Robert A. Frye, 51 Jackson rd., third; David B. Heard, 86 Upland rd., Waban, fourth.

NEWTON LODGE OF ELKS

The local contest for an essay on national defense was won by Edward C. Kelly, a student at Our Lady's High School. The first prize was \$25. Second prize of \$15 went to Jane Timmons Parker of Newton High School and third prize of \$10 to Eletta Gallen of Our Lady's High School. The three winners will compete in the state contest, winners of which will be eligible for the National Association prizes of \$1000, \$500 and \$250. The three local winners will also be presented with certificates of merit by the defense committee of Newton Lodge of Elks of which P.E.R. William E. Earle is chairman. Awards will be made at the next meeting of the lodge. Judges of the contest were former Mayor Edwin O. Childs, Frank Frazier and R. John Henderson.

Plans were announced for Flag Day exercises to be held on June 12th under the direction of P.E.R. Edward Dalton, Frank Frazier and P.E.R. Thomas Ryan.

A committee comprised of Edwin O. Childs, Wallace MacPherson, and William H. Earle has been appointed to arrange for a Mother's Day observance on Sunday, May 12th at Elks Hall.

SHUT-IN SOCIETY

The Massachusetts Branch of the Shut-In Society will hold its last luncheon of the season at the College Club, 40 Commonwealth ave., Boston, on Wednesday, the 7th of May, at 12:30. At the meeting, which will begin at 1:30, Miss Anstace E. Jenkins, president, will preside. Among those who will tell of the plans being made for summer work will be Miss Mary D. Nickerson, Mr. Alonzo A. Cole, of Newton Highlands, and Mr. Ralph A. Luce.

The hostesses will include Mrs. Durham Jones, Mrs. H. Bigelow Emerson, and Mrs. Frank A. Day, Jr., all of Newton, and Mrs. George R. Brown, of Chestnut Hill. They will be assisted by Mrs. Richard Dexter Walker, Jr., and Miss Nancy McNeil, of Boston, Miss Ruth Rounds, of Waban, and Miss Mary Helen Brown, of Chestnut Hill.

ZONTA CLUB

The Newton Zonta Club met Monday evening, April 21st, at the home of Miss Mary Barbour, 147 Prince st., West Newton. The members and guests were much interested in a display of puppets made by the children in the Carroll School of which Miss Barbour is the head. Following the business session, while stereopticon pictures and movies were shown, Mr. Harlow Seeley of Woburn, Mass., lectured informally on Western Travels. Refreshments were served and the classrooms of the Carroll School were opened for inspection.

The next meeting of the Newton Zonta Club will be at the home of Mrs. Dora Fyfe, White Oak rd., Waban.

Rotary Club

"Democracy Can Be Made To Work" was the subject of Mr. Winslow Upton, speaker at the weekly meeting of the Newton Rotary Club held Monday at the Brae Burn Country Club. He asserted that the American people can make it work if they would employ the same persistence and integrity that their forefathers used. Furthermore we must do it if we are to survive as a democracy.

Mr. Upton described a true democracy as a method of self-government which respects the equal rights of others while insisting upon its own rights. To many people democracy is purely a political term, to others an economic one while some believe it is the unrestrained right to do as one pleases. These latter ideas must be overcome before a true democracy exists. True democracy never occurs automatically and is not self-perpetuating but is always the result of hard, self-effacing work by men trying to reach some degree of liberty and justice. It has reached its highest development in the United States. It is mainly a matter of individual development and to make a true democracy the man in the street must understand the laws of human association. This can only come about by working from the bottom up and not by precepts handed out from the top.

Mr. Upton is a voluntary instructor in the Henry George School of Social Science, of which there are approximately 300 teachers in America with 30,000 enrolled students. The teachings of the school are based on the writings of Henry George, mainly on his "Progress and Poverty," published in 1879. There were many who followed him in those days due to his outstanding personality but upon his death in 1897 the movement languished and it is only since 1932 that a recurrence has arisen which has gained not only national but international prominence.

If the world is ever to enjoy free, equal association, which is true democracy, it can only be because the United States has proved by active demonstration that it is the most desirable concept of a human world.

In conclusion Mr. Upton said that if we are to have true democracy and make it work we must have the stamina and willingness to prepare ourselves to make decisions and to make them as individuals. We must recognize equal rights of others without forfeiting our own rights, and must have a right to the fruits of our own efforts and equality of opportunity. Correct thought will be followed by correct action but the correct thought must come first.

Mr. Upton was introduced by Edward VanTassel of Newton who has a wide acquaintance among Newton Rotarians. He is the instructor of the Newton branch of the Henry George School of Social Science which meets every Tuesday evening at the Newtonville branch Library.

President John Cahill presided and the program was under the direction of Vice-President Charles A. Meeker.

Newtonville Pastor To Serve Another Year

Rev. J. Franklin Knotts of the Newtonville Methodist Church was invited to return as pastor at the fourth quarterly conference of the official board last week, subject to the approval of the Bishop and the forthcoming district conference. Dr. Knotts accepted the invitation and informed the meeting that he would retire from his pastorate at the 1942 district conference.

Dr. and Mrs. Robert H. Whitmarsh of Providence, R. I., have announced the engagement of their daughter, Miss Marjorie Moncrieff, to Hugh Foster Kennison, son of Mr. and Mrs. Karl R. Kennison of 28 Byfield rd., Waban, at a tea given at the Interlude House in Norton, Mass. Miss Moncrieff is a member of the senior class at Wheaton College. Mr. Kennison attended Wesleyan University and received his degree in Engineering at M. I. T. in 1939. The wedding is planned for the late summer.

Dr. and Mrs. Robert H. Whitmarsh of Providence, R. I., have announced the engagement of their daughter, Miss Marjorie Anne Whitmarsh, to Hamilton Young, son of

\$25,000 Fire In Large Sand Hopper

A spectacular two-alarm fire in a wooden sand-hopper at the plant of the Riverside Sand & Gravel Company on Grove st., Newton Lower Falls, last week Friday, caused damage in excess of \$25,000. The huge structure continued to smoulder for many hours after the fire was brought under control as firemen of Newton and Wellesley poured endless streams of water onto it.

The blaze was discovered about 7:30 a. m. by Dominic Zarilla, of 33 Chandler st., Newton, a workman, while he was on the top floor of the hopper. He ran down the stairs to safety as the flames spread rapidly and enveloped the building. An alarm from Box 53 at 7:36 brought Engines 2, 5 and 6 and Ladder 2. Deputy Chief Henry T. Seaver ordered a second alarm at 7:41, bringing an engine and an aerial ladder from Wellesley and additional Newton apparatus, Engines 3, 4 and 7 and Ladder 1. At 8:15 Ladder 3 was detailed to the scene of the blaze and Waltham apparatus "covered in" at the Newton stations.

The building, about 60 feet high and 60 by 50 feet, was constructed largely of heavy wooden beams and contained considerable machinery, including a crusher, screen, cement mixer and motors. President Louis Vassalotti, of the gravel company, expressed the belief that defective wiring may have been responsible for the blaze. He said the structure had been rebuilt last year and new wiring installed recently.

Recent Engagements

At a tea given at their home on Sunday afternoon, Mr. and Mrs. Homer F. Prouty of 63 Nehoind rd., Waban, announced the engagement of their daughter, Miss Thelma Prouty, to Fowler Brooks Cole, son of Mr. and Mrs. Frederick Brooks Cole of 31 Tarleton rd., Newton Centre. Among those assisting were Mrs. Joseph Bixby Hoyt, Mrs. Harlow Burbank Cole, Mrs. Aldrich Draper Prouty, Miss Phyllis Gale Wheeler as pourers, Miss Virginia Hamilton, Miss Louise McKinney, Miss Martha Billings and Miss Virginia Green.

Mr. and Mrs. Samuel F. Kaplan of 526 Commonwealth ave., Newton Centre, have announced the engagement of their daughter, Miss Phyllis R. Kaplan, to Harold Ritter, son of Mr. and Mrs. Max Ritter of Bridgeport, Conn. Miss Kaplan is a student at Emerson College. Mr. Ritter was graduated from Dartmouth College. A June wedding is planned.

Mr. and Mrs. James Dempsey of Brookline and formerly of Newton Centre have announced the engagement of their daughter, Miss Katherine Dempsey, to Maurice A. Reidy, son of Mr. and Mrs. Maurice A. Reidy of Chester st., Newton Highlands. Miss Dempsey was graduated from Lasell Junior College in 1936 and studied dietetics at the George Washington University Hospital in Washington, D. C. Mr. Reidy was graduated from Harvard College in 1940 and will receive his master's degree in June from the Harvard Graduate School of Engineering.

Unveil Plaque For B.C. Football Victory

A bronze plaque, in recognition of the Boston College football team's Sugar Bowl victory last New Year's Day was unveiled at appropriate ceremonies in the Tower Auditorium at Boston College last week Thursday. Mayor Paul M. Goddard of Newton was one of the principal speakers. The plaque was presented by the Boston Chamber of Commerce. Melville D. Liming, managing director of the Chamber, unveiled the plaque, stating that the presentation was for a notable accomplishment and tendered as a lasting reminder of the good wishes and regards of the organization towards the college. Other speakers included Mayor Maurice J. Tobin of Boston, Coach Denny Myers, Jim Murray, president of the Student Association, Fr. Maurice Dullea, S. J., faculty director of athletics, and John P. Curley, graduate director of athletics.

The plaque pictures the Sugar Bowl Stadium, the B. C. Towers, and a big eagle, and lists college officials, coaches and the entire 1940 squad. Rev. Fr. William J. Murphy, S. J., president of the college, accepted the plaque which will later be placed on the wall.

DEFENSE GARDENS

According to national gardening leaders, the country's home-garden output is now far under that of 1917, with only about half as many gardening families now as then.

In the face of these facts, home gardeners are advised to do two things: Plan to devote increased space to vegetable gardening in the coming season; and perfect plans for the 1941 garden so as to get the greatest possible yield from the space available.

In stepping up yield from vegetable gardens of limited size, two major devices should be relied on: First, companion cropping—the planting of fast-growing crops like radishes and onions and lettuce between rows of slower-growing vegetables like tomatoes and spinach and cabbage. The fast growers will be pulled and used before the other crops need the space.

Second, succession cropping—the repeated planting of major crops such as beans, sweet corn, radishes, carrots, beets, lettuce. Moderate-size, new plantings made at regular intervals during the early part of the season will provide a steady supply of the fresh vegetables until season's end.

More frequent plantings can be made of the faster-maturing vegetables like radishes and lettuce, than of slower maturing items like sweet corn and carrots. Care must be taken, when planting succession crops, to plant only as much as can be used before a succeeding planting is ready to be harvested.

his personal affair entirely and we do not impugn his motives in any way. We would, however, call attention to the fact that the resignation from an elected public office prior to the expiration of a regular term frequently results in the hand-picking of a person to replace the resigning official. In Newton we have hand-picked many persons who have more than carried their share of the duties of their offices with gratifying benefit to the city.

However, in almost every instance the person chosen to fill such a vacancy has an advantage over any other candidate when his name appears on the ballot at the subsequent election. True democracy requires the right of franchise and the right of the voters to select the officials whom they desire to serve. Except in extraordinary and emergency cases we believe that elected officers are under an obligation to their constituents to complete that term of office.

In the Name of Defense

The most oft-repeated phrase of the moment is that of doing and acting in the name of "national defense." National defense is the crying need of the moment. But what inconsistencies are committed in its name. Let us do all that we can to promote the defense and the resources of this country that democracy may live but let us not, simply to get something accomplished for the benefits which might be derived therefrom, do things in the name of defense which are not essential to it.

Northeastern Head To Speak at "Y" Meeting

"Eyesight and Insight" will be the topic of an address by President Carl S. Ell of Northeastern University at the 64th annual meeting of the Newton Young Men's Christian Association this Monday, May 5th. Dinner will be served at 6:30. Reports of the Association's year will be given and plans for the future will be discussed. President Frank A. Day, Jr., will preside. Arrangements for the annual meetings are being made by Vice President F. S. Bacon, chairman of the social committee. Reservations are now being made by members of the Association and their friends. The dress will be informal. The entire program is expected to conclude shortly after 8:30 p.m.

Caught Riding "Blind Baggage" and Sentenced

A chase following discovery of two men riding "blind baggage" on the New England States train at Newtonville last Thursday resulted in the arrest of George Batchelder, 36, of Somerville, and Charles Whelan, 41, of Providence. In court on Friday, charged with evading payment of fare and drunkenness, the pair were sentenced to the State Farm.

Seen by a brakeman when the train stopped at Newtonville, they broke away and ran along the tracks. As they ascended the embankment at Mt. Vernon st. they were captured by Patrolmen Maurice Marshall, Lawrence Dungan and Charles Mar-

Newton Families

MRS. JOHN V. SPALDING AND CHILDREN

The white colonial house at 257 Dedham st., Newton Highlands, has a kind of international flavor; and if you go there, you are very likely to be greeted first in French and then in English.

Mr. and Mrs. John Varnum Spalding believe definitely in the advantages to be gained from speaking two languages. The French half is Mrs. Spalding's native tongue since she was born in Bordeaux, France, where her father is in the wine business. Mr. Spalding who is a lawyer is a native New Englander, having been born in Lowell and graduated from the Newton High School. He holds a bachelor's degree from Harvard College as well as a degree from Harvard Law School, and his

clubs include the Harvard Club of Boston and the Exchange Club.

One of the rules of the house is that only French be spoken at the dinner table. Robert Veen, eight and one-half, and Marianne, five, find this no hardship, since they are equally at home in French as in English. In addition to being a linguist, Robert is a gardener. As a matter of fact, his garden is the family pride. Winter time sees the family life centered in Mr. Spalding's new dark paneled den; while in the summer they spend much of their time on the terrace and in the garden where they often have outdoor suppers in front of the stone fireplace there.

Mrs. Spalding devotes herself first to her children and then to the French cause.

SOUTHER—SAYRE

Miss Virginia May Sayre, daughter of Mr. and Mrs. Russell C. Sayre of 221 Greenacres ave., Longmeadow, Mass., was married to Richard Copeland Souther, son of Mr. and Mrs. George W. Souther of 79 Alton rd., Waban, on Saturday afternoon, April 26, in the First Church of Christ, Longmeadow. Rev. Robert M. Bartlett performed the ceremony.

The bride wore a gown of ivory satin and an illusion veil of fingertip length caught to a coronet of seed pearls. Her bouquet was of white boudoiria and summer orchids. Mrs. Philip J. Sullivan of Springfield, the matron of honor, wore petal pink with fagoted girdle and full sleeves, and a shoulder length veil which fell from a corona of pastel spring flowers.

The bridesmaids were Mrs. J. Thompson Walton of Keene Valley, New York, and Miss Ruth Sayre of Longmeadow.

Mr. and Mrs. Souther will make their home in Augusta, Maine.

The bride attended the Springfield Schools and was graduated from the Chandler School, Boston. The groom attended Newton High School, the Huntington School and Bowdoin College. He is a supervisor for the Rival Foods Co.

SMITH—MUTHER

Miss Josephine Muther, daughter of Mr. and Mrs. Lorenz F. Muther of 180 Elm st., Newton Centre, was married to Edwin Drown Smith of 19 Hyde st., Newton Highlands, son of the late Mr. and Mrs. Edgar Jacobs Smith, at eight o'clock on Saturday evening, April 26. The candlelight ceremony was performed by Rev. George Lawrence Parker of Keene, New Hampshire, in the home of the bride's parents. A reception followed at the Brae Burn Country Club.

The bride wore a gown of white satin trimmed with lace with a long train. Her veil of tulle was caught to a tiara of pearls and she carried gardenias, white stock and white sweet peas. Mrs. John Bigelow of Pomfret, Conn., the bride's only attendant wore turquoise chiffon and carried African daisies and coral sweet peas.

Edwin S. Smith, Jr., cousin of the groom, was the best man.

On their return from a wedding trip to the South Dr. and Mrs. Barbour will make their home in Newton Highlands.

The bride was graduated from Wheaton College in 1936. The groom was graduated from Bowdoin College in 1933 and from the McGill University Medical School at Montreal. He is a member of D. K. E. the Newton Medical Club, Massachusetts Medical Society, and the American Medical Association.

GEARHART—KELLAR

Miss Edna Marion Kellar, daughter of Mrs. Millard Lord Kellar of Newton was married to Rodman Gearhart of Winthrop, son of Mr. and Mrs. Charles W. Gearhart, on Saturday afternoon, April 26, at four o'clock in the Church of the Messiah, Auburndale. Rev. Richard P. McClinton performed the ceremony.

The bride was given in marriage by her uncle, Mr. Frank H. Storey. Mrs. Stewart C. Smith of Winchendon was the bride's only attendant. Mr. Stewart Smith served as best man. The ushers were Laurence W. Jennings of Winthrop and Edward T. Matsuki of Waban, brother-in-law of the groom.

Edwin S. Smith, Jr., cousin of the groom, was the best man.

On their return from a wedding trip to Virginia, Mr. and Mrs. Smith will reside at 19 Hyde st., Newton Highlands.

The bride was graduated from the Beaver Country Day School, Wellesley College and the Katharine Gibbs School. The groom attended the Country Day School and Harvard College.

ANDERSON—BUTTARO

Mrs. Katherine Wallace of 116 Chestnut Hill rd., Chestnut Hill, daughter of the late Mr. and Mrs. Arthur G. Walton of Wakefield, was married to Roger P. Clemmons, son of Mr. and Mrs. Maynard E. S. Clemmons of Wakefield on Saturday afternoon, April 26 at Amherst, New Hampshire. Rev. Sherman Goodwin of Townsend performed the ceremony which was attended only by the immediate families.

Miss Evangeline Buttaro of 39 Rockland place, Newton Upper Falls, daughter of Mrs. Mary Buttaro and the late Erasmo Buttaro was married to Roy Wilmarth Anderson, son of Mr. and Mrs. Frank Anderson of 19 King ave., North Easton on Sunday, April 27, at 3 p.m. at the Swedish Congregational Church, North

55 YEARS AGO

Some 150 dog owners have applied at city hall for a license. Last year there were 1027 dogs licensed in the city.

Some boys amused themselves a few days since by pulling down the stone wall owned by Mr. S. Hemis on California st. Officer Davis has their names and contemplates amusing himself and Judge Parks with those same boys.

Judge Parks was a member of the class of 1820 at the Boston Latin School and attended the annual reunion held on Thursday evening. He was called upon for a speech and said he was the only one left of his class and also gave some interesting reminiscences and sparkling anecdotes of his early masters.

Down comes butter at Knapp's. The Diamond Creamery is the best; the 4s is next; then comes the Decora. Now is the time to order fertilizer for the garden or lawn.

Cherry trees and currants are in bloom. Violets and columbines are found in abundance in the swamp beyond the Indian fireplace, near the railroad track between Newton Centre and Chestnut Hill stations.

It is expected that the Newton Cottage Hospital will open early in the summer, at about the same time the Circuit rd. is ready for public use.

It is expected that the Circuit railroad will commence running May 10th. It may commence running in May, and it may not, as far as the public is concerned it may, if it can commence May 10th.

There is a great boom in bicycles in the city as fifteen machines have been sold here within a week.

Mr. Glines has an exhibition a light-weight tricycle, the first one received in this country. It weighs only 65 pounds and is made by the Rudge Co. It can be used by either lady or gentleman and the price is only \$185.

THE GRAPHIC this week consists of ten pages, most of which contain original matter of local interest, and all patrons should see that they have the full number of pages.

Mrs. Frankland will have a large room unengaged in about two weeks.

Mr. William Z. Ripley awarded fellowship in Political Science by Columbus College.

The real estate agents say that there is a brisk demand for houses in Newton this season, but there are no desirable houses to show people who want to pay a moderate rent. They could have rented a hundred houses, if they had had any modern ones, at rents ranging from \$400 to \$600. All the new houses built to rent are leased before completion and at prices paying a good interest on the investment. People with money to invest would find it more profitable than railroad stock or bond companies to put it into moderate priced houses in good locations.

George H. Souther of North Adams, brother of the groom, was the best man. The ushers were Gordon A. Campbell of Allston, Philip J. Sullivan of Springfield and J. Thomson Walton of Keene Valley, New York, and Miss Arlene Sayre, also of Longmeadow, was the flower girl. They all wore gowns of larkspur blue similar in style to that worn by the matron of honor.

Mr. and Mrs. Souther will make their home in Augusta, Maine.

The bride attended the Springfield Schools and was graduated from the Chandler School, Boston. The groom attended Newton High School, the Huntington School and Bowdoin College. He is a supervisor for the Rival Foods Co.

The watering cart has been a wel-

come visitor to our citizens the past two weeks. We hope it will continue and not be shut off when the hot time arrives as was the case last summer.

A horse and buggy found on High st. a few mornings since was the same that brought a couple home from a Needham dance late at night. The horse was left standing at the gate for a while and when the gentleman was ready to go home there was no team and he walked.

In the common council, Councilman Grace paralyzed that body by presenting an order that all the city laborers should be paid two dollars a day.

Rev. Edward T. Sullivan, the rector and the other members of Trinity Church, Newton Centre, were highly gratified last Sunday when a collection of \$11,875 was made, and which with the gift from an unknown donor of \$25,000 will enable the parish to pay off the entire debt incurred in building its new church. This evening there will be a meeting in the parish house to burn the mortgage.

NOW YOU CAN ENJOY

New Low Gas Heating Rates**Giving You Savings
for Heating Your Kitchen or Entire House
... Small or Large**

NOW you too can enjoy carefree and healthful Gas Kitchen Heating and House Heating because of the substantial savings made by the New Low Gas Rates — effective on meter readings on and after May 1, 1941.

Ask now, without obligating yourself in any way, for the cost of heating your kitchen or entire home with Gas — the one wholly automatic and work-free modern method. Gas eliminates all worry and bother over your heating and provides scientifically-controlled and dependable heat for your home.

BRINGS BENEFITS TO THOUSANDS

These New Low Rates now make available to every type of home the modern benefits of Gas Heating. There are special advantages to those living in small houses, although all customers using gas for heating their kitchens or entire homes, small or large, will make important savings.

YOU MAY SAVE AS MUCH AS 13%

Savings will run as high as 13% for those living in smaller homes. Average savings for all classes of heating customers will be over 8½%.

You are eligible to enjoy these materially reduced rates if you (1) use gas for your major space heating requirements or (2) heat your kitchen primarily with gas heating equipment or (3) use at least one-half your yearly consumption of gas for the purpose of space heating.

NOW IS BEST TIME TO INSTALL GAS HEATING

The spring season is the most convenient time for you to install Gas Kitchen Heating or Gas House Heating. Then you can enjoy its convenience on chilly spring mornings and evenings — and be all ready for cold weather when next fall comes.

For full information on cost of heating your kitchen or entire home with Gas, and for details on easy payment terms on heating equipment, please write our Kitchen Heating or House Heating Divisions, 100 Arlington Street, Boston, or phone either of these Divisions at HUBbard 7600.

Women's Club Activities**Coming Events**

The Newton Federation of Women's Clubs

The Newton Federation will hold its forty-sixth annual meeting on Monday afternoon, May 5, in the Newton Centre Woman's Clubhouse, the president, Mrs. H. Clayton Pearson in charge.

Luncheon will be served at twelve-thirty in charge of the hospitality chairman, Mrs. Arthur H. Brooks of 242 Homer st., Newton Centre, and tickets may be secured from her or from the hospitality chairman in the clubs belonging to the Federation.

Fifteen minutes of music will be enjoyed at two o'clock, when the state chairman of music, Mrs. J. Arthur Snyder, will be in charge.

The business meeting will start at two-fifteen, and after the business of the day, the annual reports will be given. As usual, those of the chairmen have been condensed, to give the highlights of each committee, and also those on the philanthropies of the clubs, in each case one of the vice-presidents, giving the reports. The election of new members will follow.

At three o'clock, Marion Buttrick, a reader will bring the afternoon to a close with a number of readings.

Waban Junior Women's Club

On May 5 at 7:30 the Waban Junior Women's Club will hold its Annual Dinner and Meeting at the Abner Wheeler House in Framingham. After the Annual Reports and announcements of new officers and plans for next year, Miss Nell Giles, popular author and lecturer on "Susan Be Smooth," will talk on how she came to do newspaper work and write about Susan.

Highlights of the club's past year have been its charity bridges and the fashion show, both for the benefit of the club's charity: The Peabody Home for Crippled Children.

Retiring officers for the year are: Miss Barbara Swenson, President; Miss Harriet Davis, Vice-President; Miss Marjorie Millard, Recording Secretary; Miss Jane Mosser, Corresponding Secretary; Miss Virginia Mosser, Treasurer. Directors have been: Miss Virginia Hamilton, Miss Jane Kingsley, Miss Dorothy Redmond. Committee Chairmen were: Miss Evelyn Hoag, Program; Miss Dorothy Loud, Hospitality; Miss Nancy Winch, Decorations; Miss Audrey Spiller, Membership; Miss Julie Whitten, Publicity. The Advisers from the Senior Waban Women's Club are: Mrs. Edward H. Woods and Mrs. F. Brittain Kennedy.

Officers for next year will be: Miss Nancy Winch, President; Miss Charlotte Root, Vice-President; Miss Audrey Spiller, Recording Secretary; Miss Marie Duplain, Corresponding Secretary; Miss Harriet Davis, Treasurer. Directors for the coming year are: Miss Jane Kingsley, Miss Dorothy Redmond, Miss Jane Mosser. Committee Chairmen will be chosen during the summer, when plans are drawn up for next year's program.

Newton Junior Community Club

The Newton Junior Community Club will hold its second annual meeting and banquet on Monday evening, May 5th. Members will meet at the Newton Y. M. C. A. at 6:30 p. m. and go directly to Seiler's in Wellesley.

Following the banquet, the president, Miss Marjorie Aldrich, will conduct the business meeting and election of officers will be held.

The following committee chairmen will make their reports: Miss Margaret Bascom, Community Service; Mrs. Fred Dauton, Music and Drama; Mrs. Marjorie Bassett, Program; Mrs. Leigh Stanton, Publicity; Miss Gertrude Dennison, Social; Miss Frances Guion, Sports; Miss Ellen Guion, Ways and Means; and Miss Jean P. Johnstone, Year Book.

The newly appointed members of the Advisory Committee will be present. Miss Adelaide B. Ball, president of the Newton Community Club, will be a guest.

Recent Events**Newtonville Woman's Club**

The Annual Luncheon and Meeting held at the clubhouse on Tuesday, April 22nd, marked the close of another prosperous and happy year for the Newtonville Women's Club. Mrs. Frank E. Morris, president, and her board were seated at the head table which was festive and spring-like with large bowls of brilliant pink sweet peas and tall white tapers. Members and guests found long stemmed red roses at their places as individual favors. After a delicious luncheon arranged by Mrs. Carl B. Horton and her committee, the club adjourned to the auditorium for the business of the day.

Mrs. Howard Thomas served as corresponding secretary for the afternoon in the absence of Mrs. Frank M. Simmons. The annual reports of all club activities were read and approved.

As a result of the voting, which took place between 12:30 and 2:30, the following slate was announced by Mrs. Ernest P. Railisback, Legislative Chairman; President, Mrs. Raymond M. A. Green; Vice-Presidents, Mrs. Thomas G. Walters, Mrs. Robert S. Bowen and Mrs. Chester S. Merrill; Recording Secretary, Mrs. R. Charles Thompson; Corresponding Secretary, Mrs. John R. Curtis, Mrs. Harold Stillman and Mrs. Edgar Thyng.

Mrs. Morris, retiring president, greeted the new president, Mrs. Green, and presented to her the president's pin, book and official gavel. Mrs. Green accepted her office and announced plans for the coming year. Mrs. Kenneth Bernard, a member of the program committee, presented as guest speaker, Mrs. Gorham Harris, poet and a member and past president of the Newtonville Club, in a program titled "The Poet's Funnybone." The collecting of light verse, started as a hobby by Mrs. Harris, has now placed her among the better known students and writers of that type of poetry. During the program, she outlined the development of light verse from 400 B.C. to the present day and proved that in all generations poets have enjoyed the funny side of writing. She read many short poems illustrating the different types of humor. The most fascinating part of the afternoon was the reading from her latest popular book of poems, "Pen Grins," "To Be in England" and "New England Neighbor" expressed the more serious side of life and in sharp contrast were "Mr. Coolidge Said, Wear It Out," "Elegy Written in a Country Drug Store" and "Middle Age." Her final poem, one of her own, "Grand-

directors of the Hospital Aid Association from Wellesley, opened her home at 34 Pine st., for this meeting, and the chairman of the group, Mrs. Brewer Eddy, spoke briefly, before introducing the speaker.

Confining herself entirely to the women of her country, Miss Wong told of the splendid work done by the many Y. W. C. A. organizations throughout China, where classes in many different subjects are helping the Chinese women to become educated in many useful subjects.

In speaking of the dress of her people, she explained that there were no styles to follow from year to year, the wearer choosing her material, and length etc. Having been measured, a uniform pattern was used, except that the younger ones usually wore short sleeves, and shorter skirts. The women over forty usually chose dark blues and blacks.

Refreshments and a social hour followed the talk, and the pourers were Miss Mary C. Sawyer, a vice-president of the organization, from Wellesley and Mrs. Charles Floyd, of Auburndale, president.

West Newton Women's Educational Club

The annual meeting of the West Newton Women's Educational Club was held at the Brae Burn Country Club on Friday, April 25.

After luncheon the meeting was opened with the salute to the Flag and the singing of one verse of the National Anthem. The president Mrs. Patrick J. Duncan greeted Mrs. H. Clayton Pearson, president of the Newton Federation of Women's Club and Mrs. David Wescott of the Massachusetts State Federation of Women's Clubs.

Mrs. Frank L. Ogilive, recording secretary, read a condensed report of all the different activities of the club; and Mrs. Vernon E. Blagbrough, corresponding secretary, read the scholarship report and a telegram of congratulations from a past president, Mrs. Ernest A. Dockstader to Mrs. Patrick J. Duncan and the newly elected president Mrs. Gordon S. Heath. The treasurer's report was read by Mrs. D. Webster Anders and the auditors by Mrs. Henry F. Keating.

The retiring officers Mrs. Patrick J. Duncan, Mrs. Frank L. Ogilive, Mrs. Vernon E. Blagbrough, Mrs. Henry F. Keating and Mrs. George E. Dennett were presented with beautiful bouquets.

Mrs. Charles E. Gibson, Nominating Chairman, presented the following ballot, who were elected. President, Mrs. Gordon S. Heath; first vice-president, Mrs. Frank L. Ogilive; Recording Secretary, Mrs. Francis H. McCrudden; Corresponding secretary, Mrs. Malcolm A. Warren; Treasurer, Mrs. D. Webster Anders; auditor, Mrs. Everett L. The board presented Mrs. Duncan with two lovely silver trays in appreciation for her hard work and thoughtfulness to the club.

Miss Pearl Young entertained with several monologues and piano-logues.

The day was in charge of Mrs. Hermon Place and her committee.

Newton Highlands Garden Club

The April meeting of the Newton Highlands Garden Club was held on the evening of the twenty-second at 8 p.m. at the home of Mrs. Edward M. Stuart, 155 Dorset rd., Waban. Forty members attended. The president, Mrs. Percy I. Merry, presided.

The chairman of the spring flower show, Mrs. Stuart, announced the date of the show, Friday, May 23, from 12 noon until 9 p.m. at the Club Workshop, Columbus st. There are to be fourteen different classes—cultural and arrangement.

Mrs. B. Walter Godsoe, chairman of the nominating committee presented the following officers for 1941-1943, to be voted upon at the annual meeting next September: President, Miss Mary R. Stark; vice-president, Mrs. Edward M. Stuart; secretary, Mrs. William J. Skinner; treasurer, Mr. Howard Whittam; program committee: Mrs. Percy I. Merry, chairman; Mrs. Norman E. Dupee, Mrs. John E. Peakes.

As the Newton Highlands Garden Club is ten years old this year—1931-1941—the first president, Mrs. Godsoe gave a delightful and interesting history of the club's growth from its inception as an adjunct of the Newton Highlands Woman's Club to its present independent position.

The guest speaker of the evening was Miss Helen E. Cleaves of Waban who spoke on "Design in the Garden."

Magna Carta

The Magna Carta is one of the greatest documents in human history. It was a guarantee of civil rights and liberty granted by King John to the English barons in 1215.

Slaves Emancipated

Almost 4,000,000 slaves were emancipated by the Civil War, with all but 800,000 emancipated by Lincoln's emancipation.

Northeastern U. To Honor Richards

James L. Richards of Newtonville will be guest of honor at Northeastern University's Corporation Day next Wednesday (May 7). At that time a tablet in his honor will be unveiled in the foyer of Richards Hall, the University's new building on Huntington ave.

Business and professional leaders of the East, all members of the Corporation, will participate in the program that will begin with a convocation in Symphony Hall. Principal speaker will be Dr. J. Anton deHaas, professor of international relations at Harvard Graduate School of Business Administration.

Prof. deHaas, who will speak on current world affairs, will be introduced by Henry J. Harriman, another Newtonite and member of the Corporation.

Robert G. Dodge, chairman of the Corporation, and Dr. Carl Stephens Ell, president of Northeastern, will speak at the unveiling of the bronze tablet in Richards Hall. The members of the Corporation will be guests of the University and then will tour Northeastern's buildings and laboratories.

Members of the Northeastern Corporation from Chestnut Hill include Thomas P. Beal, president of the Second National Bank of Boston; Ernest B. Dane, president of the Brookline Trust Co.; Chandler Hovey of Kidder, Peabody & Co.; Harold F. Mason, president of the Boston Wharf Co.; Gov. Leverett Saltonstall, and Edwin S. Webster, vice chairman of the Board of Directors of Stone & Webster.

From Auburndale come William J. Davidson; Edward J. Frost, vice president of Filene's, and Maynard Hutchinson, treasurer and director of Loomis Sayles & Co. Among the members from Newtonville, in addition to Mr. Richards and Dr. Ell is Robert B. Rugg, president of the National Rockland Bank of Boston.

The other Newtonians on the Corporation are Sidney Rabinovitz, treasurer and chairman of the board of directors of the Economy Grocery Stores; Fred L. Morgan of Morgan Brothers Co.; Earl P. Stevenson, president of Arthur D. Little, Inc.; Frank H. Stuart, president of T. Stuart and Son; Clarence L. Newton, attorney at law; Sinclair Weeks of Reed and Barton Corp.; George E. Pierce, vice president of the National Shawmut Bank, and Frank L. Richardson, executive vice president of the Newton Trust Co.

300 Layettes

1110 Women's Woolen Skirts

1860 Girls' Woolen Dresses

2000 Toddler Packs

Although Newton has been doing a big job in the past year, it should do twice as much in the next year. This means there is a great need of more knitters, more women who will sew in the Village and Church groups, also more volunteers at Production Headquarters for assembling garments, packing layettes, and so forth.

A small quota of different types of bags has also been accepted to go to Fort Devens for the soldiers.

National Headquarters received such a big response to this request that the amount allocated to each unit is sufficient opposition evidenced that the Aldermen would find no necessity for going further with the proposal.

Kiwanis Club

The story of the expansion of the United States Navy was told at the meeting of the Newton Kiwanis Club at Joseph W. Limric of Newtonville at the Newtonville Woman's Club House Tuesday afternoon.

Limric, who was engaged as a civilian engineer and contractor, installing ice cream machinery on navy ships, also showed the official pictures of the fleet in action. He told of the program of building all classes of warships and how they were named. He said that 35,000-ton warships have been launched and that 45,000-ton battleships were under construction, with plans being made for 65,000-ton ships.

The speaker was introduced by George VanBuskirk, chairman of the program committee, Raymond A. Green, president, conducted the meeting.

It was announced that Edward J. Pease, vice-president, and Leo E. Noel, treasurer, would be delegates to the convention of Kiwanis International at Atlanta, Ga., on June 15.

George Whoriskey of Cambridge, lieutenant-governor of the Fifth Division of Kiwanis, was a guest and spoke on the coming convention.

Mother's Day

Sunday is Mother's Day. Although each and everyone of us carries in our heart a feeling for mother which is unlike that toward any other person, how frequently we take for granted everything about us and all too readily those human relationships which fill our everyday world. The second Sunday in May we have set aside to honor "Mother"—wherever she may be. A moment's reflection and we are struck with the obvious fact that only in a Democracy can we give expression to our esteem for the one person to whom we owe all that we are. In those nations which have forsaken all the ideals which are American tradition, even a reverence for motherhood has been forgotten.

For Community Interests

The season of annual meetings is upon us. During the month of May many organizations are electing new officers. In nearly every section of the city the village improvement associations are among these. This particular type of organization is among the most important which we have in our mode of society and yet all too frequently it is one in which but a modicum of interest is taken. These organizations have for their main objective the promotion and protection of the community interests. In every section of the Garden City your membership is essential and it will pay the greatest dividends in making your neighborhood a better place in which to live.

To Fill a Vacancy

The Newton Board of Aldermen will act on May 19th upon the resignation of Alderman Donald McKay. The vacancy will be filled for the remainder of the term ending January 2 by a successor elected by the Board of Aldermen. In such cases it has been customary for the remaining aldermen from the same ward to join in presenting for the consideration of the Board the name of a citizen of that ward recommended by them to fill the vacancy and willing to be a candidate at the next city election. We are informed that Aldermen Clifford Walker and John Temperley of Ward 5 have not yet determined upon the recommendation to be made and are inviting suggestions from civic groups and citizens. Appropriate Funds to Finish Resurfacing

Rest of Commonwealth Avenue Project To Cost \$50,000 Total

Completion of the resurfacing of Commonwealth ave. will be accomplished this year as the result of an appropriation by the Board of Aldermen, meeting on Monday night. The work which was started at Lake st. several years ago has been carried as far as Chestnut st. The new work, which will commence about July 1, will extend the resurfacing to the bridge at Weston, under the provisions of Chapter 90 of the General Laws with the state and county also sharing in the total cost.

The project is estimated to cost \$50,000 of which the State Public Works Commission has authorized a half from state funds. The county commissioners have allotted \$8,500 and the city will provide the balance, \$16,500. An appropriation of \$25,000 was made by the Aldermen on Monday night upon the recommendation of Mayor Goddard in order that the city, which will act as the contractor for the project, could finance the beginning of the project. The city will be reimbursed for all expenditures beyond the \$16,500, according to the explanation presented by Alderman Joseph B. Jamieson, chairman of the Committee on Public Works.

Street Commissioner John D. Haughey stated that the county has completed its necessary survey and the state will provide inspectors for the project.

Other Appropriations

The Aldermen also passed an appropriation of \$12,500 for the purchase of new equipment. Alderman Jamieson stated that most of the allotment would be expended for snow plows and one trailer. The city now owns 73 trucks. Funds for the (Continued on page 10)

Will Hold Hearing Monday Night On Revision of Welfare Board

Vote \$125,000 From Surplus For Keeping Tax Rate Down

Acting upon the recommendation of Mayor Goddard that he be authorized to use a maximum of \$125,000 from the surplus fund to reduce the 1941 tax levy, the Board of Aldermen at the meeting on Monday night assured Newton citizens of a tax rate which will probably show a slight reduction from the 1940 rate of \$29.20. Announcement of the new tax rate by the assessors is expected within ten days or two weeks.

Alderman McKay stated that the use of funds from the surplus account was a usual procedure and that it had the approval of the State Director of Accounts. In 1940 a sum of \$40,000 was used for the purpose. The appropriation of \$125,000 representing approximately 75 cents in the tax rate, would leave a balance in the surplus account of about \$250,000. In addition there is a reserve of \$250,000 against tax titles. The \$125,000 made available against the tax levy is considerably below the unexpired balance of department appropriations of \$178,000 last year.

Refuse To Permit Transfer of Cullen To Regular Post

Refusal of the State Director of Civil Service to permit the transfer of the recently reinstated Police Sergeant-Mechanic Bartlett Cullen to the post of a regular sergeant was revealed this week in Mayor Goddard's communication to the Board of Aldermen in connection with the case. The full bench of the Supreme Court having ruled that the abolition of Cullen's former post in July of 1939 was illegal, Mayor Goddard (Continued on page 10)

To Have Pistol Range at W. Newton

An appropriation of \$5000 for the construction of a pistol range at police headquarters in West Newton was voted by the Aldermen on Monday night. Alderman Temperley, chairman of the Public Buildings Committee, stated that the work would be done as a WPA project at a total cost of \$12,602. The range will be located on the Cherry st. side of the police building and will face towards Washington st. With the sloping ground, the target pit will be below the street level. The range will be 25 yards in length.

Chief Police Michael T. Hughes informed the committee that several requests have been made from private citizens for permission to use the range. Alderman Temperley also stated that the available distance was insufficient for the installation of a rifle range with the additional hazard of higher powered firing equipment.

Construction of the range will start about May 15th according to Harold F. Young, WPA agent. The Federal government will provide \$7,602 for labor with the \$5,000 figure of the city being expended for materials.

The evening meeting opened with a half hour of music and pageantry by members of the high school musical organizations, dance group, verse (Continued on page 10)

Day-off-in-Six Police System Is Permanent

Aldermen Debate Acceptance of Legislative Act

Acceptance of the legislative providing for "one day off in every six days" for members of the police department provided the setting for the only lively debate at the meeting of the Aldermen on Monday evening. Five members of the Board participated in the debate with the vote finally showing a 14 to 2 margin in favor of accepting the act. In effect the vote makes permanent the "day off in six" system which was previously provided for in a budgetary sense by appropriations for salaries of additional policemen appointed permitting organization of the force on that basis. Without acceptance of the act the "day in six" system could be given up by non-appropriations of funds for the purpose.

Alderman Rawson, chairman of the Claims and Rules Committee which considered the motion for acceptance made by Alderman Eugene Cronin at the previous meeting, reported favorable action. He stated that the action of the Mayor and Chief of Police had put the system into effect and acceptance of the legislative act would ratify and make permanent the system.

Alderman Carroll J. Hoffman stated that he had voted against the budget appropriation for additional police appointments. He contended that "this is not the time to make jobs for young red-blooded men who can easily be absorbed in industry and defense work. Newton does not need more policemen. The present police force, on the whole, is doing a creditable job." Mayor Tobin of Boston refused recently to change the day in eight system because that city could not stand it financially. Hoffman stated and concluded that (Continued on page 10)

Community Council Unanimous In Favor

Mayor Paul M. Goddard has submitted to the Board of Aldermen a recommendation for the establishment of a "larger" board of public welfare in place of the present board which is constituted of two paid directors. At the meeting of the Aldermen on Monday night the Claims and Rules Committee announced that a public hearing would be held on the matter at 7:45 on Monday evening, May 12th. Notices of the hearing were sent to various welfare agencies and community organizations interested in the question. The Newton Community Council at its annual meeting recently recommended the creation of an unpaid board of welfare.

Director James P. Reynolds is president chairman of the board of welfare. The other director is Miss Florence Fitzgerald who is in charge of the old age assistance division.

The recommendation of the Community Council was expressed by a unanimous vote of approval of a report by Robert E. Dickerman, chairman of the Council's Division of Welfare and Relief.

Newton Board Not Recognized
The Dickerman report, which recommended the work of Director Reynolds, stated that Arthur G. Rotch, State Director of Public Welfare does not recognize the present set-up in Newton as constituting a real Board of Welfare. The state laws permit a city to establish a board with personnel, tenure and responsibilities according to an ordinance of its own making.

The Dickerman report suggests the appointment of a five-man board of unpaid members, with staggering terms of office so that rotation would be assured with experienced personnel always available, the mayor to be an ex-officio member, the duties of the board to be as an executive and policy making body, the preparation of a budget and an annual report, and the right of final authority insofar as the department of public welfare is concerned. The director of the department should act as the administrative officer of the board.

Reasons for Board
The Dickerman report goes on to say that the reasons for such a board in Newton are:

A shoulder injury and contusions were suffered by Queen L. Frith of 9 Wellington St., Boston, Saturday night when she was struck by an automobile on the Worcester turnpike at Boylston and Elliot sts., Newton Highlands. She was removed to the hospital in the police ambulance by Patrolmen Merrill T. Brayton and James Corcoran.

Charles S. Blake, 68, of Norwich, Conn., driver of the car that hit the 63-year-old woman, stated in his report that as he was going east on the turnpike about 8:30 p. m. the woman ran across the street into the path of his car. Applying his brakes he stopped the car but the woman was struck by a headlight.

Britain Carries on With Persistence

"Britain Behind the Battlefront" was the subject of the talk by Prof. Basil Matthews at the weekly meeting of the Newton Rotaract Club held Monday at the Brae Burn Country Club. Prof. Matthews said in part, "Britain is carrying on with a resilience, resistance and persistence that pervades the whole country and the supposed arrogance or shyness of the British people is turning toward a consciousness of humanity that is arising everywhere." Professor Matthews, who is a member of the London, England, Rotary Club, came to America last January as Professor of Christian World Relations at Andover-Newton and Boston University Theological Schools. Before leaving England he had been for fifteen months in the British Ministry of Information and is the author of several books, the latest being "We Fight for the Future," recently published in England.

The speaker related some of his personal experiences while driving through London last fall after the great raid which destroyed most of the old city including many historic landmarks. Every Briton, of the lowest as well as the highest class, has developed a sturdy resistance to the horrors they are now going through and the general feeling is that if Hitler is not crushed now the world will not be worth living in. Any possibility of a negotiated peace is unthinkable, Professor Matthews believes, particularly in the London area.

Questioned as to the probability of what will happen in England after the war the professor believes that without question the people will retain the democratic gains that have recently come to them. Due to a sharply graded income tax which takes fifty per cent of the income from the poorest and increasingly larger amounts from the richer classes and particularly heavy inheritance taxes there has been a great leveling off in wealth. Most of the old estates have either been transferred or broken up. The man in the street has won personal freedom and is not particularly interested in social equality. Eton and Harrow, scholastic strongholds of aristocracy, are now admitting middle and lower middle class boys to their classes. He feels that Britain will never return to the old, aristocratic governing classes again.

Prof. Matthews cited the tour of the London Philharmonic Orchestra as an example of the mental change in the English workingman. When the concert hall of the orchestra in London was destroyed by bombs the orchestra toured England and Scotland, appearing in vaudeville houses and any available hall for a week in each of various towns. The audiences packed every performance and were enthusiastic and very appreciative of classical music. This is because the British people are now suffering in much the same degree as the composers who wrote those great works and it has brought greater musical appreciation to the people.

Professor Matthews concluded by stating that British morale is excellent, that they are even now planning the rebuilding of ruined buildings, and that their resilience, resistance and persistence are extremely strong.

The speaker was introduced by Rev. W. Beach of Cambridge, a past District Governor of Rotary International. The program was under the direction of Vice-President Charles A. Meeker, who announced that the speaker next week would be Hon. Paul Goddard, Mayor of Newton. President John M. Cahill presided.

All Newton Music School Parent-Teacher Meeting

The All Newton Music School will hold a parent-teacher meeting at 8 o'clock on Monday evening, May 12, in the Claffin School, Washington Park, Newtonville.

The purpose of the gathering is to give all interested parents an opportunity to meet the teachers of their children, and give all an opportunity to discuss ways and means of music education, as well as to review the history and development of the music school as an educational and social force in Newton during the past thirty years.

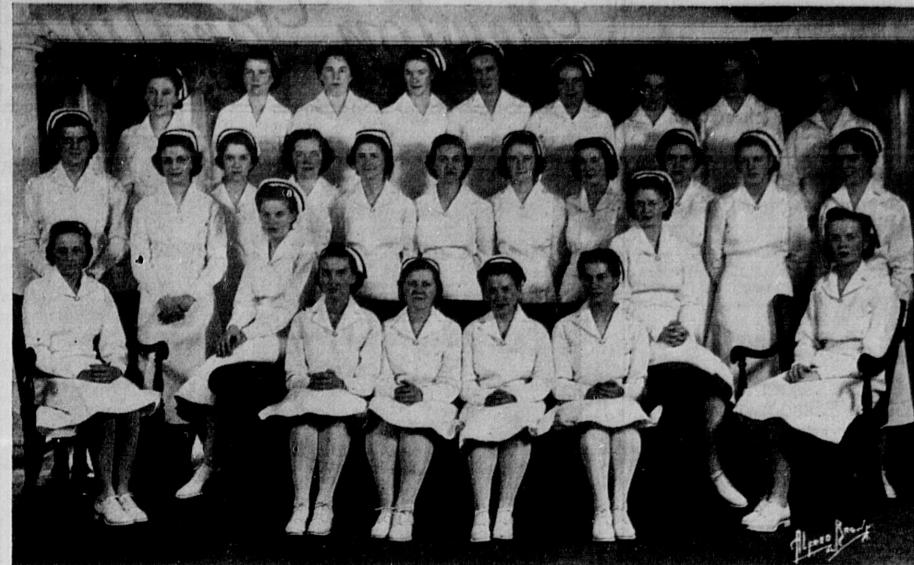

The meeting will be from 8 to 9 o'clock after which there will be an informal reception for any who wish to stay and talk further over general or individual music problems. Any one interested in music study, whether or not they have children in the school, will be very welcome, for the meeting has been planned to help those who are desirous of knowing more about what the All Newton Music School is, what it has to offer to the people of Newton, and how the work is done.

Assn. Votes \$1000 For Smith Memorial

At the annual meeting of the Newton Centre Improvement Association last week Wednesday evening at the Unitarian Church parish house a contribution of \$1000 was voted toward the purchase of the Crystal Lake land for the proposed Samuel F. Smith memorial park. The gift was subject to the purchase being made at a reasonable figure. Alderman Donald D. McKay, originator of the plan, told of the progress being made and exhibited the model of the park. He suggested that school children in the eastern part of the country be asked to contribute toward the memorial for the author of "America."

Norman A. Hall, president of the Oak Hill Improvement Association discussed the situation in regard to the proposed airport in Oak Hill and told of the opposition of the Association which he represented. The Newton Centre organization voted to oppose the development and instructed the executive committee to keep in touch with the situation.

Sidney Van Loesche, presented a report on the traffic congestion at Pelham and Centre sts. Charles J. Bateman, Jr., president of the Association conducted the meeting and announced that the executive committee would soon elect a new slate of officers.

Professor Matthews concluded by stating that British morale is excellent, that they are even now planning the rebuilding of ruined buildings, and that their resilience, resistance and persistence are extremely strong.

The speaker was introduced by Rev. W. Beach of Cambridge, a past District Governor of Rotary International. The program was under the direction of Vice-President Charles A. A Proclamation

The Newton Hospital will cooperate with the National Hospital Day Committee and with the local State Committee, in holding open house on Monday, May 12, 1941, the date which has been designated as National Hospital Day.

The Newton Hospital, as in the past continues to minister to those incapacitated by accident or illness and stands ready at all times to render this very necessary humanitarian service to the community.

NOW THEREFORE, as Mayor of the City of Newton, and at the request of the Board of Governors of the Hospital, I extend an invitation to our citizens to visit the Hospital on this day, and to renew our loyalty and support to this institution which has served the City so well.

PAUL M. GODDARD,
Mayor
May 6, 1941.

Hospital Day

Co-operating with the national and state hospital day committees the Newton Hospital is planning to hold open house on next Monday afternoon—National Hospital Day. A general invitation is extended to all to visit the local institution where an interesting program has been planned.

The Boston Transcript

Although last week marked the publication of the final issue of the Boston Transcript the influence of the 111 years of its service to its readers will live on. More than a tradition, the Transcript through the years never swerved or faltered from the ideals and objectives set forth in its first issue. The victim of changing conditions the famous Boston newspaper was unable to cope with the problems encountered in recent years. Yet in ceasing publication the Transcript and its publishers were never more to be admired. The publishers and the staff employees stood by until the last minute like the captain of a sinking ship. Without outstanding courage defeat was conquered by the steadfast grasp of the morals and ideals for which the newspaper had stood.

There was something more than pathos which filled the hearts of Transcript readers in that last issue. There was the loss of a friend. A friend that can never be replaced—for the Transcript possessed that for which every newspaper strives, yet so few attain—a soul.

Driver Dozes and Car Hits Tree

speaking choir and drama club. Supt. Warren presided and first introduced Howard E. Wilson, professor of the Harvard School of Education. Prof. Wilson gave an interpretation of the day's conference.

Governor Saltonstall spoke on the "Challenge of American Citizenship." He said that educators should strive to teach the nation's imperfections but "not to magnify" them. He pleaded for national solidarity through the teaching of "the real American meaning of democracy." "Where else in the world are there as few imperfections as here in the United States of America," he asked. "Where else is there such a land of opportunity and freedom? Where else does the individual, in his full dignity, have such consideration?"

"The teachers are a part of our army of defense. As our young men go into military encampments, each teacher in her classroom will teach, regardless of grade, regardless of subject, the meaning of democracy and those ideals for which our American republic was established. Yes, our schools are the training camp of tomorrow. They are the bulwark of our nation, believing in peace, dedicated to peace, and now praying for peace; yet eager and willing to defend in every way our liberty—and the freedom which it is our privilege to possess."

"Eagerness of such service is the goal of preparing our youth for the responsibilities of citizenship. It is a lesson that cannot be found in books but it is written deep in all our hearts."

In the final address of the evening Max Lerner, editor of the Nation and professor of political science at Williams College, gave an inspiring address on what we can do to educate youth for the future.

He said in part:

"A sage of long ago is credited with having said 'and now we must educate our masters.' Today we are in the process of doing that very thing. We are engaged in an experiment to find whether we can educate youth or not. Unless we find that answer we are out of luck."

"Today the school is not the center of our educational system. I wish it were. More and more our youth is being educated from the radio, the press, the movies, what they hear on the streets, etc., and whether we like it or not we must face the fact that there is trouble ahead for our children. It is a struggle of the school and parents against other forces of society. We must get a new perspective."

"There is a second change. The masters have grown insecure and terrified. Through the decade of depression we have seen the rise of ruthless political systems and most of our cherished values have become topsy turvy. It is not conducive to stability. The common man has grown uncertain. It is not a good atmosphere in which to live. Like frightened animals incapable of thinking a frightened human being doesn't think clearly. We must do something."

"Yet terrifying as it may be there is a certain excitement of being a member of the group devoted to the training of our masters. We have two political theories, two social theories, two ideological theories and two ways of life. This is not a new thing—but the two conceptions are coming together and unless we accomplish our job and pull the switch—there is going to be a crash. Time is the essence of the situation."

"We are living in the harshest generation in modern history. Under the best of circumstances we are bound to live in a long 'ice age.' After the first World War we were taught we were governed best when we were governed least. We were given in school and college not only the questions but the answers. And we were taught to sit tight—that everything would come out all right. It doesn't work now. Youngsters know we have not made a go of our economic system and our international security. Today we know the questions but not the answers. What can education do in hammering out the answers?

"The basic question is 'what kind of a democracy will work.' To answer it we must first know that we want it and secondly believe that some kind of a democracy will work. The second with me is largely a matter of faith. We must educate and to educate we must do so with a democratic dynamism. The true democracy and capitalism as we have known them have come to the end of the road. Neither will a democracy which is isolationist in its foreign policy ever survive. Capitalism must become a new kind of planning. Democracy must become a strong state—we must have a planned war economy, a planned peace economy, a planned internal conquest and a planned external conquest. We must have planned mass distribution and massed production."

"Democracy is like an automobile. A collection of parts but to make it go it must have a dynamism. That dynamism will make us do what it may be. It will save the world and perfect it. That dynamism will adjust to the needs of this harsh age. It is something that can act to carry us on. There will be nothing to save us if we do not discover it quickly."

"We have got to discover the kind of action to take and then be willing to take it. We have got to educate our youth to three things. They are truisms and not new things. 'It is difficult to understand that which is too obvious.' We have got to believe ourselves to understand, to believe and to act."

"In the teaching to understand it does not do to say that war is evil under all conditions. That does not

hard battle alongside of England but think how overwhelming the odds would be if we had to do it alone without her. We must understand the inevitable tendencies that are making this wave of the future. There are certain interpretations in history. Neither Nazism or democracy is sure of the future. Everything depends upon our intelligence and our will. America is suffering from paralysis of the will. In the past America has always shaken itself from this paralysis of will. We have a chance to do so again. The school can educate for a dynamic democracy but first must prepare itself. The function of education is to teach these three things—to understand—to believe—and to act."

Newton Girls on Debutante List

Fifteen daughters of Newton residents are included in the 1941-42 list of debutantes compiled by Mrs. Kennard Winsor, secretary of the debutante committee of the Parents' League of Boston. The new season officially opened Saturday night with the annual Empire Junior Dance at the Hotel Vendome.

The official list, compiled under the auspices of the Parents' League, numbers 125, fifty less than a year ago, and most party dates are still pending. Some already scheduled also carry the designation "war permit."

The Newton girls on the 1941-42 debutante list are:

Bessie Rilla Bacon, daughter of Mr. and Mrs. Frederick Sayford Bacon of 42 Hyde ave., Newton.

Eleanor Batchelder, daughter of Mrs. Roland B. Batchelder of 62 Craftsland rd., Chestnut Hill.

Judith Drew Beal, daughter of Mr. and Mrs. Thomas Prince Beal of 47 Lawrence rd., Chestnut Hill.

Anne Calkins, daughter of Mr. and Mrs. Grosvenor Calkins of 49 Farlow rd., Newton.

Fanny R. Curtis, daughter of Mr. and Mrs. Louis Curtis, of 30 Crandall rd., Chestnut Hill.

Sylvia Dennison, daughter of Mr. and Mrs. Maurice W. Dennison of 132 Farlow rd., Newton.

Natalie Kemp Gale, daughter of Mr. and Mrs. John Elbridge Gale of 775 Commonwealth ave., Newton Centre.

Marie Louise King, daughter of Mr. and Mrs. Franklin King, 1020 Boylston st., Chestnut Hill.

Katharine Rose MacDill, daughter of Mrs. Leslie MacDill, 40 Beacon st., Chestnut Hill.

Virginia Marston, daughter of Mr. and Mrs. Walter M. Marston, 167 Dudley rd., Newton Centre.

HeLEN Mitchell, daughter of Mr. and Mrs. Emlyn Vinald Mitchell of 529 Ward st., Newton Centre.

Marilyn Morse, daughter of Mr. and Mrs. Robert Hosmer Morse, Jr., of 59 Sargent st., Newton.

Sally Anne Russell, daughter of Mr. and Mrs. Warren King Russell of Hillcrest circle, Waban.

Newton Graphic, May 8, 1891

Some of the slates and one or two of the fine stained glass windows of the Channing Church have been broken lately, evidently by stones thrown at the church, and the expense of repairing has been so great that the society has been compelled to issue a notice offering \$25 reward for the conviction of any offender.

Some new and handsome turnouts have been added to the Nonantum stables for use during the coming season. Mr. Daniels will furnish anything in the way of a team from a horse that can be driven by any lad, to a fast roadster; also hacks, landaus, etc., with careful and experienced drivers.

A visit to the extensive greenhouses of Mr. Johnson, the florist, will repay any lover of flowers, during the next few days. One will find there a beautiful display of geraniums, a great variety of pansies, foliage plants of as many colors as Joseph's coat, and a great space devoted to roses and carnations from which flowers are cut every morning; utility is also not lost sight of as he has hundreds of new varieties of tomatoes in pots. It is Mr. Johnson's busy season but he always gives a hearty welcome to visitors.

The strikes have not affected Newton to any great extent, so far. The plumbers in the city are out, demanding that eight hours shall constitute a day's work and in some cases asking higher wages. The men do not pretend to be dissatisfied, but they do not wish to abandon their brother plumbers in Boston and elsewhere who are seeking to bring about the eight-hour system. No other tradesmen have struck except the painters who have been working for Contractor Phillips upon the Woodland Park Hotel at Auburndale. A stranger came along there Wednesday claiming to be a Knight of Labor and told the men the order had been given from headquarters for them to strike. The men immediately laid down their brushes and refused to work. In the evening they found that the pretended order was a hoax and they reported again for work Thursday morning.

The men employed by the city in the highway department have asked for an increase in pay to \$2 per day. The highway committee have considered the matter but have not yet given a definite answer. The laborers in the water department are also reported to be about to ask for an increase.

Publisher's Notice — From and after April 1, 1886, Mr. Edward D. Baldwin assumes the publication of the GRAPHIC. For the encouragement accorded to the undersigned during his connection with the paper, he would return his hearty thanks. It is gratifying to be able to state that the regular patronage of the GRAPHIC is now greater than at any previous period of its history, and the circulation has more than doubled during the past year.

Mr. Baldwin is a Harvard graduate, and brings to his new field of labor the advantage of ten years successful experience as managing editor of the Meriden (Conn.) Daily Republican and will therefore be able to render the GRAPHIC still more worthy of patronage.

The High School Battalion now drills in the field at Newtonville, which saves the ride or march to and from the Armory at Newton. Privates will fall in at 8:35 a.m. with cap, blouse, belt and gun."

At the Central Congregational Church, Wednesday evening, Miss Mamie Lucas won a decided success in the management of a pink tea party, in which she was assisted by a bevy of children ranging in ages from 5 to 15 years. As the little ones moved about the reception room, attired in attractive toilets, in the trimming of which pink color was predominant, the scene was a beautiful one. A feature of the entertainment was an exhibition of dolls owned by the children.

The Nonantum Mills have adopted the system of weekly payments. Last week they paid off in checks, and the storekeepers had to flax around to make change.

The charge that liquor is freely sold in Nonantum has excited a good deal of indignation there, and those in a position to know, deny that such is the case. There may be a few rum-holes, where the ardent is sold, but it is done so secretly that it is almost impossible for the officers to reach them.

There is a nightly average of three lodgers, who accept the hospitality of the city (West Newton item).

The policemen come to the City Hall now laden with money for dog licenses. About one thousand dollars has so far been received.

The Board of Health, at their meeting Tuesday, granted innumerable licenses to keep pigs in the centers of population of the different wards, and had a lively discussion over various matters.

There was quite a heavy white frost on Friday night, also on Sunday night.

Newton Centre sends seventy-five students to the high school this year; Newton Highlands sends fourteen; Oak Hill and Chestnut Hill each sends one student.

The apple orchards are blossoming, cherry and pear trees promise a good harvest. "Cock Robin and Jenny Wren the Fair" are nest building or prospecting, and in the "steely dawn" discuss in good melody their housekeeping affairs, and the importance of locating near a good sized cherry tree.

The fence surrounding the triangular park at the intersection of Washington and Park sts. has been removed.

A new rule was published in high school Wednesday which prohibits the scholars leaving the school grounds during recess without the permission of the room teacher. This rule was necessary because of various complaints made to the school authorities.

There was nothing unlucky about the 13th series of performances given by the Players, on Monday and Tuesday evening. The City Hall was crowded on both evenings, the music was excellent as usual, and the two plays were brilliantly given, many even considering it the most successful of the club's entertainments. (The plays were "The Ladies' Battle" and "Trying It On"—the first a comedy and the latter a farce. The cast included Miss Gertrude Long, Mr. J. A. Conkey, Mr. E. W. Spurr, Miss Louise Dietrich, Mr. James Walker, Messrs. Cobb, Pulsifer and B. P. Cheney, Jr. in the first play and Mr. T. E. Stutson, Mr. Edward C. Burrage, Mr. G. R. Pulsifer, Miss Evelyn Purdie, Miss Edith M. Farley and Mrs. Walter H. Stearns in the second.

Newton Cemetery Trustees Plans for the Summer—This season it is planned to build a stone bridge at the upper pond with a stone railing and also finish the work already begun around this pond. A foot bridge 6 feet wide with a wood or stone arch will be built over the waterfall, and a path laid out on the south side of the pond, under the hill.

Business Notices—Pasturage—a limited number of Heifers and Cows will be sent to and cared for at Castle Hill Farm, Medfield.

Business Notices—For Sale—two Jersey cows, a cartail (almost new), a buggy, phaeton, ten cords of lawn dressing.

Editorial—One noticeable improvement about the streets is the greater care exercised outside of the sidewalk by residents. The space is being turfed over very extensively, the grass cutters do not stop with the lawns, but cut the border of grass outside of the walk, and greater care is used about putting any rubbish in the streets. All this shows a hearty co-operation.

It is suggested that some photographer be secured to take a picture of the Newtonville freight depot.

The new butt for the Newtonville flag staff arrived Wednesday from Oregon. It is a handsome redwood stick, 80 feet in length, and will soon be placed in position.

There is a story floating about that Mrs. Williams has been in the habit of selling lager beer to high school boys. Mrs. Williams is indignant at the accusation and says that the statement is utterly false.

Petitions are in the local drug store for signatures asking the Boston & Albany to give ten trip tickets for a dollar instead of the \$1.30 as at present. The petitioners deserve to succeed, if only for their sublime faith that such a request will receive any attention.

Sixteen sidewalk loafers were fined in the police court, Wednesday evening. Let us hope that the public walks will be less obstructed in the future.

Have we a Band of Mercy in Auburndale was significantly asked a short time since, when two girls belonging to excellent families, actually stoned to death two little dumb dolls owned by the children.

On Tuesday evening after dark, 55 tulips of rare varieties were pulled from their stalks in a garden on Hancock st. The footsteps of children testify to their agency in the matter. Is there any redress or protection? Must we this early in our history adopt the high wall and iron gate in order to preserve our flowers?

Several houses in the village (Newton Upper Falls) are resplendent with newly shingled roofs.

Women's Club Activities

Annual State Federation Meeting at Swampscoot

The annual Convention of the Mass. State Federation of Women's Clubs will be held on May 12, 13, and 14, at the Ocean House in Swampscoot. Mrs. David A. Westcott, president, will preside.

Monday morning, Mrs. T. V. Moore, Chairman of Public Safety in the General Federation of Women's Clubs, who has rendered such distinguished service throughout the United States, will bring a vital message for the women of the state. The Second District Chorus under the direction of Cora Gooch Brooks will present the musical program.

Monday afternoon, Jeanne Kimball, soprano, will be featured on the same program as Rene Dussaq, brilliant Argentian. Mr. Dussaq, besides being an accomplished scholar of international fame, was Swiss and Cuban tennis champion, coxswain of a victorious Olympic rowing team, and a noted swimmer. For the past five years he has accompanied John D. Craig on his famous movie and scientific expeditions.

William Yandell Elliott, professor of government at Harvard, author of several books and former lieutenant in the American Expeditionary Force in the World War, will speak Monday evening. Thelma Jo Fisher, contralto, George Wheeler, tenor, and Rae Nichols, piano, will present the musical part of the program.

President of Brooklyn College, Harry D. Gideonse, author and the Editor of the Public Policy Pamphlets, holder of degrees from Columbia and the University of Geneva, will speak on Tuesday morning. Edward Cole, bass-baritone, and Herbert Wilkins—piano-music.

Ma-Mai Sze, daughter of the former Chinese Ambassador, who recently returned to this country after a visit to her homeland and who is an artist and actress, will charm her audience of Tuesday afternoon. Helen C. Blanchard, soprano, and George M. Gulski—piano—will complete the program.

Governor's Night, Dr. Frank Kingdon, eminent educator, author, and cleric who received degrees from Boston University, Harvard, and Albion College and who has been the President of Dana College and the first president of the University of Newark, will present a timely address. His book "The Footsteps of the Trojan Horse" won acclaim throughout the country. Governor and Mrs. Leverett Saltonstall will be the guests of the Federation. Donald Currier, will present the music.

A speaker of great charm, Bonaro Overstreet, author of "The Poetic Way of Release" and "Footsteps on the Earth," will appear on the final session of the convention on Wednesday morning. The Ninth District Chorus under the direction of Robert D. King and Viviane Bertolanic, violinist, and Norma Bertolanic, piano, will conclude the musical programs.

All morning sessions begin at ten o'clock, afternoon sessions at two o'clock and evenings at eight o'clock. Mrs. J. Arthur Snyder is chairman of the music. On each afternoon there will be social festivities such as the Garden Walk which is looked forward to each year. Tuesday evening following the lecture there will be a Reception when the music will be presented by "The Women's Symphonic Trio."

Coming Events

C-operative Bank Mortgages Lead to Debt-Free Home Ownership

Before Co-operative Banks came into existence there was no practical plan to enable working people to buy homes on a budget basis. When Co-operative Banks made it possible to pay for a home on a rent-like basis they placed home ownership within the reach of nearly everybody. With the help of Co-operative Bank Mortgages, thousands of people have bought homes out of income and today own them free and clear.

If you would like to acquire the benefits of debt-free home ownership on a rent-like basis, talk with the nearest Co-operative Bank named below . . .

Cong. Eliot Tells Young People To Train and Produce

On Sunday evening, May 4, at 6:30 o'clock, an Inter-Church Youth Meeting was held at The Eliot Church under the auspices of the young people of that church, some one hundred young people from the various Newton churches participating. After a beautiful candle-light Tryst Service, the meeting was addressed by Congressman Thomas H. Eliot, representative of this district in Congress. The address was followed by a very lively question period, in which the young people showed their vital interest in the present national picture and their relation to it.

Excerpts from Congressman Eliot's remarks follow:

"Train—work—produce! That's the slogan for America to use toward its young people, and for its young people to adopt, too."

"Let's resolve now that we will not be terrified into any postdepression. We know we can produce. Let's do it then. By a joint and courageous effort we can keep this country going in peace and in war."

"The future of our country is bound up with the work of our factories; and the future of our young men lies neither on the street corner nor on the foreign battlefield, but in the productive life of a great and free nation."

NEWTON SPORTS

Tennis Coach On National Committee

Walter M. Taylor, Newton High School teacher and coach of tennis, has been named to the national committee for the promotion of interscholastic tennis. The appointment indicates that in the future consideration will be given in junior seedings and rankings to high school tennis players in Greater Boston.

Until a decade ago interscholastic tennis was confined mostly to private and preparatory schools but increasing interest in the sport has brought many high schools into the field. Newton High, one of the earliest public schools to sponsor a team, has advanced far under the direction of Coach Taylor. A record of 53 matches without a defeat is the present record of the teams extending over several years. One of the highlights of this record is that it includes matches with the preparatory and private schools.

Taylor has done much to foster tennis among the high schools of Massachusetts. Under his initiative Newton sponsored the first interscholastic tournament for high schools some years ago, an event which has grown in popularity until it attracts numerous school teams. Although Newton and Winchester have dominated this tournament there have been occasional players from other schools who have achieved individual honors.

Newton Net Team Wins Another

The Newton High School tennis team scored its 53rd win since its last defeat, last Saturday toppling Worcester Academy, 7 to 2 in an impressive victory. Worcester, considered one of the strongest opponents of the 1941 season, won only one singles and one doubles match.

Daniels, of Worcester, defeated Capt. Stanley Collinson of Newton, 6-1, 6-1, in singles and Daniels and Wilson defeated Collinson and Lynch, 6-1, 7-5 in doubles. Newton singles winners were Jack Lynch, Bill Powers, Bill Woods, Ted Wood and Dick Lowry with Powers and Woods and Peabody and Birmingham chalking up the two doubles victories for the orange and black.

The Newton racquet wielders were scheduled to meet Boston Latin on Tuesday afternoon but the Hub team failed to make an appearance. The Newton Seconds, victorious in all four of its matches thus far, journeyed to Waltham to meet the Watch City varsity, and returned with their fifth scalp by a 3 to 2 margin.

Don Skakle of Waltham might have alone saved the Waltham team from defeat could he have played in more than two matches. He won his singles match from Newton's number 1, Don MacRobbie, and paired with Nickerson to win from the Newton team of Corcoran and Callahan. Newton's three points were scored by Arthur White and Robert Manchester in the singles matches and Warshaw and Walters in doubles.

The Newton varsity plays at Haverhill on Saturday while the Newton seconds will meet the Dorchester varsity on the Newton courts this afternoon.

Red Cross Chapter Completing Large Shipment

Newton Chapter is completing a shipment of two hundred Women's Air Raid Shelter Kits. These are navy blue canvas, rubber-lined satins with shoulder strap.

The sudden rush to shelters leaves no time to grab the necessities of life, so that these emergency needs help tide over a few hours of underground confinement: comb and mirror in case, scissors, buttons, safety pins, hair pins, bobby pins, Kotex, spoons of thread, thimble, needles, snaps, pins, darning cotton, wash cloth, towel, soap, band-aids, toothbrush, tooth powder, Kleenex, toilet tissue, writing paper, envelopes, pencil, flashlight.

Production Headquarters is appealing to families for the volunteer services of their chauffeurs and cars. This means the delivery of unfinished and completed garments to the various chapter workrooms in Newton. It requires 1 1/2 to 2 hours in the morning. If sufficient men can be obtained, drivers will be on call only about once a month.

ANNUAL TEA AT THRIFT CENTER

Invitations have been extended to the representatives of the various women's organizations of the churches throughout Newton to attend an annual tea at the Thrift Center, 392 Centre st., Newton, on Friday, May 16th, from two-thirty to four. Each year this tea is held to enable women of this city to become better acquainted with the Thrift Center and its work.

Newton Track Team Second at Worcester

Ravinsky Homers To Beat Brookline In Ninth Inning

Making a surprise showing in the annual Worcester interscholastic meet last Saturday, the Newton High track team pulled into second place behind the favored Mechanics Arts aggregation. Scoring all of its points in the field events the orange and black athletes chalked up 17 1/2 points. The Boston school outdistanced all competing teams with a total of 30 1/2 points, to retain its championship.

Coach Don Enoch and his Newton boys won two first places, one second, third, a fourth and tie for third. Captain Elliot Mover won the high jump with a leap of 5 feet 9 3/4 inches and Dick Klein captured the pole vault with a 10 foot-3 inch effort. Sophomore Tom Harris took second place in the running broad jump with an even 20-foot leap, about 9 inches behind winning Charley West of Rindge. Newton's third-place points came with Phil Walsh's toss of 45 feet 6 inches in the shot put, about four feet behind the winner's effort. Borg of Worcester Commerce was the winner. Another point was added to the Newton score when Stan Merrill tossed the discus 115 feet 10 inches for a fourth place. Bill Hooper tied with Giacomini of Framingham in the pole vault for the half point.

The Newton mentor was particularly pleased with the team's display of strength. In addition to rebuild and with a group of sophomores who have as yet had little opportunity to obtain experience the team was given general permission to "break training" the night before the meet. The biggest social event of the year, the Senior Prom, taking place Friday night the Newton coach told his charges to "go on and have a good time."

Newton Golfers Leading League

Since its opening match against Belmont High ten days ago which resulted in victory the Newton High golf team has won two more matches and tied another in the Greater Boston Golf League to set the pace in that circuit by a comfortable margin.

Last week Thursday the orange and black pellet chasers were tied by Arlington High at 4 1/2 points each on the Winchester Country Club course. Cavanaugh and DeGeorge scored 2 1/2 points and Boynton and Reidy two with George Curley and Doug Teschner losing to their Arlington opponents.

On Monday Newton played at Lexington, winning 7 to 2 to take over the lead in the league. Curley and Teschner scored on point and the other pairs 3 each. On Tuesday against Watertown on the Woodland Club course Newton won with a 7 1/2 to 1 1/2 count. Curley and Teschner scored 1 1/2 points and again the other two local pairs chalked up three each. This afternoon Newton journeys to Waltham to play the Watch City crew on the Trapelo course.

Newton Team Wins Cub Basket Title

The Newton Beetles won the championship in the cub division of the annual Charlestown Boys' Club basketball tournaments on Monday night, defeating the Henry Club of Chelsea, 26 to 18, in the final round. The Mayor Tobin Club of Boston, visitors over the Newton City Club of the Y in a semifinal round game, went on to win the junior title.

In the Beetles victory Marino at centre with 11 points was the high scorer followed by Corrigan with 8 points and Stokes with 6.

appropriation will be taken from the reserve fund.

Alderman Donald D. McKay, chairman of the Finance Committee, explained an appropriation for \$250 as a contribution to the work of the Newton Public Safety Committee. The committee will hold a public meeting on May 21st at the high school auditorium at which time local defense measures will be discussed.

An appropriation of \$500 was made for surfacing the parking area at West Newton. Alderman Jameson, chairman of the Public Works committee, stated that at the time the parking area was made there was enough money to provide only for gravel surfacing. The appropriation will be used to provide a permanent Type D hard surface. The project will be done under WPA.

For the street department appropriations were made to provide for the construction of sewers and land takings for drains and sewers as follows: Private land, Ward 5, adjacent to Boylston st., near Cloverdale rd., \$1,640; Buswell pke., Ward 7, \$1,600; College rd., Ward 6, \$1,240; Fordham rd., Ward 3, \$550; Pelham st., Ward 6, \$450; Schofield drive, Ward 2, \$3,545.

For the water department \$1,840 was voted for the extension of a water main at Varick Hill rd., Ward 5, and \$4,500 for improvements at the Waban Hill reservoir.

Biting Dogs Are Ordered Restrained

Police notified owners of four dogs to restrain their pets after complaints had been received that the animals had bitten persons during the weekend. One of the four animals ordered restrained is the pet chow dog of Jack Shankey, former world's heavyweight champion, of Stone Ave., Chestnut Hill. The dog has been in similar difficulties in the past. John M. Keene of Burdick st., Brighton, complained to police that the Shankey chow had chewed his son James and a neighbor, E. J. Burke of Beacon st., filed a complaint that the dog's barking was an annoyance.

George McNeil of Fisher ave. was ordered to restrain his dog after complaint was made by Dorothy Dean of Rockledge rd. Charles A. Morgan of Garrison st., Brighton, was also notified by police of complaint of Alice Coleman of Hammond st. Mrs. Harry Seligman of Gordon rd. was notified after complaint was made by Eli Brilliant of Byfield rd.

City veterinarian Dr. Richard Schold was notified to keep the restrained dogs under observation.

NORUMBEGA C. E. UNION

The annual election of officers for the coming year will be held at the regular monthly meeting of Norumbega C. E. Union to take place on Tuesday, May 13th, at the First Baptist Church in Belmont, at 8 o'clock.

The feature of the meeting will be a Bible Quiz conducted by Dr. C. E. Each society will be represented by two contestants, and a prize will be awarded the high scorer.

formally notified the Board of the court decision and also of the Civil Service ruling.

Mayor Goddard stated that in view of the fact that two additional street sergeants was recently authorized by the Board and because of his opinion that the services of a sergeant-mechanic were unnecessary, permission had been sought of the Civil Service commission to put him to work as a regular sergeant.

"The director declined to permit his employment as a regular sergeant so he must return as sergeant-mechanic, making an extra mechanic at work in care of police cars," the Mayor's communication stated. No action has been taken to reimburse Cullen for loss of pay during the long legal fight over his ousting but adjustment is expected to be made shortly.

The reinstatement of Sergeant-Mechanic Bartlett Cullen became effective on Monday morning when he returned to his duties at the police garage. On Monday evening, the Board of Aldermen, upon recommendation of Mayor Paul M. Goddard, appropriated the sum of \$1,617.67 for Cullen's salary for the balance of the year. The salary is \$2450 for the full twelve month period.

Charles Beckert, civilian mechanic who has carried on the work in Cullen's absence, will serve as the Sergeant-Mechanic's assistant.

Arrest Waban Man For Theft of Funds

Arraigned in the Boston Municipal Court on Monday on charges of larceny of \$109,000, Charles W. Harvey, 50, of 15 Southwick rd., Waban, was held in \$30,000 bail for speedy trial in the Suffolk Superior Court. Harvey offered no plea but waived indictment by the Grand Jury and will probably go on trial later this month.

The Waban man, credit manager of a large Boston department store, was arrested Saturday on the larceny charges. He is alleged to have juggled the funds of an employee's credit union of which he is the treasurer with those of a stabilizing financial association for more than 400 Massachusetts credit unions, the Central Credit Fund, Inc. He surrendered to state detectives at the office of his attorney, former Mayor Frederick W. Mansfield of Boston, and was taken to the state police barracks at Framingham.

Attorney General Robert T. Bushnell's office announced that the accused man is believed to have switched the funds of the two organizations back and forth whenever an audit of the state bank examiners was due in order to cover the shortage over a period of eleven years. It was stated that the Waban man had suffered heavy financial reverses in the 1929 market crash. He is married and the father of two children.

SEEK APPROVAL OF 1941 TAX RATE

Mass Meeting for Local Defense

A Lower Tax Rate
An analysis of the available figures in preparation of the Newton tax rate indicates that upon approval of the local assessors' figures by State Tax Commissioner Henry F. Long, local taxpayers will enjoy a reduction in the 1941 tax rate as large as that of a year ago. By careful handling of the city's finances, by a reduction in the annual budget, and by the use of a portion of surplus funds a reduction of approximately a dollar per thousand is anticipated. It should be emphasized that in appropriating a portion of the surplus funds available that the \$125,000 thus used is less than the unexpended balances in departmental appropriations remaining from last year. In other words, the surplus account is not being unduly drained to effect the tax reduction. The amount from the surplus fund represents about 75 cents per thousand in the tax rate.

In addition to the use of \$125,000 from the surplus account numerous other factors enter into the possibility of a lower tax rate despite the additional costs of the two-platoon system in the fire department and the day-off-in-six system in the police department. These factors include the increased income tax and corporation tax receipts. Here there is a gain of about \$135,000. And better still from the Newton taxpayer's point of view is a continued downward trend indicated for 1942. All of which makes for a healthy local financial condition.

Fantastic Events

The flight of the Nazi leader No. 3, Rudolf Hess, to England is one of the most fantastic events that ever occurred in the history of warring nations. So fantastic is the event that in the minds of the public all sorts of reasons are being advanced and all sorts of results are being imagined. It is often said that truth is stranger than fiction. The longer we live the more frequently are we impressed with the soundness of this truism. Perhaps time will clear the shrouds of mystery in the defection of Hitler's former ally. Certain it is that no longer is Nazi Hess bound by a fanatical belief in his ruthless leader. Released from a bondage of untruth he fled to the one place where he is reasonably safe from the "purge" which he unquestionably was about to face. One great hope for humanity in this war-torn world is that others who are helping to maintain a false and ruthless conquest will see the error of their ways and put their strength and effort in-

Newton Public Safety Committee Will Explain Plans Being Made

Only English Woman Air Warden To Speak

Two announcements, important to all Newton citizens, were made today by John M. Bierer, Chairman of the Newton Committee on Public Safety. The first is the Newton Defense Meeting at the Newton High School Auditorium on Tuesday, May 27th, at 8 p. m. This meeting is open to all Newton citizens and all are invited to attend. The second announcement is that of the membership of the Newton Committee on Public Safety, and its Executive Committee.

The two main speakers at the Newton Defense Meeting, May 27th, will be J. W. Farley, a Newton resident, and Executive Director, Massachusetts Committee on Public Safety, and Mrs. Humphreys Plowden, the only woman in England to serve as Deputy Chief Air Warden. Supplementing these speakers will be Mayor Paul M. Goddard, who will welcome new citizens to Newton, and William V. M. Fawcett, City Air Raid Precaution Warden, who will describe what, in addition to many utility and public services, Newton must prepare to defend. John M. Bierer, Chairman of the Committee, will describe what has already been done and is being done and the plans that are being developed and in which thousands of Newton residents will volunteer their services. The Newton American Legion band will provide music and several other interesting features for the meetings are planned.

Meetings Held

Many committee meetings have been held by Mr. Bierer since his appointment as chairman of the Newton Committee by J. W. Farley, Executive Director, Massachusetts Committee on Public Safety. Mr. Bierer has taken occasion to point out at these meetings that Newton, working under the instructions and with the co-operation of the Massachusetts Committee on Public Safety, is not proceeding on the probability that Newton will be bombed. But, it is working out its defense program against such possibility—also on the theory that the best defense is preparedness. He has pointed out that those best prepared are the least likely to be attacked. He has also emphasized the enthusiasm hundreds of Newton citizens have shown in the program by offering their services and gladly accepting all assignments.

At the meeting the full Newton defense program, with accomplishments to date, will not be discussed, but Mr. Farley, one of the main speakers, will describe what is being done on a statewide, as well as a national basis. In addition, Mrs. Prowden will bring to the group first-hand information of just what should be done for adequate defense, based on her thrilling experiences in England.

Ask Permission For School on Farlow Hill

Would Accommodate 60 In Brick Mansion In Residence District

With recollections of the long-drawn-out controversy over the establishment of a girls school in the Mount Ida section of the city a few years ago not entirely eradicated by time, residents of the Farlow Hill section of Newton are indicating widespread interest in a petition for the establishment of a private school for boys in that part of the city. The request, signed by Robert W. Whitmore of Cambridge, and others, will be the subject of a public hearing before the Claims and Rules committee of the Board of Aldermen on Wednesday evening, May 28th.

The petition is dissimilar in many ways to that of the girls school a few years ago as no change of zone is necessary. Aldermanic approval is essential because the brick mansion, located at the corner of Franklin st. and Waverley ave., is in the single residence A district.

The proposal is understood to bring about the removal of a boys' private school in Cambridge and to establish the school, a day school accommodating approximately 60 boys, in Newton. Being of a second-class brick construction, the mansion is adequate under the building laws with the exception of the installation of fire escapes and other minor alterations.

To Dedicate Organ At Lower Falls

The newly rebuilt organ at St. Mary's Episcopal Church, Newton Lower Falls, will be dedicated at a special organ recital at 7:30 next Tuesday, May 20th, with Miss Louise Winsor of East Greenwich, R. I., as the special organist. Bishop Henry Knox Sherrill will confirm and welcome into the church a special group of candidates at a service to follow the organ recital.

The final step in the reconstruction program started over a year ago at St. Mary's Church will be completed when the rebuilt organ is dedicated.

The organ had an honorable history, some of the pipes dating back to an organ installed in 1850 which served the church for half a century. In 1900 it was rebuilt and enlarged by Thomas Ryden who was responsible for many New England church organs of the late eighteen hundreds.

The present reconstruction has been done by Ernest M. Skinner, well known authority on organs. It involved the extension of the scope of the instrument by the addition of stops and the provision of a modern action. Hugh Spencer of St. Mary's Church headed a committee to modernize and rebuild the organ.

Oliver L. Loring Consecrated As 5th Maine Bishop

Former Newton Youth Was Ordained But Ten Years Ago

At consecration ceremonies at the Cathedral of St. Luke in Portland, Maine on Tuesday morning, Rev. Oliver Leland Loring, former resident of Newton, became the fifth bishop of the Episcopal Diocese of Maine. Bishop Loring who is 37 years old, the youngest man ever named bishop of the Maine diocese and the youngest member of the present body of bishops in the American Episcopal church, is the son of the late Rev. and Mrs. Richard T. Loring of Newtonville. Rev. Richard T. Loring for many years was rector of St. John's Episcopal church. Bishop Loring was ordained in the Cathedral Church of St. Paul, Boston in March, 1931 and began his ministry at Grace Church, New Bedford as a curate. He left New Bedford to become rector of the Church of the Epiphany in Duxbury, but was recalled to Grace Church in 1936 to serve as rector, succeeding Rev. John Grotton. He succeeds the late Bishop Benjamin Brewster.

Rev. St. George Tucker of New York City, president of the House of Bishops, officiated as conservator. Very Rev. Howard D. Perkins, dean of St. Luke's Cathedral, was master of ceremonies. Rt. Rev. Henry Know Sherrill, D.D., bishop of Massachusetts, was the preacher. A brother, Rev. Richard T. Loring, of St. David's Church, Baltimore, was one of the presbyters.

The church was filled with several hundred persons and many dignitaries of the New England diocese. Bishop Sherrill, who gave the sermon, officiated in the ceremonies ten years ago at which Bishop Loring was ordained.

Attention was called to the possibility that Federal Aid might be withheld unless a Board of Welfare was established or the head of the department is placed under civil service. Last year the city received nearly \$150,000 in grants for four different welfare purposes. The State Legislature is considering passage of a bill placing all Directors of Public

Claim Present Welfare Board Not Recognized

Proposed New Board Favored and Opposed At Public Hearing

The proposal that a board of public welfare be established in Newton was the subject of a public hearing before the Claims and Rules committee of the Board of Aldermen on Monday evening. Arguments in favor of the recommendation as submitted by Mayor Goddard were offered by representatives of the Newton Community Council. Opposing views and suggestions were also presented.

Richard B. Carter, president of the Family Service Bureau, a member of the Community Council, and Robert E. Dickerman, chairman of the division of welfare and relief of the Council, spoke at length in favor of the recommendation as submitted by Mayor Goddard. The proposal was supported by the Board of Aldermen on Monday night. Aldermen Clifford W. Walker and John Temperley, whose duty it will be to place the nomination of a candidate before the Board at a subsequent meeting, requested the advice and assistance of residents of the Ward.

Howard Whitmore, Jr., of 88 Carver rd., a former Newton High School athlete and a graduate of Harvard in 1929 was named by the Newton Highlands representatives and Wendell Bauckman of 336 Dedham st., was the choice of the Oak Hill delegation. The Waban and Upper Falls precincts are now represented by Aldermen Walker and Temperley. The meeting was a non-partisan gathering at which Harold Trefrey of Oak Hill, a registered Democrat, was chosen chairman.

Predict Reduction To Rate Near \$28

Announcement of the 1941 Newton tax rate is expected within the next 48 hours. Local assessors have practically completed the tabulation and calculation necessary to determine the rate. Prior to publicly announcing the new figure, however, the recapitulation of the warrants, receipts and valuations must be submitted to the State division of corporations and taxation. Tax Commissioner Henry F. Long will then certify the local assessors' action in fixing the rate. A year ago the 1940 rate of \$29.20 was announced on May 10th at which time Newton was the first city in the Commonwealth to have its figures approved by the state office. The 1940 rate was a dollar less than that of the year previous.

It has been conceded for some time that the 1941 rate would show a reduction from the former rate. The exact amount will not be known until the final computation can be made but an analysis of the available important figures would indicate that the rate to be announced will be in the close vicinity of \$28 per thousand. This will mean a reduction of \$1.20 from the present rate.

The 1941 budget figures total \$5,524,580.15, an increase of approximately \$60,000 over the 1940 budget and additions. The new budget figures include an amount of \$75,000 to care for future necessary appropriations whereas a year ago an amount of \$124,000 had to be made up for appropriations made after the tax rate for 1939 had been set. In 1939, it will be recalled, the setting up of the biennial state budget by the Legislature delayed the fixing of tax rates until midsummer.

In addition to the increased local appropriations, there is an increase of about \$13,000 in state, county, and Metropolitan District warrants. The county taxes this year will be \$233,236.73 against \$208,082.25 a year ago; the state tax will be \$407,550 this year against \$387,360 in 1940; and the total, including Metropolitan District and other charges, will be \$823,051.07 this year against \$810,877.02 a year ago.

Offsetting these increases in local, county and state charges is a substantial increase in receipts from Newton's share of income and corporation taxes. The seeds of democracy are sown in a Pilgrim setting followed by the second episode depicting the birth of democracy in Revolutionary times. The preservation of democracy is built around the Civil War followed by another episode of the expansion of democracy from the civil war period to the First World War. Newton Centre Man Killed in Crash

Crashing into a 10-ton trailer truck in a head-on collision on Route 20 at Brimfield, Harry A. Hubbard, 46, of 54 Bishopton rd., Newton Centre was killed early yesterday morning. Hubbard's body was pinned so securely in the wreckage that rescue workers and police worked for an hour before extricating his body. He was pronounced dead on arrival at a Palmer hospital. The Newton Centre man, who was a bond salesman, is survived by his widow, Josephine R., and a 14-month-old son.

According to police Hubbard was driving home alone when he collided with the truck, a section of which collapsed on his auto. The truck, bound for Buffalo, N. Y., was driven by Gelina Conci of Somerville who was unhurt in the crash. He was held on a technical charge of manslaughter. State Troopers William Ryan and Henry Mizolek, with Brimfield police and motor vehicle inspectors planned to investigate the accident.

Another reserve officer is to be appointed in place of Foley and two more will be named after two present reserve officers are appointed regular patrolmen to replace those who will be promoted to the two newly created sergeantships. The sergeant's posts will be filled after a civil service examination to be held on July first.

The State Civil Service Division has announced that this examination will be open to patrolmen who have served for at least one year and that applications must be filed at the State House not later than Tuesday, June 10th.

The program of speakers for the 1941-42 season of the Community Forum will be discussed at a meeting of the steering committee to be held in the community room of the Newtonville Library this evening. The committee, comprised of fifty, will receive the report of the program sub-committee, which has completed its preliminary plans for speakers.

City Officials Send Figures To State Tax Commissioner Long Before Announcing Rate

Seek Successor To Alderman McKay

Proposed New Board Favored and Opposed At Public Hearing

Representatives of the five precincts of Ward 5 met last evening at Waban in an attempt to select a successor to Alderman Donald D. McKay of Newton Highlands, whose resignation will be accepted by the Board of Aldermen at its meeting next Monday night. Aldermen Clifford W. RECENT DEATHS

WILLIAM H. PAXTON

William H. Paxton, well-known artist, died at his home, 15 Montvale rd., Newton Centre, on Tuesday, May 13. He was born in Baltimore on June 22, 1868, the son of James Paxton, former Newton caterer, and Rose Daugherty Paxton. He had resided in Newton practically all of his life and was educated in the Newton schools.

He began his study of painting under Dennis Boker at the Cowles School and continued his training under Jerome at L'Ecole des Beaux Arts in Paris, returning home in the early 90's to begin his career as an artist. He painted portraits of Presidents Grover Cleveland, Calvin Coolidge and other prominent persons and was known as the "Court Painter" of Philadelphia. His canvases are in the permanent collections of such institutions as the Metropolitan Museum of Art, the Corcoran Gallery, the Museum of Fine Arts, Boston, Pennsylvania Academy of Fine Arts and museums in Cincinnati, Detroit and Hartford. At the various art shows throughout the nation his canvases were invariably voted as the best. For several years he was a member of the faculty of the Boston Museum of Fine Arts School. He was a veteran member of the St. Botolph Club of Boston, the National Arts and Salamagundi Club of New York and the Art Club of Philadelphia and Central Falls.

Larrabee, 26, formerly of Newtonville, alleged to have extorted from Massachusetts into Rhode Island, resulted in his being rearrested on Monday after he had been released from Concord Reformatory where he had completed a 25 months sentence. In the Newton court on Tuesday morning he pleaded guilty to five charges of larceny involving the theft of extension ladders in Newton in 1939. After being given a suspended sentence of a month in the House of Correction on each count he was held for Rhode Island authorities. He waived extradition and officers of that state returned him to their jurisdiction Tuesday afternoon. He is wanted in Pawtucket and Central Falls.

Larrabee was arrested in North Attleboro in April 1939 and sentenced to Concord Reformatory. Upon his release he was rearrested by Sergeant Richard Bannon and Inspector Philip Purcell of the Newton police. It was charged that in March, 1939 he stole a 20-foot extension ladder from the home of Mrs. William Campbell, 87 Hammond st., Chestnut Hill and sold it for \$3 to Raymond Bowman of Chesley rd., Newton Centre. The ladder was later recovered by Inspector Alfred W. Hammell. On the same day he stole another ladder from William Hawes of 127 Elm st., Newton Centre, sold it for \$4 to William H. Newcomb of 370 Chestnut Hill road. Newcomb was building a house at 173 Grant avenue from which place Larrabee stole the same ladder and sold it over again to Harry Tighe of 780 Beacon st. The same night he stole another ladder from the Grant avenue house which has not yet been recovered.

Rotary Club

His Honor, the Mayor of Newton, spoke at the Monday meeting of the Newton Rotary Club, held at Brue Burn, on the great importance of strong well-supported municipal government in Democracies. He also reviewed the changes that have taken place in the City of Newton during the year such as the new zoning laws, the two-platoon system, and the one day off in six for the police force. He told that just as the defense work in England is being largely handled by the local governments, so Newton has a Committee of Public Safety with volunteer air wardens. He urged every one to attend the mass meeting for Civilian Defense to be held on May 27th.

The Mayor stressed the fact that the finances of Newton are in better shape than ever. In spite of some heavy expenses substantial savings have been made so that the resulting costs will be less to the taxpayers.

Women's Club Activities

Coming Events

The Newton Federation of Women's Clubs

Mrs. H. Clayton Pearson, president of the federation, will meet on Friday morning, May 16, with her assistants and the chairmen from the churches and clubs in Newton, for a preliminary meeting for the Sale for the Blind which is to be held on May 26, 27 and 28th at the Newton Centre Woman's Club House. This meeting on Friday, which is scheduled for ten o'clock will be at the same place and it is expected that Miss Rose Trainor, executive secretary for the Division of the Blind in the State Department of Education, will be present and explain what the procedure will be for the workers.

Mrs. Pearson, who is general director has the following on her committee: Mrs. Elmore I. MacPhie, co-director; Mrs. A. S. McMillan, Mrs. Ernest A. Hale and Mrs. Harry P. Forte, chairmen; Mrs. George M. Sneath, Mrs. Howard C. Thomas and Miss Elizabeth Bartlett, co-chairmen; Mrs. Ernest F. Drew, publicity; Mrs. Frank L. Aurelio, secretary; and Mrs. Ernest L. Johnson, treasurer.

This will be the sixth year which the clubs and women's organizations of the Newton churches have cooperated, in this sale, with each year showing progress.

The sale will open each morning at ten o'clock and close at four, special attractions being offered each day.

All of the articles to be offered for sale have been made by the blind people of this state, and the profits over the original cost of materials, goes to the individual who made each. Among the attractive things to be found will be baskets for gardening, toys of all description, hand woven scarves and towels, rugs and hundreds of other goods suitable for gifts.

Newtonville Woman's Club

The Newtonville Woman's Club will hold a Cook-Out at Babson Park, Wellesley, on Monday, May 19. For reservations, call Mrs. Erskine A. Gay, Lasell 6226. Mrs. Gay and committee will be at the Club House from 11 a.m. to 1:30 p.m. to furnish transportation.

Newtonville Junior Woman's Club

"Oral Vignettes," some spicy, some quaint, presented by Esther Bird Dolquer, well known reader, will head the program at the Newtonville Junior Woman's Club on Tuesday evening, May 20th, at the Club House on Washington Park. Mrs. Howard Eaton (Betty Blackey) talented soprano and a Club member will sing accompanied by Dorothy Burns, pianist.

The newly elected officers for 1941-42 will conduct their first meeting lead by Janet Gwillim, president. The program is being arranged by Janet Elliot. Barbara Davis will be in charge of refreshments.

News of The Garden Clubs

Newtonville Garden Club

The Newtonville Garden Club will meet at the home of the newly elected president, Mrs. J. Walter Allen, 15 Foster st., Newtonville, on Thursday morning, May 22, at 10 o'clock. Allen will read a paper on "Orchids."

A somewhat different flower show is being planned by the Newtonville Garden Club on June 6th at the Newtonville Woman's Clubhouse. The classes will be chosen to represent all parts of a plant viz., root, branch, leaf, flower and fruit.

Newton Highlands Garden Club

A spring flower show and plant sale, Friday, May 23rd, from 12 noon to 9 p.m., at the Work Shop on Columbus st., is being sponsored by the Newton Highlands Garden Club, under the chairmanship of Mrs. Edward M. Stuart.

Neighboring garden clubs are to make mass arrangements in bronze and yellow, and this gay motif will be carried throughout the Work Shop by Mrs. Percy Merry, Mrs. George H. Gosman, and Mrs. Norman E. Dupee.

Tables will be set to represent various countries or periods, and there will be a "The Sky is the Limit" class for the club's many men members.

Mrs. B. Walter Godsoe, Mr. and Mrs. Russell Mason, Mrs. Warren B. Kennedy, and Mrs. Allston T. Budgell are sponsors for the Horticultural Classes. Mrs. George H. R. Gosman, Mrs. Emil F. Haberstroh, Mrs. Victor Anderson, Miss Marion H. Dorr, Mrs. Donald D. McKay, Mrs. C. S. Perkins, and Mrs. Richard H. Farrell are sponsors for the Arrangement Classes.

Children, the case load is now 160 families and the average cost of \$65 per month per case. This figure which seems high, is probably due to the fact that larger families are receiving aid. The case load for General Relief for last month was 427 cases as against 636 for the same month in 1940. In the first two categories, cash is given to the recipients, but in General Relief, cash and food orders are given. In order to be eligible for this aid, honest work must be given by an employable head of a family where possible, otherwise this type of aid would become a dole. In closing, Mr. Reynolds said that his problems had been made easier because of help through Mrs. Perkins, whose telephone number is BIG 8123, such calls to reach her before Tuesday evening each week, that the truck manned by employees from the Newton Hospital might make the collections each Wednesday morning.

The shop, which is located at 795 Washington st., Newtonville, across from the railroad station is open each Monday afternoon from two to four-thirty and Wednesday and Friday mornings from ten to twelve.

Among the chairmen present were Miss Ethel Woodberry and Mrs. Fred Hardy from West Newton; Mrs. Dana M. Dutch and Mrs. Edward Douglas of Waban; Mrs. Ernest F. Drew of Auburndale; Miss Louise Sherman and Mrs. Robert Whitehill from Newtonville; Mrs. Charles Bartlett of Newton Centre; Miss Bertha O'Connor and Mrs. George Webster of Newton Highlands; Mrs. Sterling Loveland of Newton and Mrs. Ernest Cobb of Newton Upper Falls.

Among the officers were Mrs. Brewster Eddy, Mrs. Edward Sawyer, Mrs. Francis Williams, Mrs. Raymond Perkins, and Mrs. Edwin H. Rogers, whose wife, Mrs. Edwin H. Rogers, is the chairman of the Thrift Centre, and they were asked to spread the notice that all donations to the shop should be made through Mrs. Perkins, whose telephone number is BIG 8123, such calls to reach her before Tuesday evening each week, that the truck manned by employees from the Newton Hospital might make the collections each Wednesday morning.

The faculty committee for the fund for British Relief sponsored the film, "The Scarlet Pimpernel" at Winslow Hall on Wednesday evening.

Students of the Home Economics Department entertained faculty and students at tea in Carter Hall on Tuesday afternoon.

The faculty committee for the fund for British Relief sponsored the film, "The Scarlet Pimpernel" at Winslow Hall on Wednesday evening.

Dr. Neilson C. Hannay's drama group presented "The Will of the Wisp" at the Friday evening.

The May Cotillion week-end will include the annual Lasell night at Pops on Friday evening where the Lasell Orpheum Club will sing a group of songs, and the spring formal on Saturday evening at Winslow Hall.

Reverend A. Phillip Guiles of the Newton Theological Seminary will conduct a morning service at Winslow Hall on Sunday at eleven o'clock.

Defense Preparations

The mass meeting on local defense preparations to be held soon should be of widespread local interest. For some years there has been in existence in Newton an "Emergency Disaster Committee" which has been in readiness to function in case of major catastrophe. Now, under the direction of state and national authorization local defense work is to be organized in case of necessity. No one anticipates that Newton or its vicinity is in immediate danger of bombing or invasion, but there is every vital necessity in being ready for whatever might occur. Too frequently in the past few years we have witnessed events transpiring with a suddenness and swiftness that have changed the course of history. And much of the tragedy and pathos might well have been averted had adequate preparations been made. The American people are habitually lethargic when it comes to preparing for something which might never transpire. But America, herself, might find it too late, unless her citizens begin to feel this need for adequate defensive preparations.

Newton

—Edward F. Hennessy of 275 Tremont st., Newton, who will receive his degree from Northeastern in June has been appointed to a position in the sales and accounting department of the Coca-Cola Company.

—The preacher this Sunday morning at the Methodist Church will be Dr. Hobart F. Goewey, pastor of the First Methodist Church, Newton Upper Falls. Dr. Goewey is exchanging pulpits with Rev. Charles T. Allen, who will occupy the pulpit at the Newton Upper Falls Church.

—Mrs. Charles Collins of 200 Dudley rd. and Mrs. Franklin G. Balch, Jr., of 333 Brookline st., are members of the committee in charge of the French Shop, for new and better articles, a feature of the Rummage Sale to be held in Horticultural Hall next Tuesday, May 20 by the Faulkner Hospital Aid Association.

—Phyllis Gorham, 7, of 408 Centre st., was injured Tuesday afternoon when struck by an automobile opposite the Newton Library. She was found to have suffered possible internal injuries in addition to cuts on her knees and was taken to the Newton Hospital. After being struck the child ran into a nearby store where the driver of the car, Frank K. Harris of Stoughton, found her seated on the floor.

DR. AND MRS. SAMUEL A. LEVINE AND CHILDREN

Dr. and Mrs. Samuel A. Levine of 40 Ledges rd., Newton Centre, and their three children each have their own special hobbies but music is a prime interest with all of them. Herbert J., who is thirteen and attends the Weeks Junior High School, is not satisfied with one instrument but plays three—violin, clarinet and piano. He also has a stamp collection. Carol Fay, who is fourteen, and Joan Betsy, who is eleven, are pianists. Carol also attends the Weeks Junior High School, and Joan goes to the John Ward School.

Mrs. Levine, who is a member of the Newton Family Service Bureau, has studied at the Museum of Fine Arts School in Boston and continues her interest in drawing and painting. Both Dr. and Mrs. Levine share an interest in travel. At one time or another they have visited a large part of Europe and have even gone as far into the East as Egypt. A glance at Herbert's stamp collection will prove what far corners they have reached.

Welfare Board

(Continued from page 1)

Welfare under civil service. As the administrative officer of the Board the director would be subject to appointment. In three states Federal aid has been withheld until either a Board has been established or the director placed under civil service. Newton would be better off with board is generally conceded, Mr. Director reported.

Valuable constructive and preventive functions would be exercised by the board, Richard B. Carter stated. He told how the board of directors of the Family Service Bureau had enabled unfortunate families to get on their feet by "sympathetic and understanding" study of cases brought to its attention. He cited cases in one of which the family had to accustom themselves to a lower standard of working, the husband had to overcome his prejudice against his wife working and their morale had to be maintained.

Harold P. Carver, president of the Community Council, expressed the necessity of the board in preventing overlapping between public and private agencies. He predicted that the board would save both time and money, with the Board of Aldermen retaining control of the money and the Welfare board doing an administrative job entirely.

Alderman Theodore E. Lockwood, chairman of the aldermanic committee on soldiers' relief, suggested that the proposed board be required to review all cases of public welfare as his committee has done. He admitted that the task would be considerably greater because of the larger number of cases. Director Daniel Needham, 343 Highland st., West Newton.

Golf Team Gets Two Wins and Tie

The Newton High golf team continues to set a hot pace in the Greater Boston interscholastic golf league piling up two additional victories to wind up the first round and inaugurating the second half with a tie on the difficult Oakley course against Belmont. The victims were Waltham at the Trapelo course last Thursday, Brookline at Charles River on Monday. The Watch City golfers succumbed to an 8½ to ½ onslaught by Coach Tom Walters' outfit with Brookline bowing 5½ to 3½.

Newton handed Waltham its first defeat in three league starts. Leading off with George Curley and John Di George the pair turned in a 41 on the outgoing nine which was equalled by the efforts of Larry Doyle, who was playing with Captain Nick Abramo, to halve the point. Curley and his mate turned in a 35 on the incoming nine. Meanwhile Parker Reidy and Charlie Mac Donald teamed to blank Joyce and Joyal and Al Cavanaugh and Doug Teschner shut out the O'Brien-Leaf team.

Auburndale

The Woman's Guild of the Church of the Messiah held their annual meeting in the Parish House on Monday. Luncheon was served at 12:30 with Mrs. E. Arthur Hancock as chairman, and was followed by the regular business meeting and election of officers. The following officers were elected: President, Mrs. Edwin L. Correll; Vice-President, Mrs. Earle Wood; Secretary, Mrs. William Jackson; and Treasurer, Miss Caroline Goring. The retiring president, Miss Anne Bunker, was presented with a corsage and gift. Mrs. Mildred Beardsley Gibbs entertained with readings and piano solos.

Track Team Second In Quad Meet

Pulling away in the last two events of the quadrangular track meet at Dickinson's Stadium yesterday afternoon Mechanics Arts High tallied 30 points to win. Newton took second with 25 points, leading Rindge Tech by one, with Somerville fourth at 17.

Going into the high jump Rindge and Mechanics were tied with 22 points and Newton tied with Somerville at 16. Mechanics scored five in the jump, Newton four and Rindge two. Then came the relay which Newton won with Mechanics second as Rindge dropped the baton starting the last leg as all three were battling for the lead.

Newton's relay quartet was comprised of Charlie Hyde, Bill Rangnow, Gordon Thomas and Ray Hunting.

Phil Walsh won the shotput for Newton's only first place as Hunting was nipped by a yard at the finish of the 100 by Dunn of Somerville. In the running events Newton scored but one other point with Norman Williams fourth in the 440.

In addition to Walsh's five points in the shot Newton scored other field events points with Bleiler's third place in the shot; Tom Harris and Gordon Thomas, second and third in the broad jump; Captain Mover's second and Dick Tower's fourth in the high jump.

Newton placed second in the quadrangular meet last Wednesday on the Dickinson Stadium track with first honors going to Boston English, in a Merrimell finish which gave them a 30-27 margin over Newton. Worcester Classical scored 23 points and Malden 17. The Hub team's winning margin came in the final two events, the high jump and relay, in which they scored 10 points, winning both events. Newton led on the first two legs of the relay until Captain Francis O'Keefe of English, who also won the high jump and low hurdles, grabbed the lead by cutting inside on the pole and turned over a lead to his anchor man.

Newton's relay quartet included Charlie Hyde, Bill Rangnow, Gordon Thomas and Ray Hunting. Hunting won the 100-yard dash and placed second in the broad jump. Phil Walsh of Newton won the shotput with a toss of 46 feet 1 7/8 inches for the best effort he had ever made. Other Newton points were scored by Captain Eliot Mover, second in the high jump; Gordon Thomas, third in the hurdles; Hyde, third in the 100; Tom Harris, third in the broad jump and tie for third in the high jump; and Dick Tower's tie for third in the latter event.

Newton Nine Wins Fourth Straight

Showing steady improvement the Newton High School baseball team chalked up its fourth straight win on Monday, knocking off the visiting Waltham aggregation for the second time this season. Monday's score was a 16 to 2 affair with the locals pounding four Waltham twirlers for twelve hits which together with 11 bases on balls resulted in the walkaway.

Scoring seven runs in the second frame on three hits and a number of passes the game was sewed up early. Meanwhile Walter Ravinsky, Newton ace, was holding off the Waltham attack. The two Waltham counters came in the third inning when loose fielding including a bad throw to first base let the runs across the plate. A single tally in the third gave Newton an 8 to 2 lead which mounted to 16 to 2 with two four-run clusters in the fifth and sixth. With the game safely stowed away Coach Jones relieved Ravinsky on the mound and Keating, Olds and King each took over for brief spells. Off the combined Newton pitchers the Watch City outfit garnered but five hits, all singles. Ravinsky fanned 8 and the three other Newton twirlers one each.

Gleson led the local attack with two singles in twice at bat during a four-inning sojourn in centrefield. Phil Fessenden and "Lefty" Forbes collected two hits in four trips to the plate, one of Fessenden's being a two-bagger. Norcross and Bryne also hit for two bases.

Newton's 7 to 1 win over Arlington High last Friday was sweet revenge for the opening-game 15 to 0 setback the locals received from the Spy Ponders at Arlington several weeks ago. Sophomore Charlie Pope, twirling his first game for the orange and black, was the outstanding figure of the game. Pitching with the most effectiveness seen in a long time the youngster held the visitors to five scattered safeties, passing but three and fanning one in the clutch. He deserved a shutout but Arlington chalked up its lone counter in ninth inning. Momentarily losing control Pope plunked two Arlington batters in the side in succession. The next batter hit to shortstop Norcross who fielded and pegged the ball cleanly to second baseman Don Chalmers for a forced play at the middle sack. With an easy double play in sight to end the game Chalmers was dumped unceremoniously by the incoming baserunner and was unable to get the peg away to first. Meanwhile the base-runner starting from second rounded third and crossed the plate.

Newton sewed the game up in the first three innings with a cluster of three runs in the second sandwiched between single tallies, to build up a 5 to 0 lead. Two more runs in the 7th made the verdict certain the way Pope was pitching. Bob Walker's triple with two on in the second inning was the telling blow. Bullet Byrne's two bagger put runners on second and third in the seventh with Don Chalmers rifling a hot single through the box to drive them across.

Arlington threatened to score on several occasions. Once with the bases full and but one out Pope bore down to fan the batter and took care of the next on an infield grounder. Again with runners on second and third with but one out a short passed ball was handled perfectly to give Pope a put-out at the plate with an out-field fly ending the inning to pull the Newton twirler out of another hole.

Newton will seek its fifth straight win at Cambridge Latin tomorrow afternoon with victory putting the locals back into the thick of the Suburban league pennant race.

The Cantab defeated Arlington on Tuesday enabling Newton to move into second place. Newton could tie the Cambridge nine for league honors with a win tomorrow and a subsequent second defeat of the league leaders by one other team. The league standing:

Establish New Welfare Board

Aldermen Unanimously Adopt Ordinance for Five-Man Board

Director Reynolds Praised By Committee Chairman

The establishment of a five-man Board of Public Welfare was unanimously voted by the Newton Board of Aldermen on Monday night. The new board will replace the "two-man board" of a paid director and an assistant director which has existed for many years but which has not been "recognized" by State Public Welfare officials as constituting a proper board. Because of the existing conditions the Aldermen were faced with the choice of setting up a new board or placing the director under civil service in order that Federal financial aid might not be withheld.

On the contrary, we believe that many of the relatives would welcome the warning "marker" in the knowledge that the presence of a marker may well save the lives of some other person's relative by the unconscious response to the mute appeal to use more care. We hope that the project of painting these markers will be resumed.

In the Name of Defense

A few weeks ago in these columns we commented upon the tendency to label many things that are being done today with the appellation "for defense." Scoring "defense hysteria" at the meeting of the Board of Aldermen on Monday night Alderman Charles Hughes raised a charter objection to an appropriation of \$850 for an emergency radio station at fire department headquarters and blocked action on the matter until the next meeting. The Auburndale alderman's action was justified and proper. Unquestionably the installation of radio equipment for the fire department would be essential in the event that the city were a target for incendiary bombs. No one believes for one moment, however, that such will be the case inside of a few weeks. Preparedness is essential but adequate preparedness can be contemplated and planned without going into actual detailed precision. We are far more

Resignation of Ald. McKay Accepted—Services Praised

The appointment of Alderman Carl F. Schipper of Newtonville as chairman of the finance committee of the Newton Board of Aldermen was announced Monday night after the board had accepted the resignation of Alderman Donald D. McKay of Ward 5. The announcement was made in a communication from President Charles B. Floyd who was not present. Vice-President Clifford H. Walker, who was in the chair, was named as the Ward 5 member on the finance committee in place of McKay.

An order was passed calling for the election of a successor to McKay as Alderman-at-Large from Ward 5 at the next meeting, June 2nd. The incumbent to be elected will serve until the end of the year.

Alderman Schipper took the floor when the question of the acceptance of the McKay resignation came up and paid tribute to the services of the Ward 5 member. He offered resolutions which were unanimously adopted. Alderman George E. Rawson, who was a college mate at Amherst with McKay more than thirty years ago, also made brief remarks in praise of the services rendered by McKay to the city and its citizens.

Alderman Schipper took the floor when the question of the acceptance of the McKay resignation came up and paid tribute to the services of the Ward 5 member. He offered resolutions which were unanimously adopted. Alderman George E. Rawson, who was a college mate at Amherst with McKay more than thirty years ago, also made brief remarks in praise of the services rendered by McKay to the city and its citizens.

Plans for Smith Memorial Park Are Stalemated

Fail To Negotiate For Reasonable Price of Land

"Stalemated" because of failure to negotiate for a "proper" price of the land near Crystal Lake which it was proposed to use for the establishment of a memorial park to Charles Francis Smith, author of "America" the project has been halted. According to Alderman Donald D. McKay, sponsor of the plan, in an announcement of the existing situation the ice company, owners of the land in question have conveyed the idea of a price "double that generally considered a fair market value." He expressed the hope that the plan, which has aroused considerable interest, may be revived later. His statement follows:

"About a month ago Mayor Goddard, acting for the proponents of the Samuel Francis Smith Memorial Park plan, conferred with the attorney of the Metropolitan Ice Company for the purpose of securing an option and a satisfactory purchase agreement for the Crystal Lake property. No official reply has been received although indirectly it has been conveyed that the company's idea of

Veterans Council Seeks Flower Donations

Dear Friends:
Once again we appeal to you for donations of flowers for the purpose of decorating the graves of departed comrades on Memorial Day, and request that the flowers be left at the nearest school or fire station on Thursday forenoon, May 29th.

We also wish to remind you that no person or group is authorized to solicit funds for this purpose, as all flowers used in the decoration of graves are the voluntary donations and co-operation of our friends in Newton.

VETERANS COUNCIL OF
NEWTON,
Harold D. Ames, Chairman.

Want "Ice-House" Land Put Into Single Zone

The Board of Aldermen has set June 25th as the date of a public hearing on a new petition to rezone the much discussed "ice-house" property off Centre st. at Norwood ave. near Crystal Lake, Newton Centre. The new petition filed before the Board is signed by many residents of the neighborhood and seeks to put the property into the single residence zone. One area, the site of the burned ice-house is now in the manufacturing zone and three lots on Norwood ave. are now in the business zone. The action by the citizens is believed to be due to fear that some "undesirable" would need its own communication system.

Alderman Joseph B. Jamieson pointed out that the communication systems now available in the city were housed in one building. He further explained that the \$850 was not the total cost of the equipment and installation but that some of the necessary equipment would be the donation of a Newton citizen.

The flower girls, Joan Ryder and Audrey White wore empire frocks of ivory mousse-line and carried baskets of white flowers.

Edward Fletcher was the best man. The ushers were Robert Hall of Cambridge, Richard Carter Metcalf of Concord, Francis C. Ryder of Cambridge, G. Edward Nealand of Needham, Frederick W. Nichols, Jr. of Newton and George D. Crosier of Douglas.

On their return from a wedding trip in the South Mr. and Mrs. Fletcher will reside in Newton.

The bride was graduated from Smith College in 1938. The groom was graduated from Dartmouth in 1930. He is a member of Chi Phi fraternity.

BENSON—FARNUM

Miss Eleanor Ruth Farnum, daughter of Mr. and Mrs. David W. Farnum of 82 Taft ave., West Newton, was married to Carl Kendrick Benson, son of Mr. and Mrs. Carl A. Benson of Braintree on Saturday evening, May 17, at 8 o'clock, in the home of her parents. The candlelight ceremony was performed by Rev. Edson Gould Waterhouse of the Immanuel Methodist Church, Walham, the bridal couple standing under an arch of yellow roses. Miss Corrine Benson, sister of the bride-groom, played the wedding music and Albert Young was the soloist.

The bride wore a princess style gown of embroidered mousse-line de soie and a shoulder-length veil. Her bouquet was of white roses, sweet peas and lilies of the valley. She was attended by Miss Doris M. Marshall of Newton, who wore a gown of pink taffeta and carried blue delphinium and pink sweet peas. The bride's mother wore printed chiffon with a corsage of yellow roses and the groom's mother wore navy lace with spring flowers.

Warren Benson, brother of the bride, was the best man. The ushers were David W. Farnum, Jr., of Beverly, Francis R. Cox of Randolph and Leonard Solberg of Weymouth.

On their return from a wedding trip to Washington, D. C., Mr. and Mrs. Farnum will reside in Weymouth Heights.

The bride was graduated from the Newton High School and the Chandler Secretarial School. The groom attended Braintree High School and the Fore River Naval Academy.

VALENTINE—TRIPP

On May 17th at a four o'clock candlelight ceremony in the Immanuel Baptist Church of Newton, Miss Lorraine Alice Valentine, daughter of Mr. and Mrs. John Benjamin Valentine of Newton, became the bride of Mr. William Frederick Tripp, son of Mrs. Sadie Tripp and the late Mr. William Tripp of St. Johnsbury, Vermont. Easter lilies and ferns decorated the church for the ceremony, which was performed by the Rev. Otis Robinson Heath. Miss Grace Sheridan played the wedding march.

A reception followed the ceremony at the home of the bride's sister, Mrs. Stanton DeWitt Barclay of West Newton.

The bride was given in marriage by her father. She wore a white satin and lace gown, fashioned on Empire lines. Her veil was of rose-point lace and she carried a bouquet of white roses and lilies of the valley. Miss Wilma Valentine, the maid of honor, wore a blue mousse-line de soie gown with a coronet of flowers on her hair to match her bouquet of yellow marguerites and snapdragons. The two bridesmaids, Mrs. Lyle Bartlett and Mrs. Leigh Stanton, wore similar gowns of yellow mousse-line de soie and carried similar bouquets. The flower girl, Miss Beverly Cummings the bride's niece, wore pink organdie and carried a basket of pink and white flowers.

Mrs. Valentine wore a gown of rose chiffon and lace with a corsage of mixed flowers, and Mrs. Tripp wore a Dubonnet lace gown with similar corsage.

Mr. John Rutledge served as best man and the ushers were Mr. Arnold Black, Mr. Robert Harris, Jr., Mr. Leigh Stanton and Mr. Lyle Bartlett.

After a wedding trip to New York, Philadelphia and Washington, the young couple will take up residence in Newton.

GREEN—GERMAINE

Announcement has been made by Mr. and Mrs. Philip H. Germaine of 112 Nonantum st., Newton, of the marriage of their daughter, Miss Phyllis Germaine, to George R. Green, son of the late Mr. and Mrs. George Green, which took place on May 10. Mrs. Green is a graduate of the Boston University College of Practical Arts and Letters. Mr. Green is a graduate of Massachusetts Institute of Technology.

PREBLE—ROWLEY

Mr. and Mrs. Stanley J. Rowley of Newton announced the marriage of their daughter Miss Irma Maude Preble to Edward H. Preble, Jr., son of Mr. and Mrs. Edward H. Preble of Everett. The ceremony took place on Wednesday evening, May 17th at eight o'clock in the Immanuel Baptist Church. Rev. Otis R. Heath officiated.

The bride wore a gown of rose organdie over taffeta, with mitts and picture hat to match. She carried a Colonial bouquet of roses. Betty Preble, sister of the groom, was her only attendant, wearing a blue organdie fashioned similarly to that of the bride.

Donald Rowley, brother of the bride, was best man and the ushers included Alden Moore of Newton, Russell Roach of Alston, and Edward Funjoy of Buenos Aires, Argentina, cousin of the bride.

After a wedding trip to New York Mr. and Mrs. Preble, Jr., will reside in Newton.

stressed more and more the need for clothing for infants and young children. Our layette, as you know, provides clothing for the baby up to nine months of age, and we have been working on plans for a special "Toddler Pack" or set of garments for the child from nine months to two years of age.

This set as now planned will contain the following garments: 1 sweater, 1 pair mittens, 1 beanie, 2 pairs rompers, 1 woolen snow suit, 2 part-woolen undershirts, 2 sleeping garments, 10 Terry cloth diapers. Newton Chapter has accepted a quota of 2,480.

JUST take a comprehending look at what Compound Carburetion means to this dashing Buick and you see how right it is. Lift up that bonnet and you see only one engine—a big, efficient valve-in-head straight-eight. Look again—and you note that Compound Carburetion gives it two carburetors—and what amounts to a dual personality.

One of those carburetors does all the work in casual, about-town, every-day driving, giving you a car that's easygoing on everything, from the way it handles to its consumption of gasoline.

But that other carburetor—hooked up to go to work any time you want top power and pull—that extra energizer steps up this nimble sweetheart into a regular giant of power, punch and ability!

impressed with the argument that emergency auxiliary radio services are essential in the event the existing police system fails than we are with the "defense" angle at present. And with the radio facilities of the state and other communities available in the case of necessity additional services could only be termed a "luxury" for the present. Newton can well afford to wait.

The Question of Peace

We print in another column a letter of protest from a Newton Centre resident against the holding of the "defence mass meeting" next week on the grounds that the very existence of such a committee indicates a belief that "war is inevitable"; that efforts to push the country into war should be resisted; and that the United States, through its president, should offer to mediate and promote a world conference. We agree with the ideals which provoked the inspiration of this letter from one of our readers—but, if there were any assurance of the possibility of such an effort being successful it would be an entirely different matter. Our correspondent fails to mention one essential fact. That fact is that it takes two to make peace, or war. If there is to be any immediate peace it will be at Herr Hitler's terms and dictation and not just because we want peace.

Furthermore we believe that, comparatively speaking, only a handful of those who are apparently urging United States intervention in the world conflict really desire that end. We cannot overlook the fact that it is vital to the welfare of the country and its millions of people that warfare be kept from our shores. We cannot help but liken the situation to a malignant disease—curable in its early stages—and curable with the aid of all available means. How much greater the task of averting invasion, whether military or economic, with England collapsed and helpless than to assist her in every way possible with material aid while she is still able to use the weapons which we can supply her.

As for the contention that the "defense mass meeting" favors intervention we do not believe the implication is justified. An attempted military invasion of the United States is possible, though extremely unlikely. We do not know what the situation will be in another six months. Meanwhile we must, without undue hysteria, face all possibilities calmly, and collectively and train ourselves, organize the facilities we now have, develop preliminary plans of action to provide the facilities that may be most necessary, quickly and efficiently when the time comes, in order that we may discourage and avert any "blitzkrieg" such as found so many countries woefully unprepared to meet the modern war practices of a ruthless attempt at world conquest.

Arrest "Bookies" In Police Raid

In a raid on an alleged "bookie" establishment in a tailor shop at 274 Centre st., Newton Corner on Monday afternoon three men were arrested. Chief Michael T. Hughes received an anonymous telephone call directing his attention to the place. The Newton Chief, accompanied by Lieut. Daniel Crowley and Inspector Joseph B. Lyons, led the raid which found a "bettor" writing out a bet on three horse parley.

In the Newton Court on Tuesday, James Dezotell, 33, of 214 Centre st., pleaded guilty to a charge of setting up and promoting a lottery and registering bets. He was fined \$50 on each complaint.

Ireal Tartarkian, 59, of 43 Boulevard ter., Brighton, proprietor of the tailor shop where Dezotell had desk room, was charged with having lottery tickets in his possession. Jacques Laus, 27, of 78 Hunnewell ave., Brighton, faced a charge of being present where bets were being registered. Both pleaded guilty and were fined \$10 each.

Police seized \$88 in cash, about 200 number pool, horse race betting and treasury balance slips, and other paraphernalia in Dezotell's possession. Lieutenant Crowley answered several telephone calls but his unfamiliar voice in response to the query for "Andy" caused the callers to hang up promptly.

Odd Bits of Odd News

Court Etiquette

A new Panama hat created a near sensation in the Newton District Court one day last week when its owner, one of the regular spectators, forgot to take it off when he entered the courtroom.

Take That Truck Away

The theft of last week of the motor and "innards" of a truck owned by John B. Samuda of Newton Centre was officially reported solved. Police rounded up three Oak Hill youths about 16 years old on a number plate clue who admitted taking the trucks "moving spirits." Their alibi—an occupant of an office near where the truck was parked (overnight) had said to them "I wish someone would take the truck away," and believing the machine was his they took his request seriously.

Informal Auto Owner

Charles G. Haines, 20, a student at Harvard of Washington, D. C., was arrested in Newton last week on charges of driving an unregistered and unlicensed car. He told police that he "bought" the car from another student, but obtained no bill of sale—borrowed plates from a New York student and became a motorist. His case was continued to May 28th to give police time to check on the "ownership" angle.

Steals Friend's Pocketbook

James J. Pelouquin, 31, of Boston, pleaded guilty to a charge of burglary in Newton Court on Monday and was held in \$1,000 for the Grand jury. Pelouquin admitted stealing a pocketbook which belonged to a girl acquaintance, Miss Marion Schlack of Dorchester, a nurse, from the home of Mrs. Margaret Ross of Bennington st., Newton, on the night of May 8th. Pelouquin had gone to the hospital where Miss Schlack was employed and was told by her roommate, who gave him a slip of paper with the address of the Ross home written on it. Going to the Ross home, finding no one in sight, but seeing a pocketbook on the table, Pelouquin walked off with it—unaware that it belonged to his friend.

detrimental" use may be made of the land.

Residents of Newton Highlands and Newton Centre are interested to learn that presently the rubble on the ice-house lot will be removed. In a conference some weeks ago Mayor Goddard reached an agreement with the owners that this material be used as fill on the Albemarle playground now under construction. Company employees will load city trucks which will transport the material. The removal would have begun a month ago but was delayed pending the park plan decision, as the material could be used in that project.

City officials are giving some thought to a proposal that a promenade be built, as a WPA project, along the railroad side of Crystal Lake. This could be continued to Norwood ave. inasmuch as the shore front is public property. About twenty thousand square feet of the so-called ice-house lot roughly one-third of the area is not owned by the company. Although the public has not generally known these facts, city officials and the Memorial Park advocates have been fully aware of the ownership lines. If such an improvement were carried out, the rubble on the lot would serve a useful purpose in embankment reinforcement. There may be further delay, therefore, before the lot is cleaned up, as the WPA project details have not been drafted nor as yet submitted for Federal approval.

price is double that generally considered a fair market value. A stalemate, therefore, exists, and for the time being at least no further efforts will be made. In fact the delays occasioned by various causes since the plan was first announced eight months ago have influenced the proponents to await a more favorable opportunity. It is now too near the end of the school year to circulate the thousands of schools throughout the country. There is available for the active committee, if sometime formed, a list of eighty thousand schools, societies, religious and fraternal organizations, patriotic groups, etc., and well-known Newton citizen has offered to bear a part of the cost of placing the plan before them. Another public-spirited citizen offered to contribute a substantial sum as a binder for an option, and applicable to the purchase. And the Newton Centre Improvement Association voted to give one thousand dollars. To all, except those devoid of imagination, it has been plainly evident that sentiment and patriotism and civic pride would ensure a generous response. It had been hoped to build up the foundation campaign work to May 18th, "I Am An American Day." That opportunity is lost; summer is nearly here, and everyone is now busily engaged in defense canvass, relief drives, and the many crisis activities which take time and strength.

Not Permanently Abandoned

"By no means need the plan be permanently abandoned, but it will not be revived in the immediate future. Great interest was shown by the delegates from all parts of the state, when the park model was exhibited last week by the Conservation

Removing the contents he threw the pocketbook on the lawn—telling police that he spent \$7.60 in cash at a cafe and that he gave his wife a string of rosary beads that was in the pocketbook. The beads were recovered but a fountain pen and other articles still are missing. The slip of paper with the address of the Ross home, which Pelouquin inadvertently dropped, was the clue which police, under Sergeant Richard L. Bannon, solved the case and arrested Pelouquin.

Enough Is Enough

For the third time in recent weeks Mrs. George Munger of 21 Park st. discovered an empty gasoline tank when she attempted to use her car. Thieves had apparently siphoned the automotive fuel from the tank.

Stokowski Leads Newton Band

The Newton High School band now has the distinction of being directed by the famous orchestra leader, Leopold Stokowski. He led the Newton school musicians at a reception in his honor on Monday at the Copley Plaza. The band played "The Star Spangled Banner." J. Collins Lingo of the high school faculty, was in charge of the band which was augmented for the occasion by some of the leading members of junior high school bands in Newton.

Blood and Small Feet

A trail of blood and size seven footprints would be clues to thrill the heart of any detective. This was the discovery made at the home of Edgar E. Dunlap, 1929 Commonwealth ave., Auburndale last Sunday. Leaving the house in the early morning to visit their son at Camp Edwards and returning about midnight they found the house thoroughly ransacked and a watch, valued at \$50 missing. Breaking a glass in a cellar window a trail of blood on the floor and a torn sheet indicated that the thief had severely cut his hand and used the strips torn from the sheet for a bandage. Footprint of a size seven shoe were discovered in the ground near the window.

Committee at the annual convention of the Massachusetts Federation of Women's Clubs. Some time ago the board of the Newton Federation enthusiastically endorsed the plan. The Newton Veterans Council likewise unanimously endorsed it. Many other civic and patriotic organizations expressed a desire to participate in its realization.

"If later the owners revise their ideas of the land value and the time seems opportune it is possible that the matter can be given further consideration."

—Welfare Board

(Continued from Page 1)

The new ordinance adopted reads as follows:

Section 1, Chapter VI, of the Revised Ordinances of 1939 of the City of Newton, is hereby amended by striking out Section 58 and inserting in place thereof the following new section:

Section 58. The charity department shall be under the charge of five overseers of the poor who shall have and exercise all the powers and duties of Boards of Public Welfare whether under general or special laws. One member of such board shall be designated by the Mayor, with the approval of the board of aldermen, to act as agent of said board, and shall devote his full time to the performance of his duties and shall receive such compensation as the Mayor and board of aldermen may from time to time determine. The other members of such board shall serve without compensation.

Section 2. This ordinance shall take effect upon the confirmation and qualification of all said overseers of the poor.

After the board had unanimously adopted the ordinance Alderman Carroll J. Hoffman moved that the president appoint a sub-committee of the aldermen to serve as a public welfare committee. He argued that the Board of Aldermen should keep in close touch with the welfare situation and not delegate its authority. Alderman Fahay seconded the motion and pointed out that some years ago there was a committee of the Aldermen on Welfare.

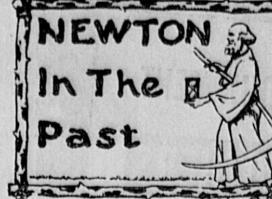

Aldermen Jamieson and Rawson warned against a possible encroachment of the legislative branch of the city on the executive department. After Alderman Schipper requested that more time be given to the question of the appointment of a sub-committee Aldermen Cronin moved that the matter be laid on the table.

West Newton

The Red Cross meetings are to be held in the Unitarian Church from 10 to 4 on Wednesdays during June, July and August.

Miss Ethel A. Coty, daughter of Mrs. E. P. Coty of Highland st., West Newton, rode in the Advanced Horsemanship Class at the annual Spring Riding Meet, held recently at House in the Pines, Norton, Mass., where Miss Coty is enrolled as a senior.

At the annual meeting of the First Unitarian Society in Newton held on May 12 the following were elected: moderator, William B. Barker; trustees, Louis Fabian Bachrach, Mrs. William Carroll Hill, Dr. A. S. Pope, William H. Zoller, John C. Moench; clerk, William Carroll Hill.

55 YEARS AGO

Newton Graphic, May 22, 1886
The last alarm of fire in the city was April 30th (22 days previous).

Coal is said to be lower than ever before, and some parties have contracted for their next winter's supply at the rate of \$5.25 per ton.

The Boston Record says that there is a man in Newton whose dog follows after the horseback exercises of his master and has had a habit of dashing at stray hens along the highway and killing them. The master has adopted a kind and rational punishment, and in every case makes the dog take the dead hen in his mouth and bear along his disgrace in the face of all observers. It is almost as touching as the punishment laid upon Coleridge's "Ancient Mariner" when it is a close copy.

It looks as though "Snake Hollow" were to be improved, at last, much to the satisfaction of the residents of that part of the city. The Aldermen have appropriated \$3000 for laying out and widening that portion of Waverley ave., and the improvements have been staked out. A force of men will begin work there as soon as the middle of next month.

The project of building a hotel on the old Silsby estate, Brighton Hill, near Hotel Hunnewell, is again revived in a way that looks like business. Plans have been drawn that provide for a handsome six story brick building with towers, piazzas, and all modern conveniences. The greatest need of this part of Newton is a first-class hotel and it only needs a little enterprise and push to have the hotel built and in good running order by another summer.

The Aldermen have ordered the half burnt structure in Newtonville sq. removed as in its present condition it is dangerous to pedestrians. This very sensible movement in connection with the widening of the square will give us a very tidy appearance.

One business man in West Newton has left his store unlocked twice this week but fortunately the police are watchful.

A pavilion containing four ladies was upset on the corner of Chestnut and Margin sts., Wednesday evening. The horses became frightened by a steamroller. In turning the corner the hind wheel of the carriage was broken off and the ladies thrown out. Several gentlemen ran to their assistance and Dr. Thayer was called but fortunately all escaped serious injury. They took the evening train for Boston, leaving the team at Maguire's stables, and refused to give any names.

Rev. Mr. Cutler was presented, before his departure, with a purse of \$300 by his parishioners, which he said, would comfort him in his absence and hasten his return.

There was a large attendance of citizens at the old Williams School, Auburndale, Thursday night, to discuss the project of a tunnel under the railroad tracks west of the depot, connecting Auburn and Hancock sts. The B. & A. railroad to give \$3000; the city to give \$3000 and the citizens of Auburndale must contribute the rest, about \$3000 as the tunnel will cost about \$9000. A committee was appointed to solicit subscriptions.

The large addition to Woodland Park Hotel promises to be insufficient to accommodate the number of would be guests. Although 55 sleeping rooms were added, the rooms are all engaged up to the first of July. The guests now number prominent people from Washington, Philadelphia, New York and the West beside the large representation of regular guests from Boston, Cambridge and other towns in the State. A number of prominent Boston families have arrived with their carriages and servants and the hotel is the centre of social life in Auburndale. Its most enthusiastic guests were strangers who visit it for the first time and are hardly prepared for the beauty of its location and the elegance with which it is fitted up.

An English boy of 18 would like a place on a farm or in and about a house; will do as he is told. Inquire of W. Thorpe.

The catamaran owned jointly by Will Easterbrook and Walter Fisher is a novelty on the river and commands much attention.

Upper Falls is to be a "flag station" on the Circuit railroad, that is, when we have a station at all, as the new time table so rates the "Eliot" station which will in reality be Upper Falls. But then we have some consolation in the thought that we will then have what no other village possesses, two stations on two different railroads, although the combined accommodations of the two are nothing to boast of, and far from as excellent as those of other villages having but one station.

From what was supposed, not only by the writer but by every one else from the most reliable source possible, the public was last week given to understand that the new Beacon Hill.

Letters To The Editor

PROTESTS DEFENSE MEETING

To the Editor:

I beg leave, as a very humble citizen of Newton, to protest against the proposed mass meeting on "national defense" on May 27. The influence of such a gathering will be, I think, in favor of our country's intervention in the European war as an active belligerent.

The creation of the Newton Committee on Public Safety seems to me a mistake. According to the best military and naval authorities our country is in no danger of invasion. Common sense declares that in view of the devastating effects of the present wars in the Old World an attack upon our country by any foreign power or group of powers is practically impossible and will be for years to come. Yet we are acting as if such attack were imminent! After all, the Germans and the Japs are men and not gods. Are we mice?

War is intrinsically nothing else than suicidal insanity. Its logical outcome is the destruction of the human race. Instinct guards the so-called lower animals from like folly. The carnivora do not prey upon their own species. Man's noble endowment of reason, when perverted by false theories fully believed, enables him to fall below the brutes and engage in collective homicide. And in the name of righteousness!

When nations anywhere on earth go to war the only wise and morally decent course for other nations and their citizens is to exert all their influence to stop the killing. It makes relatively little difference which side in war is victorious in a military sense. Both sides lose their most precious possession, human lives of potential usefulness. To prolong the idiotic slaughter by providing deadly instruments for belligerents, to extend the area of slaughter by yielding to a hysteria of fear and entering the conflict—what greater infamy and folly can be imagined?

The present Administration seems determined to push our country into the Old World madhouse, despite the solemn and repeated assurances of President Roosevelt, to the contrary—when he was the third-term candidate. He likes to play with postage stamps and battleships and the destiny of mankind. His election as third-term President may unfortunately have strengthened his conviction of his indispensability and infallibility, and having failed to solve domestic problems he has turned confidently to world problems. Peacetime conscription and gigantic preparations for war guarantee for our country in the not distant future economic and financial dislocation and disaster and social confusion beside which the depression which began in 1929 will seem like Paradise.

Albert of Baltimore

Ireland now can compete with Scotland's Loch Ness Monster. Every season of recent years a young whale disports himself in the Baltimore bay. He weighs about a ton and delights to escort motor boats in and out of the harbor. He has been christened "Albert of Baltimore."

Mrs. William V. M. Fawcett was re-elected commissioner of the Newton Local Council Girl Scouts, Inc., member agency of the Newton Community Chest, at their annual meeting on Tuesday, May 20, at the Auburndale Club House. Mrs. John W. Young takes the office of Deputy Commissioner and continues as chairman of the Camping Committee, while Mrs. Herbert Hardy serves again as Deputy and takes on the duties of Finance Chairman. Other council members elected to new offices are Mrs. Kenneth Crafts, Training Committee; Mrs. Horace Kidger, Personnel Committee; Mrs. Stanton Burgess, Program Committee; Mrs. G. A. Doten, Mrs. Alfred Meyer, Mrs. Kite Karpinske and Miss Adelaide Ball, Members at Large; and Mrs. Philip Wait, Mrs. H. F. LaFayette, and Mrs. Archibald Barron, Village Chairman of Newton Centre, Newton Highlands, and Newton Lower Falls, respectively. As Secretary Mrs. Henry T. Dunker was re-elected as were Mrs. Richard Johnson, treasurer, Mrs. George Larsen, assistant treasurer, Mrs. Carl Gove and Mrs. Roger Ellis, members at large, and Mrs. William McAdams, Mrs. John Campbell, Mrs. Ralph Keyes, Mrs. Raymond Cobainco, Mrs. Duane White and Mrs. Francesco Lombardi, all Village Chairmen, and Mrs. A. S. MacMillan, Committee for Physically Handicapped. The Honorary Commissioner, Mrs. Frank A. Day, and the Honorary Deputy Commissioner, Miss Caroline Freeman, were re-appointed, and two members retire after six years of active service, Mrs. Steven B. Wilson and Mrs. Harlan H. Ballard, Jr.

After the reading of the annual reports of the several committees Mrs. Nicholas Ide made the report of the Nominating Committee, and the elections took place.

A buffet luncheon was served and the guest speaker of the meeting took the platform, Mrs. Joseph Merritt of Hartford, member of the Board of the National Organization, Girl Scouts, Inc. Her timely subject was "Our Place in the Defence of Democracy." To complete the picture of Girl Scouting in Newton Miss Kathleen Twombly, local director, and Miss Corinne Diller, Field Captain, gave the staff reports for the year. Ten new troops have been formed, and individual registration has increased from 1490 to 1622 during the past twelve months. The greatest need for the coming season is increased leadership, for which training courses are offered from time to time.

GIRL SCOUT CALENDAR

May 23—Brownie Revel at Cabot Woods, 4:00 to 7:00 p. m. Parents are urged to come with their daughters, and to bring a box supper.

There will be a program of games and songs, and the hosts will be Snow White and the Seven Dwarfs.

May 25—Open House at Camp Mary Day in Natick, 3:00 to 6:00 p. m. Girl Scouts and their parents are invited to meet the staff and the committee, to inspect the camp, and talk over the program.

H. M. S. PINAFORE

On Friday evening, May 16, at 8 p. m. the Stearns School Centre presented the Gilbert and Sullivan opera "H. M. S. Pinafore," under the direction of Hazel Gove, dramatic coach, in the auditorium of the Stearns School.

Pauline Tescher, director of the Stearns School Centre, was in charge of the costumes, Dorothy Waite was the musical director, and Margaret Flood, the pianist. Dorothy Sawyer, former director of the Ste

Thus as the Eliot station will be in the centre of the Waban field, that name would have been more appropriate thereto, but the sadness of all, poor Echo Bridge and Hickory Cliff, like Upper Falls itself, got badly left by this much exalted railroad.

In the discussion of an order for the additional appropriation of \$10,000 for repairs to highways and bridges by the Aldermen a member stated that he did not think the taxes should exceed \$14 a year.

Many complaints are made of pet cats being killed by dogs, and the owners of the cats are thinking of holding an indignation meeting.

Mr. John Leavitt, who has clearly won the title of professional champion short distance swimmer of America, will enter the contest for the world's championship this season. He will try to break all records from 300 yards to one mile.

A gentleman from another city, who spent last Sunday evening in Newton, says he can never forget the exceeding beauty of that May evening here. The rich foliage, the velvety lawns, the quiet and peace that prevailed impressed him. Then came the music of the chimes of Grace Church and later on the jubilant songs of the choristers. All combined seemed to him to produce a unique effect, and he went away no longer wondering that Newtonians love their city.

The handsomest wistaria vine in the city is said to be the one on Mr. William Jones' house on Craft st. It has seven or eight hundred clusters of blossoms out at present, and is much admired by people passing the house.

Quite a little breeze of excitement was caused last night by the rumor that two freight trains had collided. The story proved true enough, but was, fortunately, a very simple accident with no serious results. Both trains were moving on the same track. One stopped suddenly and the other ran it down, but with so little force that it did no harm.

Harvard and Wellesley colleges are well represented on the Charles River at Riverside on pleasant afternoons when the colleges declare a holiday, and it is true that the girl collegians can pull as good an oar as many of their brother boatmen.

The "Looker on" in the Boston Record, speaking of Boston University sports, says, "The students are having some degree of success in a tennis tournament, but some of the younger blood of the university are taking all the honors. The easy champion in the singles has proved to be the freshman, E. R. Speare, who has met and vanquished the champion representatives of the

The Civic Club, composed of gentlemen who have been elected to a municipal office in Newton held its annual meeting last Friday evening in the Boston City Club. Pres. D. Fletcher Barber was toastmaster and the subject for discussion was that of military drill and physical training in the high school. Speakers were Albert M. Lyon of the School Committee, Supt. of Schools U. G. Wheeler, Capt. Charles A. Ranlett, assistant military instructor of the Boston schools, and ex-alderman Joseph S. Bartlett.

The Christian Science Church of Newton has acquired the valuable and attractive Hollins property corner of Walnut and Otis sts., Newtonville, the title passing last Friday. It is reported that as the result of two collections enough was realized to pay two-thirds of the purchase price of the lot in cash. With such a favorable start the outlook for an early beginning of the church structure itself is promising.

Employees of the M. & B. St. Ry. Co., voted unanimously to demand new wage scale and other specific demands. Officials given thirty days to consider. Wage demands are 30 cents an hour, first year; 34 cents the second and 38 thereafter. Present rates are 24 the first, 26 the second, 28 the third, 29 the fourth and 30 thereafter. Additional demands are one week vacation with pay, stools for motormen and conductors, free transportation with tickets instead of by use of badges, one day off in 15 for car barn employees, 20 cents per hour extra between midnight and 5 a. m. and on snow plows. The number of employees of the company is 3000, and its lines serve a dozen cities and towns.

The annual May breakfast under auspices of Social Service League for benefit of the Newton Graphic is a great success—nearly 3000 persons being served at various churches.

BROOKLINE DAY CAMPS SIXTH SEASON

Six years ago Mr. Thomas W. Leydon, 74 Puritan rd., Waban, Director of Athletics at Rivers Country Day School, Brookline, recognized the need for the summer day camp. There are many reasons why parents wish to have their children receive all the benefits of camp life without being away from home. Hence the day camp idea was evolved by Mr. Leydon.

Having been Assistant Director of Camp Red Cloud at Silver Lake, Pa., for several years, he sought to provide a program quite different from that of the local summer sports clubs, recreation camps, and so-called present time day camps where children are merely cared for during the day. His program included all the varied activities found in the best boarding camps and provided for the

proper equipment to follow out this program under the instruction and guidance of expert, trained counselors with experience in boarding camps.

The Brookline Day Camp for boys will open for its sixth season at Rivers Country Day School on June 29. Here, with ten acres of athletic fields and playing space, three tennis courts, separate playground equipment for young children, two gymnasiums, well-equipped shop, bird room, dining room, locker rooms and showers, rest hour cots, and numerous other facilities, sixty boys spend their daylight hours in wholesome activities involving skill, fun and adventure. They swim daily at a nearby, inspected lake with splendid equipment, of which the campers have exclusive use.

The Girls' Camp will open its third season at the Chestnut Hill School, Chestnut Hill. Besides the adequate equipment there, many of the Boys' Camp facilities are available to the girls. The program for girls follows the same careful planning and offers the same broad variety as does the Boys' Camp. This camp has an excellent staff of experienced young women and is limited to forty girls.

Two More Draftees Are Inducted

Local Selective Service Boards 112 and 113 were each called to furnish one man for the draft last week. Board 113 selected Charles Leonard Ingham of 51 Linden st., Newton Upper Falls. Ingham, a volunteer, waived the required ten days' notice and reported yesterday morning at City Hall. He was sent to the Columbus ave. induction station.

Board 112 also selected a volunteer, Charles F. Cunniff, of 12 Lenglen rd., Newton. He will report on Monday, May 26th, and also be sent to the Columbus ave station.

Newton Sports**Golf Team Adds To Victory String**

The Newton high golf team continues to lead the Greater Boston league by a comfortable margin, winning three more matches. Victories have been at the expense of Arlington, Lexington and Watertown with the first two matches played at home. Two more matches remain to be played, one this afternoon with Waltham and the final match on Monday at Brookline.

Last week Thursday Coach Tom Walters' team trounced Arlington, 6-1 to 2-1, with the Curley-DiGeorge and Boynton-Reidy teams blanking their opponents while Teschner-Cavanaugh were defeated, 1-2 to 2-1.

On Monday the locals overwhelmed Lexington, 8½ to ½, with George Curley and Al Cavanaugh sharing best ball honors with cards of 80. Curley-DiGeorge and MacDonald-Boynton blanked their opponents while Cavanaugh and Teschner halved their first nine enabling Lexington to prevent a shutout.

Against Watertown at Oakley Country Club on Tuesday Newton hung up another 6½ to 2½ win. Curley-DiGeorge and MacDonald-Boyton each scored three points.

SPORT NOTES**Scholastic Golf Title**

The eighth annual scholastic golf team championship will be played at the Commonwealth Country Club on June 9 and 10. Newton High, beating Beverly High, 7½ to 1½ in the final last year at Sandy Burr, holds the title. Now leading the Greater Boston league by a comfortable margin Newton must meet the winner of the Bay State league with the winner to determine the central Massachusetts representative. Other qualifying teams will be from the northern Mass., southern Mass., and western Mass. districts, winners of playoffs in their respective sessions.

Caddies Strike

Caddies at the Brae Burn Country Club went out on strike last week. On the second day Police Captain Nicholas Vediuccio and Patrolman Charles J. Cody visited the scene after 200 boys had gathered at the club entrance. After the peaceful picketing laws were explained the boys followed the officers' advice, disbanding and leaving a small number on duty as pickets while representatives conferred with the management to bring about a settlement. Leaders of the strikers stated that they were asking \$1.25 for carrying a single bag and \$2.00 for carrying double as compared with the present 18-hole rate of \$1.00 and \$1.50.

Second in Hurdles

Donald MacKinnon, former Newton High state hurdling champion, now sophomore at Harvard, finished second in the 120-yard high hurdle event at the annual Hephathalon college games last Saturday. Winner of the event was MacKinnon's captain, Donald Donahue.

Y Wins Quad Meet

The Newton Y track team won the first of a series of quadrangular meets on the Newton Y track last Saturday scoring 30 points to 18 for Lawrence, 5 for Brockton and 1 for Lynn. Lawrence won the boys' meet with 22 points over Boston and Lynn tied with 16. In the senior meet Walsh, first, and Reuter and Cheney, third and fourth put the locals out in front in the 100-yard dash. Linthwaite and McGee took second and third in the 440-yard run for five more points. Cornell won the half with McGee doubling to finish third for six more tallies. Walsh turned in a double victory by also taking the broad jump with Cheney second. Stewart of Newton picked up a third place in the shotput.

Dalton Wins More Shooting Honors

David T. Dalton, Newton police firearms instructor and holder of numerous prizes and shooting honors, added to his laurels last week, not only winning the match held by the Mass. Pistol League at the Woburn range, but breaking the record for the course fire. Dalton's score was the highest ever recorded by the league over the national course in three stages of fire—slow, timed and rapid. The Newton officer used the .38 calibre service revolver while his opponents used 22 calibre revolvers and automatic pistols which gave them an advantage in the timed and rapid fire stages. Dalton scored 290 out of a possible 300 as follows: slow, 95; timed, 97; rapid, 98. He was awarded a suitably inscribed watch emblematic of the first honors.

Tennis Team Tops Winchester 5-4

Turning back the second of the two tennis teams calculated to give Newton high racket wielders their severest tests of the season, last Saturday, the local team has every chance of winding up another undefeated season next week with a record of 58 matches without a defeat and 61 consecutive victories over high school teams only. Last Saturday's victims were the strong Winchester High players who were nosed out 5 to 4.

Jack Lynch, number one Newton player, took an easy first set 6-1 but was forced to a long battle, 11-9, to capture the second set and the match. L. McGovern of Winchester topped Powers after losing the first set, 6-6, 6-6, 6-6. Penniman of Winchester also chalked up a win, defeating Captain Stan Collinson, 8-6, 3-6, 6-4. Bill Wood evened things up for the orange and black with a 6-1, 6-4 win over J. McGovern. Ted Woods and Dick Lowry added two more points for Coach Wal Taylor's outfit with easy victories over their opponents after Lowry dropped the opening point.

Against Watertown at Oakley Country Club on Tuesday Newton hung up another 6½ to 2½ win. Curley-DiGeorge and MacDonald-Boyton each scored three points.

Honor Above Glory

The Newton High School golf team, winners of the state championship title in 1940 and well on the way to a successful defense of its honors this year, was deprived of its 1941 league title acquired Monday at the conclusion of an undefeated season, by a technicality which required the forfeiture of six of the team's twelve matches. The forfeiture involved the playing of an ineligible player—not because of over-age—not because of failure in scholastic achievements—not because of any desire to promote victory at the expense of honor—but simply because of the fact that the youth was rated as a senior for a brief period last year—thus making him ineligible for athletic competition this year under the recently adopted rule of the state association.

The loss of the honors is a great disappointment to the youth who is the unwitting victim of ironical fate, to the team which won even more decisive victories after the youth had voluntarily given up the sport and been replaced on the team by another player of ability, and to all who have any interest in sport for sport's sake.

Yet there is no glory without honor. Newton school authorities who had any part in the clearing up of the situation are to be commended for taking the initiative in admitting that a mistake had been made. How great a contrast there is in the present situation from those in the not too distant past in other places where bitter controversies, recriminations, and hard feelings have been engendered by the desire to "cover up" and protect the honors previously won under somewhat similar circumstances. That Newton authorities place honor above glory is another indication of why Newton is a good place in which to live.

New Police Called To Go On Duty

The new men appointed to the reserve police force have been ordered to report on June 1st for duty. They will serve until September 20, during the vacation period. Most of the men have never performed police duty, being recently appointed to take the place of those who were promoted to the regular force.

The men notified to report next Monday were John Umina, 120 Pine st.; James J. McManus, Pond st.; Alfonso C. Mascia, 285 Crafts st.; John A. Duane, 216 River st.; John G. Murray, 8 St. James st.; Edward J. Devlin, 10 Melbourne st.; Alexander F. Zilinski, 22 Whittlowe rd.; David H. Kerr, Jr., 349 Cherry st.; Harry J. Rogers, 10 Lowell ave., and George H. Twelve New Teachers Elected

School Committee Appoints New York Educator As Director

Will Succeed Dr. Hooper In Elementary Position

The appointment of Dr. John B. Whitelaw, head of the department of education in Brockport State Normal School, Brockport, N. Y., as general supervisor of elementary education in the Newton schools was confirmed on Monday night at the meeting of the School Committee. Dr. Whitelaw will succeed Dr. Laura Hooper, director of elementary education, who resigned to become director of the Page Memorial School and professor of education at Wellesley College.

The school committee also elected twelve other new teachers to fill vacancies in the faculty next September.

Dr. Whitelaw is a graduate of Yale '29 and received a Ph.D. degree in the field of school administration from the University in 1935. While at Yale he was captain of the 1928 intercollegiate championship soccer team and a member of the student council. He was an instructor and assistant professor of education at Smith College from 1933 to 1935 and an assistant professor and acting dean of the School of Education of George Washington University at Washington the following two years. His work has largely been in the field of secondary education. He was director of student teaching in the co-operating local high schools of Northampton and Washington. Since 1937 he has been head of the department of education at the state normal school in Brockport, in the training of elementary school teachers. He was associated with the American Council on Education in teacher education during the summer of 1938. In the field of supervision he was a visiting professor of education at the University of Chicago summer sessions of 1939 and 1940.

Dr. and Mrs. Whitelaw are from Connecticut. They have a five year old son. He will assume his duties in Newton at the opening of school in September.

Among the other teachers elected to the Newton staff is Vincent Jurkiewicz, who succeeded in getting out of Poland after the invasion of that country. He will graduate from the Lowell State Teachers College next month and will teach music in the F. A. Day Junior High School. He was born in New York, taken to Poland by his parents when five, returned to visit the World's Fair in 1939 and two days after returning to Poland the Nazi invasion began. He is a graduate of State Teachers College at Bialystock, Poland, and the Conservatory of Music at Warsaw. He was supervisor of music and art in Warsaw from 1934 to 1939. He is 28 years old and married.

Other Teachers Named
Other teachers elected, together with sketches of their careers announced by Superintendent of Schools Julius E. Warren are:

Florence Elizabeth Jackson, additional first grade teacher, Mason School District. Born February 2, 1906. Permanent address: Hardwick, Mass. School Golf Team Forfeits League Title

Discover Ineligible Player Used Unwittingly

An ironical technicality discovered this week led to the forfeiture of the Greater Boston league golf title by the championship Newton High team. The unwitting use of an ineligible player in six of the team's twelve matches made it necessary to put honor above glory. The situation having come to light, Newton authorities notified the schools against which the ineligible player had competed, announced its forfeiture of the matches, the supposedly annexed league crown won on Monday, and with it the right to represent the league in the state championship team matches early next month. In that tournament Newton would have been defending the state laurels won a year ago with considerable likelihood of repeating its conquest.

The technical ineligibility is most unusual, involving a senior who played on the team for the first time this year, and voluntarily dropped the sport midway of the season. The state's eligibility rules declare that "any boy at any time during the school year in a position to graduate that year, cannot compete in sports if he returns to school the following year." Under Newton's procedure those eligible for graduation are assigned to senior "home rooms" at the beginning of the term. After a short time the youth was shifted back to a junior classroom when it was discovered he could not graduate in 1940. Incidentally the shift was not made because of the scholastic ability of the youth, because he is a ranking student and about to matriculate at Harvard next fall—but simply a case where the boy did not have, under his program, sufficient credits to earn a diploma last June though he had earned enough to ent-

City Credit Union Proving Popular

During the first week of the existence of the newly formed Newton Municipal Credit Union more than 150 employees of the city became members. The directors are holding weekly meetings to expedite action upon the application of many others desiring to join.

President Philip Purcell announced that Mayor Paul M. Goddard had been issued Sharebook No. 1. Others in order were Chief of Police Michael T. Hughes, Fire Chief Clarence W. Randlett, Deputy Fire Chief Henry T. Seaver, Police Captain Nicholas Veduco, Street Commissioner John D. Haughey, City Engineer Ernest H. Harvey, City Clerk Frank M. Grant, Sealer of Weights and Measures Andrew Prior, Soldiers' Relief Commissioner Edmund T. Dungan and others until Purcell practically every city department is represented.

The Credit Union office on the second floor at city hall will be open every Monday night from 7:30 until 9.

2000 Hear Defense Plans At Big Meeting

English Woman Air Raid Warden Among Speakers

An overflow crowd which exceeded two thousand persons attended the public mass meeting on local defense at the Newton High School on Tuesday evening. The crowd that packed the auditorium and overflowed into the gymnasium appeared deeply interested in learning the plans being made by the Newton Committee on Public Safety.

Assured in advance that the meeting would adjourn in ample time to permit those in attendance to return to their homes to hear the important presidential radio address the audience listened with rapt attention to the announced speakers.

The meeting was opened with the presentation of colors, escorted to the stage by the Newton Legion championship drill team under Captain J. Joseph Ward followed by the playing of "The Star Spangled Banner" by the Newton Legion band directed by Vincent Marotto.

John M. Bierer, chairman of the Newton Committee on Public Safety presented Mayor Paul M. Goddard. Mayor Goddard welcomed new citizens to Newton by naturalization or by becoming of age and thanked all for their co-operation in promoting plans for civilian defense in case of need. He closed with the hope that "in our generation we can create a newer nation conceived in liberty and re-dedicated to the proposition that all men are created equal. We all want a part in the destiny of America."

Mr. Bierer outlined the formation of the local committee on Public Safety and noted the various assignments of the several divisions. He announced that the thirty Newton men and six Newton women who are taking the course at the Massachusetts Air Raid Precaution School would establish a similar Newton school sometime later. He also told of the defense and emergency preparations already taken by the local Red Cross organization.

J. Wells Farley, executive director of the Massachusetts Committee on Public Safety appointed by Governor Saltonstall, described the meeting as the largest and best yet held. Replying to criticisms that the activities of the committee tended to promote war he countered with the query "if we lock our doors at night do we stimulate burglars to break in?" He characterized the work being done as "insurance at low cost." (Continued on Page 4)

Newton Legion Has Drill Exhibition

The Newton Legion Guards, three time National Champions of the American Legion Drill Teams, gave an exhibition drill in Newton Centre sq. last Saturday night before 3500 people. Mayor Goddard welcomed the team and spoke of the National Honor they had brought back to the city from New York, Los Angeles, Chicago. The exhibition Drill was a climax to Newton Centre Week, put on by Newton Centre merchants. The Drill Team will go to Milwaukee, Wis., next fall to make a bid for their fourth championship. Capt. Jos. E. Ward was in charge of the drill last Saturday night.

Employment Rises In Newton In April

Increased employment and greater payroll earnings in Newton manufacturing establishments were revealed in April reports of the State Department of Labor and Industries. In April there were 2,722 wage earners as against 2,631 in March. The weekly payroll for the week ending near the 15th of the month rose from \$4,221 in March to \$5,975 in April and average weekly earnings increased from \$20.61 to \$21.30. A similar trend is noted throughout the state.

Summer Study Local Problems

To Assign To Colleges

Newton Teachers To Be Assigned To Colleges

Educational problems encountered in Newton will be the subject of detailed study in several summer school sessions during the next three months, according to announcement by Superintendent of Schools Julius E. Warren. Twenty-three Newton teachers will be selected to attend these schools, expenses of which will be subsidized to the extent of \$1200 by several foundations and Teacher Education Commissions.

The problems are of city-wide importance and are grouped under four headings: "the real needs of children," "time pressure upon children," "responsibilities of teacher for other things than subject matter achievement," and "what should be the curriculum for those pupils limited to elementary and high school education experiences."

Two of the group of teachers will study at Claremont College in Southern California, two at the University of Chicago, two at Vassar, one at the Teachers Education Commission Workshop in Philadelphia and the remainder at Harvard.

Superintendent Warren also informed the Newton School committee at the meeting of that body on Monday night that a substantial saving was indicated at present in the regular salary account of the school budget. Due to absorption, changes, sickness, death, substitutions, and changes in organization, \$8000 less has been expended than estimated. The Newton school official pointed out, however, that this figure was subject to constant daily change because of varying need of the employment of substitute teachers, length of illness of regular teachers, and other factors and that there could be no guarantee that this sum would be available as a saving at the end of the year.

The school committee took initial steps towards the establishment of

Second Annual Athletic Night At High School

Letter Winners and Fathers Invited To Attend

Second Annual Sports Night

At High School

Newton High School and their fathers will be held on Tuesday, June 10th, it was announced today.

The event is sponsored by the Boys' Physical Education Department under the direction of Director Frank M. Simmons and coaches of sports in the high school.

Invitations have been issued to nearly two hundred athletes and their fathers and to one woman, the woman, Mrs. Margaret H. Woods, a member of the School Committee and mother of Bill Woods of Newton's championship tennis team.

Other invited guests included Mayor Paul M. Goddard, Harold M. Knowlton, chairman of the school committee, other members of the school committee and city officials.

"No Speeches" is the rule, except for the headline attraction, a big-time sports figure whose name and connections are being kept strictly secret as a sort of surprise play by which to score with the boys.

The coaches have been masterminding the situation for two weeks and announce that they have perfected an unbeatable program, featuring a surprise attack and the awarding of letters in winter and spring sports. The boys will sit by squads and the captains will be introduced.

The event was inaugurated last year by Director Simmons and was an outstanding success from the point of view of both the young athletes and their fathers who became more closely acquainted with the coaches and assistant coaches of the varied athletic program of the high school.

There was no objection voiced to the petition for lot variance of Mrs. Doxey of Holloran rd. regarding two lots at the corner of Pierpont rd. and Crehore drive, Newton Lower Falls.

Robert Sallingen requested permission for variance in order to erect a garage in connection with property at 161 Highland ave., Newtonville.

There was no objection voiced. On the petition of William H. Anthony for position of a garage on Christina st., Ward 3, no opposition was expressed.

Wesley Angell requested the right to alter a single residence at 346 Cabot st., Newtonville, into a two-family house, to which no objection was made.

It is expected that the committee will report on these petitions at the next meeting of the Board.

SWP HOUSE PAINT

Why are more homes painted with SWP.

... than with any other brand of PAINT?

A simple question — and just as simply answered. SWP gives every homeowner each and every feature he wants in a fine house paint!

Beauty color richness of finish ... SWP gives them plus. Complete and lasting protection ... SWP has a tougher, "tighter" protective film of unequalled durability. Economy... SWP covers more surface with a thicker blanket of paint per gallon; is quick and easy for the painter to apply; and finally it's washable.

Extra grinding of pigments assures better coverage.

SWP has greater "hiding power" ... covers better.

SWP colors combine beauty, uniformity, permanence.

You can wash SWP easily and save a repainting.

SWP retains its smooth, beautiful surface.

See the 32 beautiful SWP colors at our store and get your free copy of our book "The Truth About House Paint."

PAINT HEADQUARTERS

Rotary Club

Mr. Arthur Rinden, who has spent many years as a missionary in China, addressed the Newton Rotary Club at Brae Burn on Monday, May 26. His talk was about the importance of Christian Missions in China.

He explained how the Chinese have various religions from which they have been accustomed to seek practical help. When sick, they turn to their gods for medical advice. When crops need water, their gods are taken into the fields to make rain. The results are often discouraging.

The Christian Missions have been teaching practical agriculture to increase crops. By better breeding, the production of eggs has been increased. Hospitals have been making better cures than the ancient idols and medicines. Now the Chinese are becoming Christians because they see its actual results.

Finally when the bombers came to China, the missionaries did not flee but stayed to help the poorer Chinese who remained. Then Christianity was recognized as not only a practical religion but a true one, as well as one which serves international peace and goodwill.

Posters, signs, decorations, pop corn, peanuts, cane ringing, Rysko Ryde with the Rector, ballyhoo and barker duties, clowns and "special" police, as well as many other colorful parts of the fair will be stolen from a lot on Faneuil st. Brighton. Daley told police he drove by his property in time to see two men drive away with a truck load of the blocks.

Young People Have Leading Role in Waban Church Fair

As plans unfold for the Mammoth Country Fair to be held June 7 in the afternoon on the Gallup estate at 219 Chestnut st. in West Newton by the Church of the Good Shepherd of Waban, it becomes apparent the features of the affair which will lend color, action and entertainment to the Saturday event will be in the hands of the young people of the parish and their friends.

Posters, signs, decorations, pop corn, peanuts, cane ringing, Rysko Ryde with the Rector, ballyhoo and barker duties, clowns and "special" police, as well as many other colorful parts of the fair will be stolen from a lot on Faneuil st. Brighton. Daley told police he drove by his property in time to see two men drive away with a truck load of the blocks.

For example the girls who are serving on the Peanut, Pop Corn and Pink Lemonade Brigade are the Misses Nancy Corcoran, Jean Durkee, Gretchen Ferris, Jane Gibson, Mary Jenkins, Ruth Hanson, Nancy Morrison, Martha Townsend, Phoebe Trainer, Carolyn Underhill.

The boys in this P. & L. Brigade

are Mr. William Gallup, Jr., Thomas Schroeder, William Schroeder, John Underhill, Jackson Barry, and Gordon Morrison, Jr. Miss Juliet Soule is chairman and is assisted by Mrs. Virginia Brown, Mrs. Helen B. Townsend, and Mrs. Lydia Turtle.

New committees include the Tea Committee consisting of Mrs. W. Deane Preston, chairman, Mrs. William B. Durkee, Mrs. Henry C. Short, Mrs. Richard Lincoln, Mrs. Charles Barzinger, Mrs. Daniel J. Corcoran, Mrs. Charles M. Wilson.

Mrs. F. Brittain Kennedy, Chairman of the Committee on Grabs is assisted by Mrs. John H. Underhill, Mrs. O. Herbert Sherbrooke, Mrs. Burton S. Price, Mrs. Neil W. Swinton.

As announced last week the Fair is conducted to raise a substantial sum for the painting of the church inside and out. It is being held in a lovely, spacious setting. Free transportation is provided for those making request. A score of committees, besides those announced are hard at work, assisting the general committee of which Mr. Arthur T. Soule is the chairman.

Odd Bits of Odd News

Radio Nuts Crack Car

An abandoned car was found in a field in Wellesley last Friday. The car had been stolen the preceding night from D. H. Barrows of Lowell ave., Newtonville. Radio nuts had "cracked" the car, taken the radio and loosened the wheel nuts in an attempt to steal the tires.

Honeymoon Ends in Arrest

The honeymoon of Bronnie Kersankas, 23, of South Boston, and his bride of a week ended in the former's arrest last Saturday morning on his return. Kersankas and John L. Walkshnoris, 20, also of South Boston, were taken into custody by Newton police a few hours after they returned to their South Boston home, bringing to five the number rounded up and alleged to be involved in the burglary at the Charles River Country Club last July. The arrest of a sixth man is expected. The five have been arraigned in Newton District court and held in \$1500 bail each for a hearing in court today. Solution of the case began with the arrest in New Jersey ten days ago of Frank Sherkus, 20, of Dorchester, a former club employee. Sherkus pleaded guilty and gave information resulting in the arrest of the others. The thieves forced a door to gain entrance, stole a \$225 radio, several cases of liquor, and a beach wagon which was later found abandoned.

Nine Cents Halts Wanderlust

When their funds were down to nine cents the wanderlust which impelled two 12-year-old West Newton girls to leave home last week disappeared and their thoughts turned to telephoning from the South Station to their home for aid. They were seen by an agent of the Traveler's Aid Society who was attracted by their youth and worried appearance. The girls admitted they were stranded and their parents were notified. The two girls left

Whether it is grand larceny or petty larceny—at any rate it was a "heavy" case which Alfred Daley of Hunnewell ave., Newton, reported to Brighton police last week. Six tons of cement blocks were stolen from a lot on Faneuil st. Brighton. Daley told police he drove by his property in time to see two men drive away with a truck load of the blocks.

Larceny on "Grand" Scale

Whether it is grand larceny or petty larceny—at any rate it was a "heavy" case which Alfred Daley of Hunnewell ave., Newton, reported to Brighton police last week. Six tons of cement blocks were stolen from a lot on Faneuil st. Brighton. Daley told police he drove by his property in time to see two men drive away with a truck load of the blocks.

home Wednesday night with about \$3, went to Framingham by bus, walked around town and took short naps on park benches, returned to West Newton in the morning and fearing to go home went on in town to the movies, and finally returned to the South Station.

"Boy Bandit" Had Revolver

An 11-year-old "boy bandit" with a revolver was in juvenile court last week accused of committing numerous burglaries and thefts and the cashing of a stolen check for \$18.07. The case was continued for two weeks and the boyader examined by psychiatrists. Officers McCormick and Edward J. Foley recovered a .32 calibre revolver the boy had stolen during four thefts at the McMullen garage on Needham st. He had also stolen pocketbooks from homes.

Gets "Brother's Goat"

Patrolman Charles H. Marden has a "brother" police officer, James S. Goddard. Martin actually got Goddard's goat last week. On Cross st., West Newton, a woman noticed a goat damaging a newly seeded lawn and notified police. Officer Marden captured the animal, made inquiries, and found it belonged to Officer Goddard who lived across the street. Officer Marden tied the goat in Goddard's garage. Officer Goddard is grateful that Officer Marden "got his goat."

Edison Company Offers

Afternoon Cooking School

Boston Edison Company will sponsor a cooking school at the Newton Center Woman's Club on Tuesday, June 3, from two to four o'clock in the afternoon. The class is open to the public and provides the opportunity for all interested persons to acquaint themselves with the advantages of the modern electric cooking method.

Members of the Edison domestic science staff under the direction of Emma Maurice Tighe will present a complete program with lecture demonstrations of the 1941 model electric ranges.

Recipes will be distributed and general information will be given on the latest developments in homemaking. The schools are currently scheduled for all communities served by the Boston Edison Company as a special service to residential customers.

ELKS MEMORIAL SERVICE

A memorial service for departed members was held at the meeting of the Newton Lodge B. P. O. E. at Elks' Hall, Newton last Thursday evening. A floral wreath was placed on the memorial tablet which bears the names of 184 deceased members. P.E.R. Edward Dalton gave the memorial address.

On June 14th the Newton Lodge drill team will present the flag exercises at the annual convention of Massachusetts Elks at Swampscott. Delegates to the convention will be Carl A. Eschelbach, John J. Keefe, William A. Sroat, William Higgins, and Patrick A. Donahue. The alternates will be Nicholas Veduccio, John J. Coen, Wallace MacPherson, John C. Cullen and Walter V. Messett.

The annual Flag Day of Newton Lodge will be held on June 12th with Edward Dalton as chairman of the committee in charge. Plans are being made for a well-known speaker and a program of patriotic exercises.

SMITH COLLEGE CLUB

The annual meeting and spring picnic of the Newton Smith College Club will be held on Tuesday, June 3 from 5:30 to 8 P. M. at the home of Mrs. Amos Wilder, 125 Institution ave., Newton Centre. Mrs. Quincy W. Wales, chairman of the program committee, is in charge of reservations and is making all arrangements for the event.

During the short business meeting, at which the president, Mrs. Harold Cranshaw will preside, Mrs. William Newton, chairman of the nominating committee, will present the slate of officers for the coming year, and the scholarship chairman, Mrs. Vaughan Dabney, will announce the scholarship award for the season. An hour of informal games will conclude the evening.

Lineman's paradise?

A telephone pole nine hundred and sixty feet high . . . more than five times the height of Niagara! Doesn't seem reasonable, does it . . . especially when you think of the man with the spikes! But that's how high a pole would be if it carried the 4,242 wires now packed into a cable only 2½ inches thick!

Which means what?

Simply that telephone engineering has gone a long way since you last tangled a kite-tail in that maze overhead!

Today's telephone poles don't have to be abnormally high . . . nor do we need as many in proportion to traffic . . . Nearly 97% of this company's wire mileage is now in cable, and nearly 61% of it in *underground* cable.

That is just a sample of many ways in which your telephone company has met changing conditions . . . given you better service despite a tremendously increased "load."

A Lecture on Christian Science

Entitled
Christian Science: Its Healing Power

by
Elizabeth McArthur Thomson, C.S.B.
of Saint Louis, Missouri

Member of the Board of Lectureship of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts

A large and keenly interested audience was present at the Christian Science lecture, given on Thursday evening last at First Church of Christ, Scientist, Newton. Both the main auditorium and the Sunday School room were filled.

Mr. Paul R. Carmack, First Reader, introduced the lecturer and spoke as follows:

As we all know, an important part of the Bible consists of God's numerous and rich promises to man. One such promise is found in the fifth chapter of Matthew. It reads: "Blessed are they which do hunger and thirst after righteousness; for they shall be filled." Our presence here this evening is an indication that we are "hungering and thirsting after righteousness," hungering and thirsting for a right understanding of God and man's relation to Him, which will enable us to solve the many perplexing problems with which we, and all mankind, are faced today.

Because by our presence here we are endeavoring to fulfill the conditions of the promise in Matthew, we can confidently expect to be blessed, and filled with healing inspiration as we listen to the lecture this evening.

Our speaker is a member of the Board of Lectureship of The Mother Church, the First Church of Christ, Scientist, in Boston, and her subject is: "Christian Science: Its Healing Power."

It is a pleasure to introduce to you Mrs. Elizabeth McArthur Thomson of St. Louis.

The lecturer spoke, in part, as follows:

The question, What is Truth, and where may it be found? comes to us today in many interesting forms. The constant inquiry into the cause and cure of war, accident, sin, sickness, and death indicates humanity's desire to discover the facts regarding human conditions, and to establish a successful method of healing. To some, the human effort to find Truth, the truth about man and the universe, may appear only as wishful thinking. But wiser men and women will view all honest search throughout the fields of science, theology, and medicine with due respect for both the work and the worker. Everyone is interested in healing. But how to heal and be healed is a question still being asked by many persons even after centuries of exploration, analysis, and experimentation along practical every material course.

Christian Science, the perfect Science of living, reveals that God in His inspired Word has provided the perfect answer to every human question, together with the only permanent method of cure. Awaiting the time when all mankind will recognize the truth of being and be healed, true Scientists will go on faithfully working, without fear or discouragement, without acceptance of the thought of failure or defeat. Christian Science shows that war, accident, sin, sickness, and death can disappear from the earth. Realizing that nothing but a spiritual knowledge and understanding of the spirit — dawning upon Mrs. Eddy's consciousness, and in the clear light of divine revelation, she saw what could be and must be done for mankind.

It was not long after her discovery that Mrs. Eddy realized what the work required in self-offering and self-sacrifice. Undaunted, she rose above almost heart-breaking human situations and conditions.

Through her own reflection of the divine consciousness, Mrs. Eddy was able to shut out the sense of hardship and suffering. Aided by God alone, Mrs. Eddy was able to write the Christian Science textbook, "Science and Health with Key to the Scriptures." It is the textbook which provides for all mankind a spiritual, practical pattern and method of Christian scientific teaching and healing. Thousands do know what our leader has done. Few, if any, realize what her discovery and work entailed. Ridicule, condemnation, isolation, desertion by family and friends — these were a few of the things our Leader endured. But out of the years of patient study, prayer, and self-sacrifice, there has come in our age this great healing agency. It is Mrs. Eddy's discovery of Christian Science, the perfect Science of Life, Truth, and Love.

Jesus taught that the power he reflected came from no human source, that it was never dependent upon any material agency or organization. Rather did he continually declare that all real power had its origin in divine Principle, the source of all true being. Shortly before the crucifixion the Master substantiated this fact through his words: "And the glory which thou gavest me I have given them; that they may be one, even as we are one." One in what? One in divine Spirit, in spiritual authority and power, one in acknowledgment of the real source of good. Jesus' words indicate that he recognized that not only he himself but everyone possesses the intelligence and ability to discern the one good, and, thereby, understand and demonstrate scientific healing with its provision of true substance or supply. Through a perfect consciousness of his relation to the Father, Jesus went on to prove the utter powerlessness of evil of every sort.

The Light that Does Not Fail

Speaking of her discovery, Mrs. Eddy writes ("Science and Health," Pref. p. viii): "The question, What is Truth, is answered by demonstration — by healing both disease and sin; and this demonstration shows that Christian healing confers the most health and makes the best men. On this basis Christian Science will have a fair fight." And a few pages farther on she states (p. x): "The author has not compromised conscience to suit the general drift of thought, but has bluntly and honestly given the text of Truth . . .

By thousands of well-authenticated cases of healing, she and her students have proved the worth of her teachings." After all, what better proof can one have than the healing of thousands? Curing the sick, as well as the needy and sinning — is not that sufficient proof of the right idea of God and His work for man?

Mrs. Eddy looked deep into spiritual reality, and discovered the glorious significance of the inspired Word, or the divine law. In it, she recognized the Principle of true being and living. Seeing that God is infinite goodness, recognizing and accepting the light that never fails, Mrs. Eddy was able to provide for mankind the thing that it needs. Her discovery and teachings reveal how spiritual-mindedness, so native to all good men, women and children, could and should be used at all times. Spiritual consciousness saved Mrs. Eddy's life after physicians had pronounced a death sentence from the effects of a fall. Christian Science, as revealed by Mrs. Eddy, will continue to bring to those who fully accept it the greatest blessings. All religious-minded persons prove the truth of being in some measure. Christian Science helps mankind to demonstrate freedom along every line.

Present-day conditions present a great need for intelligent, spiritual direction in everyday affairs. That mankind requires more than merely human planning and help is quite evident to all who see as they should. We are to submit to the general thought regarding world war, sickness, and limitation, we might easily be made to believe that there is no way out. The various claims of the carnal mind, with its evil suggestions and acceptance of a power other than good, would tend to discourage even the best of thinkers. But all true Christians will refuse to rely upon the verdict of error. Christian warriors will continue to prove that goodness and spirituality are always more powerful than any so-called carnal thinking, planning, or weapon. Firm in his faith that God is always at hand to protect and to govern, the Christian Scientist accepts his spiritual responsibility as well as his so-called human duties. He remains steadfast at his post, and works regularly for the redemption and permanent healing of all mankind. He is willing to lay down a false human sense of life to take on a living, purer consciousness of himself, his friend, and his brother. Every Christian Scientist worthy of the name is constantly helping to correct the illusions and delusions of material sense, helping to destroy the false concept of God and man. Through his own powerful right thinking and action, such a one will continue to render effective spiritual service.

In all work for ourselves and others we can anticipate a substantial lessening of the so-called forces of evil until there is absolutely no sin, disease, or death to overcome. Christian work requires a large measure of universal love and understanding, as well as great patience in the persistent effort to manifest more of the spirit of Truth. God's warriors, His beloved sons and daughters, are armed with divine Love. Love's weapons are the ideas of Truth, and they are more powerful than any claim of evil.

Christian Science teaches that man reflects all that God is and all that He has. Knowing that there are indispensable human footprints yet to be taken, the Scientist awaits himself, at the present time, of every conceivable thought of goodness, small though it may appear to be. From the standpoint of present acceptance of the one God, the one Spirit, he proceeds and progresses into a life that is richer in divine substance and love.

Science enables us to perceive that the only real universe is the universe of Spirit, and that mortals must finally accept the government of divine, impartial Love. The Christian Scientist is willing to work and to wait until all are ready to accept the divine law and order, while he looks to the Christ to chart the course of his own life. The promise of Holy Writ for the world, with the fulfillment of divine prophecy, finds ready acceptance by all true Scientists. Claims of warning nations and of sick, sinning, or discordant humanity should be met with thoughts of Truth and Love. Let us pray with a consciousness of present-day spiritual blessing, and prove by our thought and deeds that we have found the way. The whole world awaits the completed demonstration of divine Science. Seeking the pure ideas of Truth and abiding in Spirit, we can prove that we have found the light which does not fail.

We cannot progress by attempting to tear down another's good work or sincere effort. We must be willing to let God destroy evil in His own good time and way. Humanly speaking, our footsteps should be those which indicate not only a full recognition of every good measure, but positive assurance of relief from all phases of materiality, of good will among men. Real spiritual understanding is productive of all the good that is apparent in divinity. Therefore, in exercise or demonstration of that quality, we can aid in bringing to human consciousness the best there is — the best in thought, in work, and in substance or supply. We can have fruitage of the right kind. And Christian Science provides it in a service to the one God whom Scientists understand to be the one Father and Mother of all.

"Fruition" is a term dear to every Scientist, because in it he discerns the definite provision of Love. As God, Spirit, sees and gives only good, so the real man, His perfect image and likeness, must partake of an abundance of good ideas which are productive of good in full measure.

Spiritual Sense Our Best Guide

It is true that evil or ungodly thinking has no place in God's plan for the redemption and healing of mankind. But divine Spirit with loving-kindness does provide a purifying way. Why? Because Principle, the source of all creation, never ceases to bless and to cherish. Such is the nature of Love and the result of its law. Even wayfaring men, fools, or those seemingly ignorant of God's direction can awaken to the truth about themselves and be healed. Science shows that mankind can rid itself of the gains and the soil of carnality, for God is available to all. For all human ills He provides the necessary spiritual knowledge and understanding. His way of salvation through His Science is safe and sure. Through His inspired Word and the teachings of Mrs. Eddy, Love gives the required discipline and correction. But with Truth comes also joy and healing. Man never need fear the workings of God.

We may think of ourselves as wayfaring ones and sometimes even fools, because of the things we may have said or done. But God knows us only as His blessed and obedient children, and as such we are never outside of His care and His love. In Holy Writ, as interpreted by Christian Science, we discover man's true selfhood and place. It is a selfhood capable of representing true affection and wisdom in healing, coinciding with good judgment in the order of human affairs. To everyone in bondage to sin, sickness, or limitation there can come a vision of Christ and its healing power. In the words of one great humanitarian, "Man must be free to find God in his own way; and when he finds God, he finds truth; and that truth makes him free."

Yes, freedom to find God is our greatest blessing. But it must be by way of God's appointment, else failure enters at the start, and the end is not good. Spiritual sense is our best guide for the journey, for it takes us away from worldly sense into heaven-filled Soul. We desire much good, do we not? Then we must be prepared and ready for service. In that service, spiritual sense will always be our best guide and protection. Relying on Truth, we cannot fail to heal and be healed.

Consciousness of Power

Science and Health Mrs. Eddy writes (p. 298), "Spiritual sense, contradicting the material sense, involves intuition, hope, faith, understanding, fruition, reality." Let us consider briefly each of these necessary qualities.

Viewed humanly, the use of "intuition" might be construed by some as an impractical measure, one without good sense or usefulness.

Mortals generally are quite skeptical to the value of intuition, relegating it rather to the supernatural or impractical method of solving human problems and affairs. But in Science intuition is recognized as a quickening spirit, as the active exercise of divine consciousness, an exercise so much needed by all. Inherent in all the sons and daughters of God, and only awaiting acknowledgment and acceptance by mortals, the quality of divine intuition proves to be one of the most useful in overcoming the claims of the flesh. True intuition is an angelic message coming directly from God, from divine Mind. To hear His voice, heed and use the quickening spirit, is to become conscious of good and what it provides. As we cultivate and exercise spiritual intuition, we shall have less and less cause for grumbling. Our complaints will disappear in a true vision of Love.

The term "hope" seems to need but little explanation, for mankind knows quite well its value and help. Hope, in Science, is inspired by the truth of being. It is joyful anticipation of continued health and success. Real hope waits upon God, with an all-pervading sense of the accomplishment of Truth. Scientists view hope as never senseless or useless, but as alive with joy and always productive of good. Hope must precede a staunch faith in scientific healing, precede a faith which can prove that God is impartial Love.

"Faith" in reality, is absolute reliance upon the one Mind, the all-good. True faith has its birth in the rule of Principle. And the divine order shows that the human sense of faith must prove itself worthy of love. Scientific faith embodies not only trustfulness, but trustworthiness. As such, our confidence in God will have its proof of infinite good. Absolute faith, Science shows, is complete spiritual understanding, the quality named next in the pattern of Love.

In Science, "understanding" is perfect spiritual consciousness, a true knowledge of God, which excludes all but the good. Understanding is the intelligent concept of Love, of Love that has no thought of sin, materiality, or carnality, but is conscious of God-given health and harmony, of good will among men. Real spiritual understanding is productive of all the good that is apparent in divinity. Therefore, in exercise or demonstration of that quality, we can aid in bringing to human consciousness the best there is — the best in thought, in work, and in substance or supply. We can have fruitage of the right kind. And Christian Science provides it in a service to the one God whom Scientists understand to be the one Father and Mother of all.

God, being what He is, His creation, the real man and the real universe, must be the perfect reflection of divine goodness and love with a plentiful harvest of right ideas or things. True being is explained in Christian Science, and there we see reality for what it is.

The term "reality" may seem difficult to explain, but in Science the word is used to express the absolute truth. Probably it is the thought which the human being most represents, because reality, like its Principle or source, rejects every erroneous sense of a person, a place, or a thing. Reality is grounded upon absolute Being. Not an atom of matter, or false thought of human being, not a single sense of that which is untrue, unreal, or limiting can exist in the realm of absolute Truth. Reality includes only health, harmony, and immortality. Where but in a perfect Science could one find such revelation and teaching? Christian Science presents the opportunity to demonstrate that man is free, unlimited, and joyous. The real man is without envy or hate. In humble gratitude we can well thank God for the work of Christ Jesus and that of our Leader. Through membership and service in the Church of Christ, Scientist, we can give sustaining evidence of our allegiance to Truth and of our willingness to promote good through our beloved Cause. Membership in church and activity in our movement have brought endless blessings to God's faithful ones.

Assurance of God's Ever-presence

Without a true sense of the Science of being, one is left well-nigh stranded before the claims of mortal birth, human life, and untimely death, with their many false beliefs. To escape these illusory and delusive suggestions, one is compelled to look beyond the so-called sciences of the world. The ways of mortal belief have done little to prevent illness, want, and the destructions of war. Today we are faced with the necessity to manifest a higher degree of intelligence, a larger sense of universal love, a more compassionate tolerance, and a courage that does not fail. The brotherhood of man must supersede the idolatrous worship of persons or nations.

Scientists are learning to speak the word of Truth with more and more conviction. They recognize evil for what it is; not as a reality, but as a definite false claim operating through mortal consciousness in clever, deceptive ways. But as one writer ammends, "All evil bears within itself the seeds of its own destruction." With this fact in mind we can advance fearlessly against all forms of error.

Materiology, carnality, with its warring weapons, today is claiming that the Christian way of living is fast disappearing from the face of the globe. That is a lie. But to prove it so, one must do more than just wishful thinking. One must think and act as possessing all power over evil, and continue to demonstrate in a divine service that the fatherhood of God and the brotherhood of man are practical ideas which have their proof in a pure Science. There is wise counsel in Mary Baker Eddy's words ("Science and Health," p. 29): "Christians must take up arms against error at home and abroad. They must grapple with sin in themselves and in others, and continue this warfare until they have finished their course. If they keep the faith, they will have the crown of rejoicing." The Christian sword is the pure and perfect idea of Truth, and through its use, evil beliefs are uncovered, removed, and destroyed.

There is unquestionable evidence that our Leader recognized the work that had to be done if the whole world was to be freed of fear, greed, hate, and destruction. Mrs. Eddy's demonstration in her own life, combined with the proof of her work in the lives of her loyal followers, witnesses to the fact, and presents conclusive evidence, that the exercise of God-given intelligence and spirituality is the most powerful weapon mankind can use in establishing freedom and peace. To know the fact about error is very different from accepting it and indulging in evil. Scientists do not overlook war, sickness, sin, or death. But they refuse to believe that these false claims are inevitable, a necessary part of human experience. Scientists know that the power of God is ever present and that it can be manifested right here on earth. The Christ is at hand, and the holy warfare is glorious. There is no need to fear, for divine Love is always near. To human sense, the so-called ships of state may seem to strike troubled waters. "Be not afraid, only believe," said the greatest healer, minister, and statesman of all times. Not to be afraid, but to love, understand, and use the Science of the Christ! Would not the result be the same as it was with Jesus — a complete dominion over evil, with a victory that is beneficial to all mankind?

The followers of Mary Baker Eddy fully subscribe to the teachings of the Master, and to the religious Tenets of the Christian Science organization. In accordance with the last of these Tenets ("Science and Health," p. 497), "we solemnly promise to watch, and pray for that Mind to be in us which was also in Christ Jesus; to do unto others as we would have them do unto us; and to be merciful, just, and pure."

The king of a great country recently chose as a benediction for his people, at an hour of apprehension and travail, the words of a poet: "I said to a man who stood at the gate of the years: 'Give me a light that I may tread safely into the unknown,' and he replied: 'Go out into the darkness and put your hand into the hand of God. That shall be to you better than a light and safer than a known way.'" To these beautiful words, may I add one of Mrs. Eddy's references to Jesus' work and our part in it ("Retrospection and Introspection," p. 92): "May we loose the latches of his Christliness, inherit his legacy of love, and reach the fruition of his promise: 'If ye abide in me, and my words abide in you, ye shall ask what ye will, and it shall be done unto you.'"

Let me tell you of a healing accomplished entirely by Christian Science prayer, or treatment. The man of whom I speak became interested in Science through the instantaneous healing of his wife, of a congenital hip and pelvic condition. Shortly after this healing, the man was seized by a most insidious suggestion, namely, that he, himself, could no longer carry on his work because of inability to concentrate and think. He was an officer of a large company, holding a well-paid position. Heretofore he had commanded the respect and admiration of his superior officers, who looked to him for great progress in the business. Growing more and more fearful and disturbed at the condition of his thought, the man came to a state bordering on complete mental collapse, alarming to his superiors and other co-workers.

Before relying entirely upon Christian Science, he was encouraged to seek a medical diagnosis. The physician's verdict revealed low blood pressure, a run-down physical condition, with other complications. A short time after the medical examination, a case of appendicitis became apparent. Waivering between medical practice and Christian Science treatment, the man reached

a state of despair which culminated in a desire of self-destruction. With suicide in thought, one day he climbed to the top of a building in a great city, from which he had decided to leap. As he was about to do so, his thoughts turned for an instant to review what he had seen and known of Christian Science healing. Instead of jumping, there came to him an irresistible desire to see a practitioner. Yielding to the better thought, he telephoned for an appointment, and was urged to come at once for help. The patient and loving counsel and work of the practitioner finally resulted in complete healing.

In the parable of the lost coin, we may see a woman's plight as she swept her house in search of that which had seemingly disappeared. No doubt, the labor brought beneficial training. Yet, the use of intelligence and the exercise of a right sense of memory would have prevented the so-called trial. To lose the coin, and then have to spend time in searching, surely isn't the best way to think and act. But even so, while under the belief of deprivation or frustration, one can still prove that divine Mind is at hand. Is it not human ignorance of Truth which causes all our losses, and is not the remedy a conscious reflection of the divine Mind? Our worldly affairs, like those of the above-mentioned woman, demand more intelligent thought and action. We do not need to lose what we have and then spend hours in recovery. Truth teaches that it is possible, yes, necessary, to protect our supply of good. As we recognize the value of a divine reliance and an intelligent approach to the human problem, less and less time will be spent in useless seeking. Yet we, too, like the woman, can rejoice that the lost can be restored. We should rejoice in the fact that ignorance will finally yield to a pure consciousness of health and harmony that has been permanent. In the man's own words: "The healing brought a greater manifestation of power and ability than I had ever known before. This truer sense of good brought in its wake a large bonus from the company, with added monthly compensation, which has ended a thought of limitation covering many years."

Fear, discouragement, pain, and inharmony have been overcome. As the man remarked, "I now know what Nehemiah meant when he said, 'The people had a mind to work.' True selfhood, and with it, proper self-control, have come to this man through God's perfect Science. This man is now experiencing freedom in health and abundant supply.

Through Mrs. Eddy's revelation he has learned that all is well in God's kingdom, and that is the place in which he must stay.

God First
Centuries ago, the great Roman scholar, Pliny, spoke of the early Christians as "binding themselves by a sacramentum to commit no kind of crime" (Hastings' Bible Dictionary). In those days the word "sacramentum," as applied to a Roman soldier's oath, had an unusual meaning. Translated into English it reads: "We were called to the warfare of the living God in our very response to the sacramental words" (*ibid.*). What a calling! In her writings, Mrs. Eddy quotes the early scholar, Pliny, in his "description of the character of true greatness," as follows

MASS. JUNIOR D. A. R.

Mass. Junior D. A. R. groups celebrated their annual get-together at the Damon Hall School for Girls with a box-lunch picnic, movies and stunts on May 24.

On behalf of the state groups, Miss Marion Stratton of Lydia Partridge Whiting Chapter and Miss Priscilla Clough of Old Blake House Chapter, presented Mrs. Willard Richards, retiring Junior state chairman with an inscribed silver tray.

Officers elected to the Round Table for the coming term are as follows: Recording secretary, Marion Stratton, West Newton; treasurer, Sylvia Brown, Natick; corresponding secretary, Rosemary Brooks, Cambridge; Helena Pouch Scholarship Fund, Kay Shaalman, Melrose; Historical Garden Seeds, Dorothy Dow, Natick; and press relations, Helen Rawlings, Boston.

FLOWER SHOW WINNERS

Mrs. Richard P. Saltonstall of Chestnut Hill, and Mr. and Mrs. Percy I. Merry of 443 Harrison st., Newton Highlands were among the winners at the recent annual flower show of the Mass. Horticultural Society.

Mrs. Saltonstall, mother of Governor Saltonstall, was awarded a sweepstakes prize for a vermillion Herbert Taft bloom with blue centre, judged the best tulip bloom in the show.

WOMEN'S CLUBS

West Newton Women's Educational Club

A colorful Garden Fete will be featured by the West Newton Women's Educational Club on Thursday, June 19th, on the vacant lot at No. 431 Waltham st., West Newton. Beginning at 10 o'clock in the morning the picturesquely display will include a Wishing Well, a Booth for Potted Plants and Seedlings in flats, a Lemonade Stand, a Candy Cart, a Pantry with Home Cooked Foods, Balloons for the children. Those who tire of the bustle of the Bazaar will find a quiet retreat across the street at No. 420 where card tables will be arranged. For those who wish, Luncheon will be served at No. 2 Davis ave., and for the hasty snack the traditional Hot Dog may be procured.

This is the best time of the year in the Garden City, and the Oldest Women's Club in Newton hopes that everyone will patronize this project before leaving town for the shore or country. Come, bring your friends into the delightful atmosphere of a charming, sunflower neighborhood.

Mass. State Federation

Estelle G. Marsh of Newtonville, newly elected chairman of Press and Publicity in the Massachusetts State Federation of Women's Clubs, has invited all women from the General Federation of Women's Clubs Convention held in Atlantic City this past week.

LEAGUE OF WOMEN VOTERS

At the recent Convention of the Massachusetts League of Women Voters in Worcester emphasis was placed upon a folder lately issued by the National League, entitled "The Battle of Production," a skeleton description of the defense program.

To ensure that this folder reaches every member of the Newton League it is to be distributed in the fourteen villages of the city by a committee under the direction of Mrs. Lloyd Allen of Newton Centre, this in preparation for a general discussion as to how each member of our local League can contribute to the success of the plan.

It is hoped that by this means not only will all League members be inspired to larger activities but that many new members may apply for admission. Applications may be addressed to Mrs. Walter Heath, the newly elected president or to Mrs. Victor Studley, corresponding secretary.

In this connection the words of President Neilson of Smith College, written a few years ago, are recalled, "In my opinion women are rapidly becoming better informed with regard to public affairs than men and . . . this is largely due to the activities of the League."

LASELL JUNIOR COLLEGE

Installation of the following Student Council officers for next year took place at the Monday assembly: President, Gertrude Rich of Providence, Rhode Island; Vice President, Betty Polhemus of Old Greenwich, Connecticut; Secretary, Anne Lynch of Auburndale, Massachusetts; Treasurer, Mary Hurley of Schenectady, New York.

The annual River Day was held on Wednesday afternoon with canoe races on the Charles River. A picnic for students and faculty on the athletic field followed the races.

A Variety Show given by the students and faculty was held at Winslow Hall on Wednesday evening as the third in a series of programs for the British Relief Fund.

Dr. Boynton Merrill will be the Sunday vesper speaker.
